### 2018 Good Laboratory Practices for Biochemical Genetic Testing Preanalytic Phase eLearning Course Learner Feedback Survey

Dear Colleague,

The Division of Laboratory Systems (DLS) at the Centers for Disease Control and Prevention (CDC) is seeking to examine the utility of its **Good Laboratory Practices for Biochemical Genetic Testing Preanalytic Phase eLearning Course**. This online course was produced collaboratively by the Association of Public Health Laboratories and the Division of Laboratory Systems of the Centers for Disease Control and Prevention, to provide an overview of the quality practices in the preanalytic phase of biochemical genetic testing. The course was presented in three sections: 1) Quality assurance for test requisitions, specimen collection and submission; 2) Communications between the laboratory, clinicians and other stakeholders; and 3) Preanalytic quality assessment. The feedback you provide will also inform updates to this course and future course development. You are receiving this email because you have participated in the course.

Your feedback is important in helping CDC improve the quality of our training products and delivery. Please complete this brief survey about the usefulness of the Good Laboratory Practices for Biochemical Genetic Testing Preanalytic Phase eLearning course by clicking the blue **Begin Survey Button** below. The survey questions are anticipated to take approximately 10 minutes to complete and your participation is entirely voluntary. Your responses will be anonymous and no unique identifying information will be sought or kept.

Thank you for your assistance in helping us evaluate the quality of our training products.

Sincerely,

Division of Laboratory Systems  
Center for Surveillance, Epidemiology, and Laboratory Services  
Centers for Disease Control and Prevention (CDC)
