The next question is about [SP YOUTH FIRST NAME].

I'm going to read a list of names. Please tell me who [SP YOUTH NAME]'s parent or guardian is.

READ ALL NAMES ON LIST. PICK PARENT OR GUARDIAN(S) FROM LIST.

[PROGRAM: DISPLAY LIST OF ALL PEOPLE IN HOUSEHOLD HERE]

REMINDER: A PARENT OR GUARDIAN CAN BE A ROLE, RATHER THAN A RELATIONSHIP. THE PARENT OR GUARDIAN SHOULD BE KNOWLEDGEABLE ABOUT THE YOUTH AND BE RESPONSIBLE FOR MAKING DECISIONS ON ACTIVITIES LIKE SCHOOL PERMISSIONS, WHERE TO LIVE, ETCETERA.

- 95 PARENT OR GUARDIAN IS NOT ON THE LIST
- 8 DON'T KNOW

[PROGRAMMING NOTE: FOR SPECIFICATION PURPOSES, THE PERSON FOR WHOM THE CI IS BEING COLLECTED IS REFERRED TO AS THE "TARGET" IN R04_HL0010 to R04_HM0027.]

Full name is collected for all TARGETS. TARGETS are adult SP's, parents or guardians of youth SPs and shadow youth, and youth SP's, shadow youth and emancipated youth. (Parents or guardians of youth SPs and shadow youth are identified in R04_HX0018. The parent or guardian must be part of the same household, so parents or guardians identified in R04_HX0018_OS are not included as TARGETS.)

For [SP ARRAY] create an array that holds the first name of each adult SP and youth SP and emancipated youth SP. Do not include the household screener respondent. The array should hold the first name provided in (R04_HM0061).

After displaying the transition text in R04_HL0009, create a loop and ask R04_HL0010 through R04_HM0027 about all targets. Do not ask these questions about the household screener respondent.

Repeat R04_HL0010 – R04_HM0027 for each TARGET person, following routing as indicated in the loop. Each target person completes this loop a single time, even if they fall under multiple target categories. (For example, if an adult is also a parent of a sampled youth, they only answer these questions once.)

TARGET persons include: All adult SPs, all youth SPs and emancipated youths, all shadow youth, and each parent/guardian of a youth SP or shadow youth.

TARGET persons exclude the household respondent, even if they are an SP or the parent/guardian of a youth SP or shadow youth, because they have already provided contact information.

Go to R04_HL0010 and begin loop for each target person.

The next questions are about electronic nicotine products , such as e-cigarettes, vape pens, personal vaporizers and mods, e-cigars, e-pipes, e-hookahs and hookah pens.
These products are battery-powered and produce vapor or aerosol instead of smoke. Some electronic nicotine products can be bought as one-time, disposable products, while others can be bought as re-usable kits with cartridges or a tank system. They typically use a nicotine liquid called "e-liquid", although the amount of nicotine can vary and some may not contain any nicotine at all.
Some common brands include Vuse, Blu, Logic, MarkTen, NJOY, eGo, and iTaste.

PROGRAM: CREATE **CIGARLOOP1** FOLLOWING ROUTING INSTRUCTIONS FOR VARIOUS CIGAR TYPES:

For Cigars (non-blunt):

Repeat Box R04_AGR05 through Box R04_AGR06 in a loop for each type of cigar the respondent has used in the following order: traditional cigars, cigarillos, filtered cigars. (This excludes any type of cigar the respondent has smoked as a blunt every time in the past 12 months.)

For Cigars as Blunt-Only:

Blunt-only cigar smokers will be asked Box R04_AGR05 through Box R04_AGR06 in a loop for each type of cigar the respondent has used as blunt-only in the following order: traditional cigars, cigarillos, filtered cigars. The purpose is to assess for recent nicotine exposure via blunt usage to inform the biospecimen analysis. Display text instructions in addition to [CIGARFILL] text will be specified in the question DISPLAY statement.

The next questions are about **smokeless tobacco** other than snus.

Smokeless tobacco is a type of tobacco which you put in your mouth and chew, suck, or spit. It may be loose or packaged in small pouches that you can place directly in your mouth. There are many kinds of smokeless tobacco, such as dip, spit, moist snuff, pouches and chewing tobacco. Common brands include Skoal, Copenhagen, Grizzly, Redman, and Levi Garrett.

Please do **not** include snus when answering the following questions.

Las siguientes preguntas son acerca de **productos electrónicos con nicotina**, tales como cigarrillos electrónicos, puros electrónicos, pipas electrónicas, hookahs electrónicas, vaporizadores personales de fumar y plumas hookah.

Estos productos funcionan con batería y producen vapor o aerosol en vez de humo. Algunos productos electrónicos con nicotina se pueden comprar como productos desechables que se usan una sola vez, mientras que otros se compran como productos reusables que vienen con cartuchos o un sistema de tanque. Normalmente usan un líquido con nicotina llamado "líquido electrónico", aunque la cantidad de nicotina puede variar y es posible que algunos no contengan nada de nicotina.

Algunas marcas conocidas son Vuse, Blu, Logic, MarkTen, NJOY, eGo y iTaste.

El tabaco que no se fuma es tabaco que se pone en la boca. El tabaco que no se fuma puede venir suelto o empaçado en bolsitas que se ponen bajo el labio. Cuando se consume tabaco que no se fuma, la persona con frecuencia lo mastica, lo chupa o lo escupe, aunque con algunas clases de tabaco que no se fuma no es necesario hacer eso.

Hay muchas clases diferentes de tabaco que no se fuma que se conocen por distintos nombres, así que por favor use las descripciones y las fotos para entender qué tipo de producto es.

El **snus** es una clase de tabaco que no se fuma. Por lo general, el snus viene en bolsitas pero también hay snus que se vende suelto. Normalmente, al consumir la mayoría de clases de tabaco que no se fuma, la persona lo escupe, pero con el snus no es necesario hacerlo. Algunas marcas comunes de snus son Camel Snus, Marlboro Snus y General Snus.

The next questions are about electronic nicotine products , such as e-cigarettes, vape pens, personal vaporizers and mods, e-cigars, e-pipes, e-hookahs and hookah pens.
These products are battery-powered and produce vapor or aerosol instead of smoke. Some electronic nicotine products can be bought as one-time, disposable products, while others can be bought as re-usable kits with cartridges or a tank system. They typically use a nicotine liquid called "e-liquid", although the amount of nicotine can vary and some may not contain any nicotine at all.

Smokeless tobacco is tobacco which you put in your mouth. Smokeless tobacco may be loose or it may be packaged in small pouches that you place under your lip. Frequently you chew, suck, or spit while using smokeless tobacco, although for some types you may not need to.

There are many different types of smokeless tobacco which go by lots of different names, so please use these descriptions and photos to understand what they are.

ELECTRONIC NICOTINE PRODUCTS

BOX ID: R04_AVT02

The next questions are about **electronic nicotine products**.

Some electronic nicotine products can be bought as one-time, disposable products, while others can be bought as re-usable kits with a cartridge or tank system. Some people refill their own electronic nicotine products with nicotine fluid, sometimes called "e-liquid" or "e-juice".

Disposable electronic nicotine products, electronic nicotine product cartridges and e-liquid come in many different flavors and nicotine concentrations. Some common brands include Vuse, Blu, Logic, MarkTen, NJOY, eGo, and iTaste.

 Blunt/Cigar Loops If the respondent has smoked cigars as blunts-only, R04_AJ1008[TC/CG/FC] through R04_AJ1071[TC/CG/FC] are repeated in a loop for each cigar type as blunts. PROGRAM - DISPLAY THE FOLLOWING TRANSITION TEXT AT THE START OF LOOPS:

IF LOOP=BTRAD (Traditional Cigars as blunts-only):

The next questions are about traditional cigars when smoked as blunts.

Traditional cigars contain tightly rolled tobacco that is wrapped in a tobacco leaf. Sometimes people take tobacco out of a traditional cigar and replace it with marijuana. This is sometimes called a blunt. As you answer these questions, please think only about your use of traditional cigars when smoked as blunts like those shown below. [ONLY IF THIS IS NOT THE LAST TIME THROUGH THE BLUNT SECTION:] There will be a separate section later about other kinds of blunts.

[SHOW GENERIC IMAGE OF TRADITIONAL CIGAR]

IF LOOP=BRILLO (Cigarillos as blunts-only):

The next questions are about cigarillos when smoked as blunts.

Cigarillos are medium-sized cigars and sometimes come with plastic or wood tips. [Sometimes people take tobacco out of a cigarillo and replace it with marijuana. This is sometimes called a blunt.] As you answer these questions, please think only about your use of cigarillos when smoked as blunts like those shown below. [ONLY IF THIS IS NOT THE LAST TIME THROUGH THE BLUNT SECTION:] There will be a separate section later about other kinds of blunts.

[SHOW GENERIC IMAGE OF CIGARILLO]

IF LOOP=BFILTR (Filtered Cigars as blunts-only):

The next questions are about filtered cigars when smoked as blunts.

Filtered cigars are usually brown and have a filter like a cigarette. [Sometimes people take tobacco out of a filtered cigar and replace it with marijuana. This is sometimes called a blunt.] As you answer these questions, please think only about your use of filtered cigars when smoked as blunts like those shown below.

If **current user or recent former user of tobacco** go through the Nicotine Dependence e-product and tobacco modules according to the following conditions:

Condition a: Respondents who currently use or formerly used in the past 12 months only one product. Condition **a** will be asked the questions in either the e-product module or the tobacco module (not both), with fills tailored to their specific product.

Condition b: Respondents who currently use or formerly used in the past 12 months more than one product, where one of those products is/was an electronic nicotine product. Condition **b** will respond to the questions in both modules; the e-product module will be tailored to their electronic nicotine product and the tobacco module will be tailored to their other specific product.

Condition c: Respondents who currently use or formerly used in the past 12 months two or more products, where none of those products is an e-product. Condition **c** will respond to the questions in the tobacco module only, with fills tailored to their tobacco use overall.

Condition d: Respondents who currently use or formerly used in the past 12 months three or more products, where one of those products is/was an e-product. Condition **d** will respond to the questions in both modules; the e-product module will be tailored to their electronic nicotine product and the tobacco module will be tailored to their tobacco use overall.

Else, if **experimental current user of only electronic nicotine products and not a current or former user of any product**, go to R04_AN0330_12ME and go through the e-product module once according to condition a.

Else, if **experimental current user of only one product and not a current or former user of any product**, go to R04_AN0330_12M and go through the tobacco module once according to condition a.

Else, if **experimental current user of more than one product and not a current or former user of any product**, go through the section according to conditions a, b, c, or d.

Finally, we would like to scan the barcode on any tobacco products that you have right now for your own use[, including your [EPRODFILL2]]. Researchers will use this information to learn about the different types of products that people are using.

We are only interested in the products that you have used or intend to use soon.

Our interviewer will do the scanning for you. The interviewer will also ask you a couple of questions about the products we are scanning. Other people in your home might see the products as you hand them to the interviewer or hear the questions we ask you about the products.

Las siguientes preguntas son acerca de **productos electrónicos con nicotina**, tales como cigarrillos electrónicos, puros electrónicos, pipas electrónicas, hookahs electrónicas, vaporizadores personales de fumar y plumas hookah.

Estos productos funcionan con batería y producen vapor o aerosol en vez de humo. Algunos productos electrónicos con nicotina se pueden comprar como productos desechables que se usan una sola vez, mientras que otros se compran como productos reusables que vienen con cartuchos o un sistema de tanque. Normalmente usan un líquido con nicotina llamado "líquido electrónico", aunque la cantidad de nicotina puede variar y es posible que algunos no contengan nada de nicotina.

Algunas marcas conocidas son Vuse, Blu, Logic, MarkTen, NJOY, eGo y iTaste.

PROGRAM: CREATE CIGARLOOP1 FOLLOWING ROUTING INSTRUCTIONS FOR VARIOUS CIGAR TYPES:

For Cigars (non-blunt):

Repeat Box R04_AGR05 through Box R04_AGR06 in a loop for each type of cigar the respondent has used in the following order: traditional cigars, cigarillos, filtered cigars. (This excludes any type of cigar the respondent has smoked as a blunt every time in the past 12 months.)

For Cigars as Blunt-Only:

Blunt-only cigar smokers will be asked Box R04_AGR05 through Box R04_AGR06 in a loop for each type of cigar the respondent has used as blunt-only in the following order: traditional cigars, cigarillos, filtered cigars. The purpose is to assess for recent nicotine exposure via blunt usage to inform the biospecimen analysis. El tabaco que no se fuma es tabaco que se pone en la boca. El tabaco que no se fuma puede venir suelto o empacado en bolsitas que se ponen bajo el labio. Cuando se consume tabaco que no se fuma, la persona con frecuencia lo mastica, lo chupa o lo escupe, aunque con algunas clases de tabaco que no se fuma no es necesario hacer eso.

Hay muchas clases diferentes de tabaco que no se fuma que se conocen por distintos nombres, así que por favor use las descripciones y las fotos para entender qué tipo de producto es.

El **snus** es una clase de tabaco que no se fuma. Por lo general, el snus viene en bolsitas pero también hay snus que se vende suelto. Normalmente, al consumir la mayoría de clases de tabaco que no se fuma, la persona lo escupe, pero con el snus no es necesario hacerlo. Algunas marcas comunes de snus son Camel Snus, Marlboro Snus y General Snus.

Piense en el **snus** cuando conteste estas preguntas. Más adelante habrá otra sección acerca de las otras clases de productos de tabaco que no se fuma (como el dip, el tabaco de mascar y las bolsitas de tabaco que no se fuma.)

Finalmente, nos gustaría escanear el código de barra de cualquier producto de tabaco que tenga consigo ahora para su consumo propio[, incluyendo sus EPRODFILL2]. Los investigadores usarán esta información para conocer los distintos tipos de productos que las personas consumen.

Únicamente nos interesan los productos que ha consumido o que tiene pensado consumir pronto.

Nuestro entrevistador escaneará el producto. El entrevistador también le hará un par de preguntas acerca de los productos que estamos escaneando. Puede ser que otras personas en su casa vean los productos cuando se los dé al entrevistador, o podrían escuchar las preguntas que le hagamos acerca de los productos.

¿Le parece bien si escaneamos los productos de tabaco ahora?

The next questions are about electronic nicotine products , such as e-cigarettes, vape pens, personal vaporizers and mods, e-cigars, e-pipes, e-hookahs and hookah pens. These products are battery-powered and produce vapor or aerosol instead of smoke. Some electronic nicotine products can be bought as one-time, disposable products, while others can be bought as re-usable kits with cartridges or a tank system. They typically use a nicotine liquid called "e-liquid", although the amount of nicotine can vary and some may not contain any nicotine at all. ELECTRONIC NICOTINE PRODUCTS

BOX ID: R04_AVT02

The next questions are about **electronic nicotine products**.

Some electronic nicotine products can be bought as one-time, disposable products, while others can be bought as re-usable kits with a cartridge or tank system. Some people refill their own electronic nicotine products with nicotine fluid, sometimes called "e-liquid" or "e-juice".

Disposable electronic nicotine products, electronic nicotine product cartridges and e-liquid come in many different flavors and nicotine concentrations. Some common brands include Vuse, Blu, Logic, MarkTen, NJOY, eGo, and iTaste.

PROGRAM - DISPLAY THE FOLLOWING TRANSITION TEXT AT THE START OF LOOPS:

IF LOOP=BTRAD (Traditional Cigars as blunts-only):

The next questions are about traditional cigars when smoked as blunts.

Traditional cigars contain tightly rolled tobacco that is wrapped in a tobacco leaf. Sometimes people take tobacco out of a traditional cigar and replace it with marijuana. This is sometimes called a blunt. As you answer these questions, please think only about your use of traditional cigars when smoked as blunts like those shown below. [ONLY IF THIS IS NOT THE LAST TIME THROUGH THE BLUNT SECTION:] There will be a separate section later about other kinds of blunts.

[SHOW GENERIC IMAGE OF TRADITIONAL CIGAR]

IF LOOP=BRILLO (Cigarillos as blunts-only):

The next questions are about cigarillos when smoked as blunts.

Cigarillos are medium-sized cigars and sometimes come with plastic or wood tips. [Sometimes people take tobacco out of a cigarillo and replace it with marijuana. This is sometimes called a blunt.] As you answer these questions, please think only about your use of cigarillos when smoked as blunts like those shown below. [ONLY IF THIS IS NOT THE LAST TIME THROUGH THE BLUNT SECTION:] There will be a separate section later about other kinds of blunts.

[SHOW GENERIC IMAGE OF CIGARILLO]

IF LOOP=BFILTR (Filtered Cigars as blunts-only):

The next questions are about filtered cigars when smoked as blunts.

Filtered cigars are usually brown and have a filter like a cigarette. [Sometimes people take tobacco out of a filtered cigar and replace it with marijuana. This is sometimes called a blunt.] As you answer these questions, please think only about your use of filtered cigars when smoked as blunts like those shown below.

Las siguientes preguntas son acerca de **productos electrónicos con nicotina**, tales como cigarrillos electrónicos, puros electrónicos, pipas electrónicas, hookahs electrónicas, vaporizadores personales de fumar y plumas hookah.

Estos productos funcionan con batería y producen vapor o aerosol en vez de humo. Algunos productos electrónicos con nicotina se pueden comprar como productos desechables que se usan una sola vez, mientras que otros se compran como productos reusables que vienen con cartuchos o un sistema de tanque. Normalmente usan un líquido con nicotina llamado "líquido electrónico", aunque la cantidad de nicotina puede variar y es posible que algunos no contengan nada de nicotina.

Algunas marcas conocidas son Vuse, Blu, Logic, MarkTen, NJOY, eGo y iTaste.

PROGRAM: CREATE CIGARLOOP1 FOLLOWING ROUTING INSTRUCTIONS FOR VARIOUS CIGAR TYPES:

For Cigars (non-blunt):

Repeat Box R04_AGR05 through Box R04_AGR06 in a loop for each type of cigar the respondent has used in the following order: traditional cigars, cigarillos, filtered cigars. (This excludes any type of cigar the respondent has smoked as a blunt every time in the past 12 months.)

For Cigars as Blunt-Only:

Blunt-only cigar smokers will be asked Box R04_AGR05 through Box R04_AGR06 in a loop for each type of cigar the respondent has used as blunt-only in the following order: traditional cigars, cigarillos, filtered cigars. The purpose is to assess for recent nicotine exposure via blunt usage to inform the biospecimen analysis. Display text instructions in addition to [CIGARFILL] text will be specified in the question DISPLAY statement.

El tabaco que no se fuma es tabaco que se pone en la boca. El tabaco que no se fuma puede venir suelto o empaclado en bolsitas que se ponen bajo el labio. Cuando se consume tabaco que no se fuma, la persona con frecuencia lo mastica, lo chupa o lo escupe, aunque con algunas clases de tabaco que no se fuma no es necesario hacer eso.

Hay muchas clases diferentes de tabaco que no se fuma que se conocen por distintos nombres, así que por favor use las descripciones y las fotos para entender qué tipo de producto es.

El **snus** es una clase de tabaco que no se fuma. Por lo general, el snus viene en bolsitas pero también hay snus que se vende suelto. Normalmente, al consumir la mayoría de clases de tabaco que no se fuma, la persona lo escupe, pero con el snus no es necesario hacerlo. Algunas marcas comunes de snus son Camel Snus, Marlboro Snus y General Snus.

Las siguientes preguntas son acerca del **tabaco que no se fuma**, sin incluir el snus.

El tabaco que no se fuma es una clase de tabaco que se pone en la boca y se mastica, se chupa o se escupe. Puede venir suelto o en bolsitas que se ponen en la boca. Hay muchas clases de tabaco que no se fuma, como por ejemplo el dip, el rapé o tabaco de inhalar, bolsitas y el tabaco de mascar. Algunas marcas conocidas son Skoal, Copenhagen, Grizzly, Redman y Levi Garrett.

Por favor **no** incluya el snus cuando conteste las siguientes preguntas.

En el futuro, es posible que el cuestionario de PATH se pueda contestar por Internet en su computadora de escritorio, computadora portátil o tableta. Debido a su longitud, el cuestionario no se podrá contestar en teléfonos inteligentes o smartphones.

Usted podrá contestar el cuestionario cuando le convenga, sin la presencia de un entrevistador. El incentivo llegaría por correo unos días después de que conteste el cuestionario.

Cree que contestar el cuestionario PATH por Internet en su computadora de escritorio, computadora portátil o tableta, ¿le interesaría mucho, un poco o en absoluto?

Finalmente, nos gustaría escanear el código de barra de cualquier producto de tabaco que tenga consigo ahora para su consumo propio[, incluyendo sus EPRODFILL2]. Los investigadores usarán esta información para conocer los distintos tipos de productos que las personas consumen.

Únicamente nos interesan los productos que ha consumido o que tiene pensado consumir pronto.

Nuestro entrevistador escaneará el producto. El entrevistador también le hará un par de preguntas acerca de los productos que estamos escaneando. Puede ser que otras personas en su casa vean los productos cuando se los dé al entrevistador, o podrían escuchar las preguntas que le hagamos acerca de los productos.

¿Le parece bien si escaneamos los productos de tabaco ahora?
