2019 Science Ambassador Fellowship Summer Course Satisfaction Survey

- Goal of the study (e.g., determine behavioral factors that influence changes in weight over time or evaluate program delivery processes): **To determine if the Science Ambassador Fellowship summer course equipped participants to effectively teach public health; and to ensure the CDC Science Ambassador Fellowship summer course is meeting its goals and attendees' needs.**
- Intended use of the resulting data (e.g., provide suggestions for improving community-based programs): **To provide suggestions for improving summer course content and sessions, logistics, and communication.**
- Methods to be used to collect (e.g., prospective cohort design; randomized trial; etc.): **Web-based survey using Survey Monkey**
- The subpopulation to be studied (e.g., school-age children in North Carolina, conference attendees): **STEM educational leaders and middle and high school teachers who participated in the 2019 CDC Science Ambassador Fellowship summer course.**
- How data will be analyzed (e.g., logistic regression, descriptive statistics): **Data will be collated and analyzed using descriptive statistics.**
