

**“Research and Evaluation Survey for the Public Education Campaign on Tobacco among LGBT Young Adults (RESPECT)”  
(OMB Control Number 0910-0808)**

**Change Request (83-C)**

**January 23, 2021**

The Food and Drug Administration is submitting this nonmaterial/non-substantive change request (83-C) to incorporate minor edits in the documents for the Research and Evaluation Survey for the Public Education Campaign on Tobacco among LGBT Young Adults (RESPECT).

**Overview of the Change Request for OMB Control No. 0910-0808**

FDA’s *This Free Life* public education campaign aims to prevent or reduce tobacco use among lesbian, gay, bisexual, and transgender (LGBT) young adults. The following changes are requested, which are expected to positively affect the baseline data collection that is currently underway.

Attachment 8: Talking Points for Recruiting Intercept Participants

- Add a pre-screening question that asks for the potential respondent’s age, in order to most efficiently direct field data collection resources and efforts. The pre-screening question is phrased in a way that encourages potential respondents to accurately respond, without making the eligibility criteria too obvious.

Attachment 10: Study Information Card

- Revise the study information card to clarify the procedure for participation to help increase response rates from eligible respondents.

In addition, FDA requests a change to the document association for one of the information collections in this ICR as posted in ROCIS. The correct document for the “Venue Owners Venue Recruitment” IC is “Attachment7\_TalkingPointsforRecruitingVenues”(attached). It should replace the currently associated document, “Attachment8\_ScriptforRecruitingInterceptParticipants.”

Details of the changes are included in the table below, and in the two supporting documents.

In conversations with OMB in the past, we noted that we expected to have non-substantive changes to our instruments based on the development/changes to the campaign creative.
