

The screen shots have been divided into two sections.

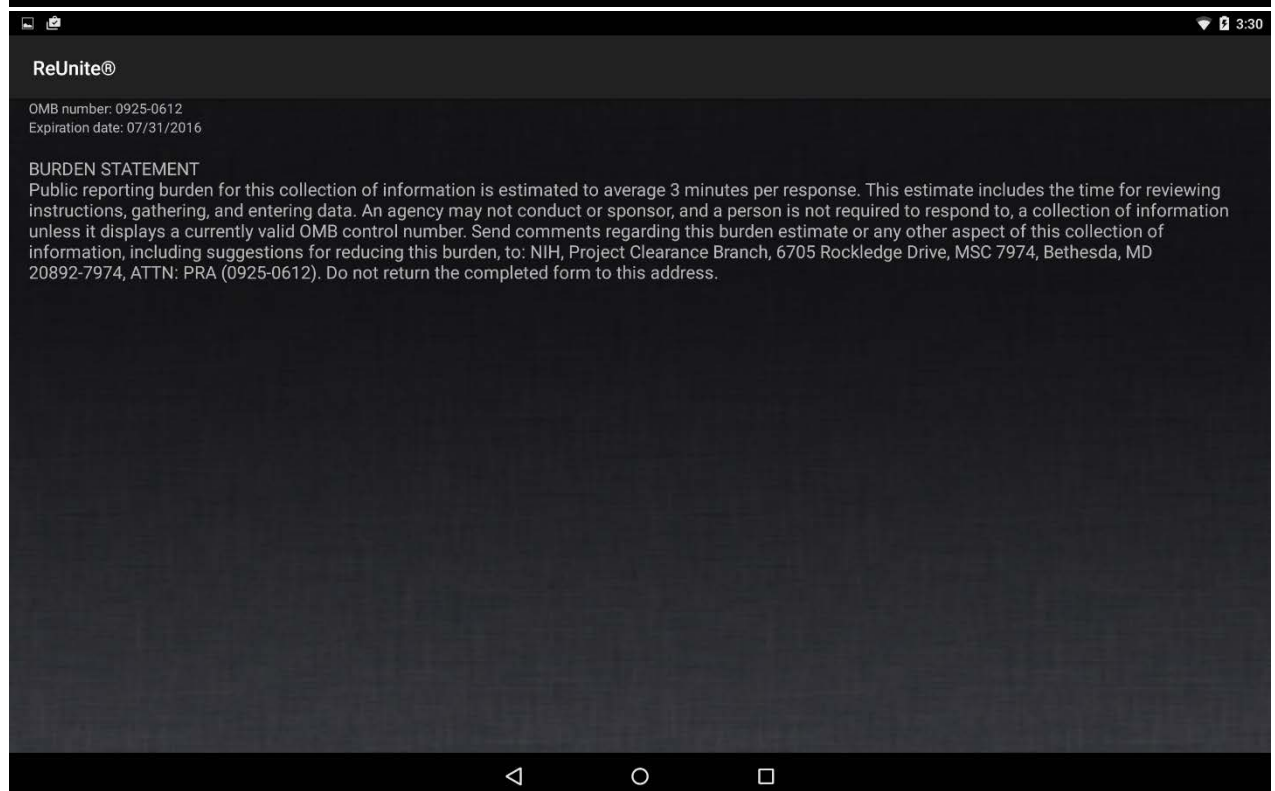

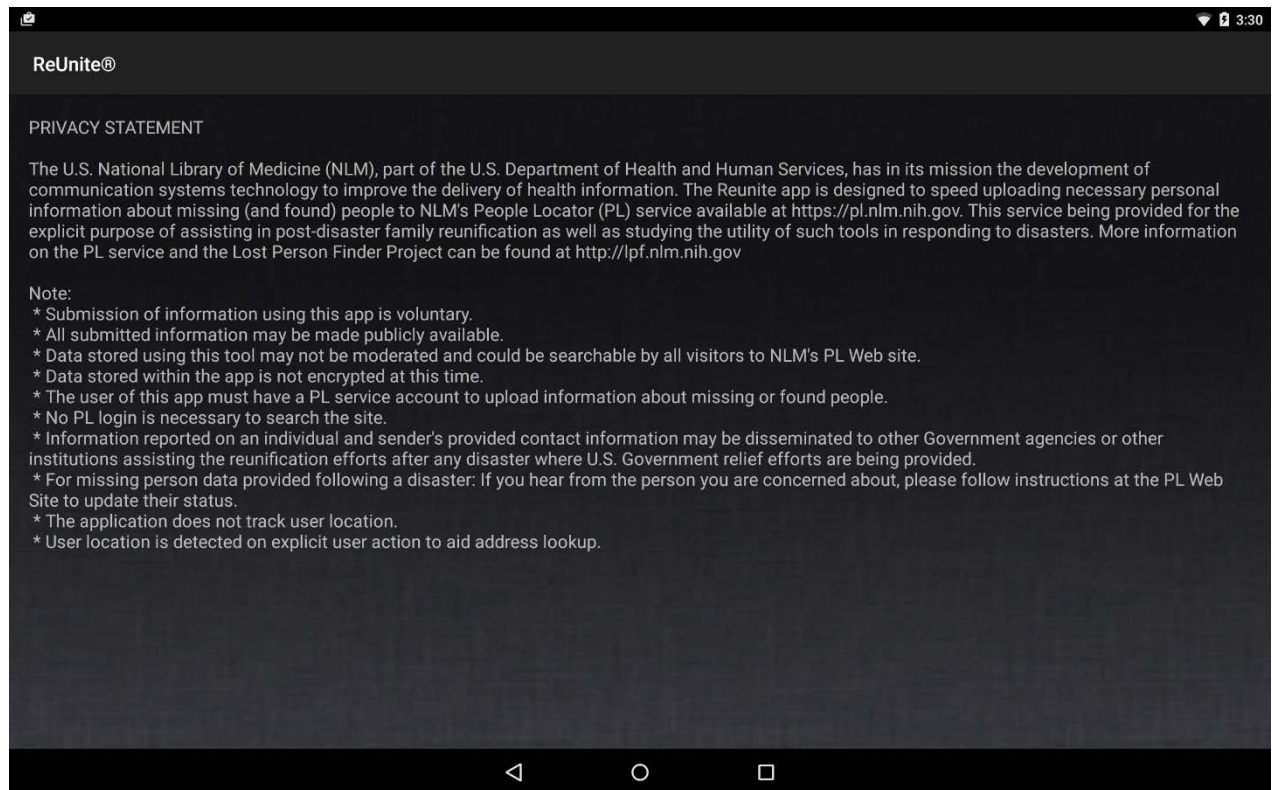

1. For Emergency Workers: These are the screen shots from ReUnite app (Android or iOS) that are intended for the Emergency/Relief workers providing data on “found’ people.

iPhone and iPad Burden and Privacy Statement (only one is shown, for the iPad, as they are both contain the same info): It shows the OMB#, expiration date and the Burden statement and privacy notice which users have to agree too in order to use the app upon first installation. These statements are also accessible from a link in the app at any time. Anyone using the website will see the statements in the next section.

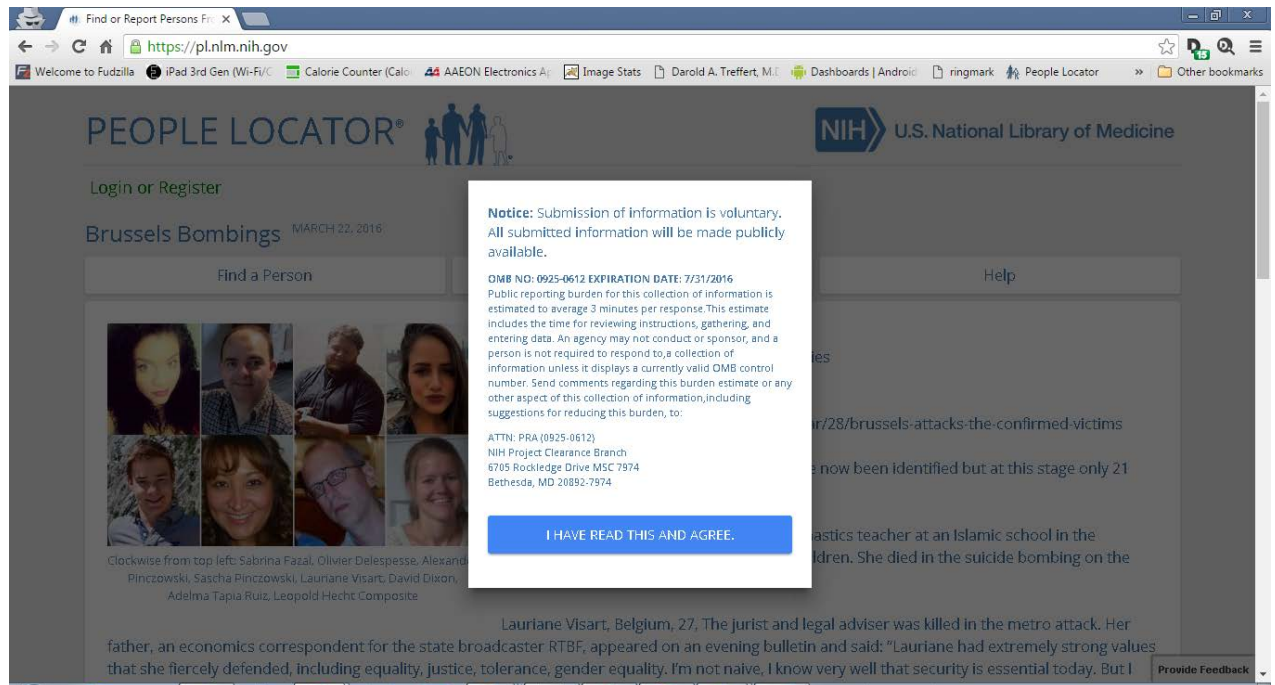

2. For Family Members: These are the screen shots from the ReUnite app (in particular for the Android platform) that are intended for anyone using the app (either iOS or Android versions) or the PEOPLE LOCATOR® website (<https://pl.nlm.nih.gov>) to report or search for found people. These screens show the OMB#, expiration date and the burden and privacy statements which users have to agree too in order to use the app or the website upon first installation or access. These statements are also accessible from a link in the app at any time or at the bottom of the page as can be seen below.

From ReUnite Android version: Privacy and Burden Statements (2 images).

PEOPLE LOCATOR® website Burden Statement (1 image). User cannot proceed until accepting the acknowledging the statement.

PEOPLE LOCATOR® website Privacy Statements (1 image) accessible from link on every page.
