## Capacity Building Assistance Assessment for HIV Prevention

### Attachment 3

### **CBO CBA Assessment Tool**

Public reporting burden of this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

### Information about the CBO Capacity Building Assistance Assessment Process

The community-based organization (CBO) Capacity Building Assistance (CBA) Assessment (CBO CBA Assessment) is designed to assist CBA Providers and the Centers for Disease Control and Prevention (CDC) in identifying areas of CBA needed by your organization to implement your comprehensive High Impact Prevention (HIP) programs and services as required under your Funding Opportunity Announcement. The CBO CBA Assessment Tool must be completed by all funded organizations. For those organizations funded as a Partnership, the CBO CBA Assessment Tool should be completed by the Lead CBO HIV Prevention Partnership Organization, in consultation with their partners (reflecting the services that are provided by each Partnership member, as a part of the overall Comprehensive High-Impact HIV Prevention program). In addition, the Lead Partnership Organization should complete Section M for Partnerships only. CBOs funded specifically for Young Men of Color who have sex with men (MSM) and young Transgender Persons (YTG) of color, should complete Section N. CBOs not funded for either Partnerships or MSM and YTG should skip to Section O, Prioritization of CBA Needs. All CBOs should Complete Section O.

The process for the assessment includes: (1) Completion and submission of the CBO CBA Assessment Tool by all CBOs or Lead Partnership Organizations; (2) Review of the information in preparation for the site visit/web conference by the CBA Provider; and, (3) Development of a CBA Strategic Plan (CBASP) for each CBO and Partnership. This CBASP will become part of the CBA Request Information System (CRIS) and will be used as a reference for responding to the CBA needs of the CBOs and Partnerships during the course of your five year cooperative agreement.
