ELECTRONIC NICOTINE PRODUCTS

BOX ID: R04_YVT01

The next questions are about **electronic nicotine products**, such as e-cigarettes, vape pens, personal vaporizers and mods, e-cigars, e-pipes, e-hookahs and hookah pens.

These products are battery-powered and produce vapor or aerosol instead of smoke. They contain nicotine liquid, sometimes called “e-liquid” or “e-juice,” although the amount of nicotine can vary and some may not contain any nicotine at all.

Some can be bought as one-time, disposable products, while others can be bought as re-usable kits that are rechargeable. Some common brands include Vuse, Blu, Logic, MarkTen, NJOY, eGo, and iTaste.

ELECTRONIC NICOTINE PRODUCTS

BOX ID: R04_YVT01

Las siguientes preguntas son acerca de **productos electrónicos con nicotina**, tales como cigarrillos electrónicos, puros electrónicos, pipas electrónicas, hookahs electrónicas, vaporizadores personales de fumar y plumas hookah.

Estos productos funcionan con batería y producen vapor o aerosol en vez de humo. Contienen un líquido con nicotina que a veces se conoce como "líquido electrónico" o "jugo electrónico", aunque la cantidad de nicotina puede variar y es posible que algunos no contengan nada de nicotina.

Algunos se pueden comprar como productos desechables que se usan una sola vez, mientras que otros se compran como productos reusables que son recargables. Algunas marcas conocidas son Vuse, Blu, Logic, MarkTen, NJOY, eGo y iTaste.

ELECTRONIC NICOTINE PRODUCTS

BOX ID: R04_YVT01

The next questions are about **electronic nicotine products**, such as e-cigarettes, vape pens, personal vaporizers and mods, e-cigars, e-pipes, e-hookahs and hookah pens.

These products are battery-powered and produce vapor or aerosol instead of smoke. They contain nicotine liquid, sometimes called “e-liquid” or “e-juice,” although the amount of nicotine can vary and some may not contain any nicotine at all.

Some can be bought as one-time, disposable products, while others can be bought as re-usable kits that are rechargeable. Some common brands include Vuse, Blu, Logic, MarkTen, NJOY, eGo, and iTaste.

El **tabaco que no se fuma** es tabaco que se pone en la boca. El tabaco que no se fuma puede venir suelto o empacado en bolsitas que se ponen bajo el labio. Cuando se consume tabaco que no se fuma, la persona con frecuencia lo mastica, lo chupa o lo escupe, aunque con algunas clases de tabaco que no se fuma no es necesario hacer eso.

Hay muchas clases diferentes de tabaco que no se fuma que se conocen por distintos nombres, así que por favor use las descripciones y las fotos para entender qué tipo de producto es.

El **snus** es una clase de tabaco que no se fuma. Por lo general, el snus viene en bolsitas pero también hay snus que se vende suelto. Normalmente, al consumir la mayoría de clases de tabaco que no se fuma, la persona lo escupe, pero con el snus no es necesario hacerlo. Algunas marcas comunes de snus son Camel Snus, Marlboro Snus y General Snus.

Piense en el **snus** cuando conteste estas preguntas. Más adelante habrá otra sección acerca de las otras clases de productos de tabaco que no se fuma (como el dip, el tabaco de mascar y las bolsitas de tabaco que no se fuma.)

Enable Task 401 for each Wave 4 case: a grouping of SPs eligible for W4 and associated with an R04_FieldedAddress in HMS tbl.PathRptW4CaseDU. The questions below are asked of a household informant age 18+ about all SPs associated with the R04_FieldedAddress (this variable houses all address fields for the W4 case).

LOAD

Defined at Address Level:

R04_FieldedAddress (contains all address fields for the address object that defines the case)

R04_AddressType = {CurrentAddress or MovedAddress or NewVerify}

DUID

R04_NumofPeople_LD - number of people (inclusive of SPs and nonSPs) associated with the DUID

Defined at Person Level:

R04_ExpectedSPEventType_LD = {Adult or ExpectedAdult or Youth}

PID

FirstName

LastName

Gender

R04_BestPhoneNumber (new derivation based on items in HMS contact table)

R04_CURRENT_AGE_LD (calculated by IMS each time at launch)

R04_BESTYTHPARENT_LD (new derivation for Load)

CurrentSP_LD = {1,2}

W1Parent_LD = {1,2}

W2Parent_LD = {1,2}

W3Parent_LD = {1,2}

ActivityFlag_LD = {Active, Inactive, Deceased, Other}

R04_SPWindowStartMonth

R04_SPWindowEndMonth

If R04_AddressType = NewVerify, load above plus:

R04_NewParentfromPreviousVT_LD {1 or 2} and associated PID(s)

R04_NewPersoninVT_LD {1,2} and associated PID(s)

R04_VTA20 (from previous VT)

GLOBAL NOTES:

Disable RF and DK hot keys throughout unless specifically stated/called out in specs.

Add break-off programming (F10) to all screens except Program Boxes and End/Exit screens. If break off at or after R04_VTA05, display EROC screen. Else, do not display EROC screen in IMS. Never display any SP Event or enable any SP level tasks. VT must be completed before displaying any SP Event to user. If break-off, clear all data; when VT is started a subsequent time, begin anew at R04_VTA00.

(B) Create SP-level tasks for all SPs confirmed to have been living at linked W4 address:
