A. Program Description

What is this grant program?

Sparks! Ignition Grants for Libraries (Sparks Grants) are a special funding opportunity within the IMLS National Leadership Grants for Libraries program. These small grants encourage libraries and archives to prototype and evaluate specific innovations in the ways they operate and the services they provide resulting in new tools, products, services, or organizational practices. You may propose activities or approaches that involve risk, but the project results – be they success, failure, or a combination thereof – must offer valuable information to the library or archives fields, promise an impact beyond the applicant's institution and provide the potential for improvement in the ways libraries and archives serve their communities. You are required to submit a short white paper, which will be publicly posted and shared.

What are the IMLS Agency-level goals?

The mission of the Institute of Museum and Library Services (IMLS) is to inspire libraries and museums to advance innovation, lifelong learning, and cultural and civic engagement. We provide leadership through research, policy development, and grant making.

U.S. museums and libraries are at the forefront in the movement to create a nation of learners. As stewards of cultural and natural heritage with rich, authentic content, libraries and museums provide learning experiences for everyone. In FY2016, each award under this program will support one of the following three goals of the [IMLS strategic plan](#) for 2012-2016, *Creating a Nation of Learners*:

1. IMLS places the learner at the center and supports engaging experiences in libraries and museums that prepare people to be full participants in their local communities and our global society.
2. IMLS promotes museums and libraries as strong community anchors that enhance civic engagement, cultural opportunities, and economic vitality.
3. IMLS supports exemplary stewardship of museum and library collections and promotes the use of technology to facilitate discovery of knowledge and cultural heritage.

The goals focus on achieving positive public outcomes for communities and individuals; supporting the unique role of museums and libraries in preserving and providing access to collections and content; and promoting library, museum, and information service policies that ensure access to information for all Americans.

Subawards and Contracts

In addition to the activities that you carry out directly, some project activities may be carried out by utilizing IMLS funds for either subawards or contracts. It is your responsibility to make a case-by-case determination as to whether each agreement you make for the disbursement of federal program funds casts the party receiving the funds in the role of a subrecipient or a contractor. (See 2 CFR 200.330 (Subrecipient and contractor determinations)).

There are particular requirements for subawards that you must follow as a pass-through entity (a non-federal entity that provides a subaward to a subrecipient to carry out part of a federal program). (See 2 CFR 200.74 (Pass-through entity) and 2 CFR 200.331 (Requirements for pass-through entities)). There are other requirements that you must follow if you contract for activities. - if you have never had a federally negotiated indirect cost rate and you are otherwise eligible, use a rate not to exceed 10% of total modified direct costs or
- not include any indirect costs

What are the characteristics of successful applications?

- *National or professional impact:* Your project should address a key goal identified in the IMLS priorities.
- *In depth knowledge:* Your proposal should reflect a thorough understanding of relevant work, current practice and knowledge about the subject matter.
- *Demonstrable results:* Your project should generate measureable results that tie directly to the need or challenge it was designed to address.

What is the review and selection process?

We use a peer review process to evaluate all eligible and complete applications. Reviewers are professionals in the field with relevant knowledge and expertise in the types of project activities identified in the applications. They are instructed to evaluate applications according to the Review Criteria above. Reviewer conflicts of interest are identified prior to review, and reviewers who may have conflicts with particular applications are reassigned to review other projects.

The Director takes into account the advice provided by the review process and makes final funding decisions consistent with the purposes of the agency's programs.

Reviewers are directed to follow the review criteria described in Section D above.

When will awards be announced?

We will not release information about the status of an application until the applications have been reviewed and all deliberations are concluded. For full proposals, we expect to notify both funded and unfunded applicants of final decisions by September 2016. Funded projects may not begin earlier than October 1, 2016.

What are the administrative and national policy requirements?

Organizations that receive IMLS grants or cooperative agreements are subject to the [IMLS General Terms and Conditions for IMLS Discretionary Awards](#) and the [IMLS Assurances and Certifications](#). Organizations that receive IMLS funding must be familiar with these requirements and comply with applicable law.

As an applicant for federal funds, you must certify that you are responsible for complying with certain nondiscrimination, debarment and suspension, drug-free workplace, and lobbying laws. These are set out in more detail, along with other requirements, in the [Assurances and Certifications](#). By signing the application form, which includes the Assurances and Certifications, you certify that you are in compliance with these requirements and that you will maintain records and submit any reports that are necessary to ensure compliance. Your failure to comply with these statutory and regulatory requirements may result in the suspension or termination of your grant and require you to return funds to the government.

What are the reporting requirements?

Reports are due according to the reporting schedule that accompanies your Official Award Notification for Grants and Cooperative Agreements. Please note that recipients must submit performance reports in the format defined by the IMLS; both interim and final performance reports may be accessible on the IMLS website to support the agency's commitment to open government, to engage the public in communities of practice and to inform application development and grant making strategies.
