i. INTRODUCTION

INTERVIEWER SELECT STAFF NAME, SITE NAME AND RESPONDENT GENDER FROM DROP DOWN MENU.

PROGRAMMER: PRELOAD STAFF NAMES, GENDER AND SITE NAMES.

1. Hello, my name is [INTERVIEWER NAME], and I work for the University of Wisconsin Survey Center. I understand that you are interested in [INSERT STATE PROGRAM NAME HERE] and the National Child Support Noncustodial Parent Employment Demonstration study which is called CSPED for short. Is that correct?

YES..... 1

NO..... 0 GO TO 6a

2. Great. Thanks for taking the time to talk to me today. I would like to tell you a little bit more about the study. Please stop me at any time if you have a question.

[PROGRAM NAME] is part of the CSPED study, a national study being conducted by the U.S. Department of Health and Human Services. The Department of Health and Human Services has asked a research team from the University of Wisconsin and Mathematica Policy Research to help with the study.

The main purpose of this study is to better understand if [INSERT PROGRAM NAME HERE] helps parents like you. We are interested in whether the program helps noncustodial parents meet their child support obligations by providing additional services that work better together. These include child support services, employment services, and parenting activities. Through the study, we hope to learn if these extra services address families' needs and how they could be improved.

The chance to receive extra services through the [INSERT STATE PROGRAM NAME HERE] is available only to those who agree to participate in the study. If you want to be eligible to receive these extra services, you have to agree to be a part of the CSPED study. If you decide that you do not want to be a part of the study, you will not have a chance to receive the extra services and will receive the regular or "usual" services that you would have received even if the study was not being done.

If you decide to participate in the study, I will ask you to complete a short interview on the telephone with me today. This will take about 30 minutes. If you choose to be a part of the study, you will receive a \$10 gift card for your participation in today's interview.

Do you have any questions about what I've said so far?

YES..... 1

NO..... 0 GO TO 3

- 2a. What is your question?

INTERVIEWER: PRESS F10 TO ACCESS FAQ

3. Because space is limited and we cannot provide extra services to all the parents who would like to receive them, the research team created a computer program to randomly select which parents will be able to participate in our program. If you agree to participate in the study, the computer will place you into one of two groups: one group will receive extra services through the [INSERT STATE PROGRAM NAME HERE] at no cost to them; the other group will not receive services beyond the services they would have received even if the study was not being conducted. The computer works like a flip of a coin; you would have 50 percent chance of being assigned to the group that receives the extra services and a 50 percent chance of being assigned to the group who receives the regular or "usual" services. The process is random and the chance of being selected to receive extra services is not influenced by what you say to me or to program staff.

A staff member from [INSERT STATE PROGRAM NAME HERE] will let you know which group you are in after today's interview.

It is important you understand that even if you are not randomly selected to receive extra services, you will still be part of the study so that researchers can compare your experiences to those who are selected to receive them. In order to be able to do this, the researchers will collect and track information about you.

Do you have any questions at this time?

YES..... 1

NO..... 0 GO TO 4

3a. What is your question?

INTERVIEWER: PRESS F10 TO ACCESS FAQ

4. Whether or not you are selected to receive the extra services, we will contact you again in about one year to update some of the information you give us today and ask some new questions. We hope to use this information and the information you provide today to learn if [INSERT PROGRAM NAME HERE] helps families and learn how it could be improved. You will receive an additional \$25 gift card if you participate in the follow-up interview.

You may also be asked to participate in focus groups as a part of this study. You would receive a \$20 gift card as a token of appreciation for the time you spend in these activities.

Whether or not you take part in the follow-up survey and focus groups is up to you and will have no effect on the services you receive.

4a. What is your question?

INTERVIEWER: PRESS F10 TO ACCESS FAQ

5. If you agree to be in the study, regardless of whether you are assigned to the group that receives the extra services or the group who receives regular or "usual" services, it means you agree it is ok for [INSERT PROGRAM NAME HERE] to share information with the study team about you and the services you receive. The study team will contact federal and state agencies for information about your employment and earnings, child support orders, experiences with the criminal justice system and child welfare system, and other benefits or services you may receive from public programs, ~~and will obtain a copy of your credit report.~~ This information and everything you tell the program staff or the interviewers will be kept private and will not be shared with anyone. However, if you tell a person on the study team about child abuse or if you threaten to harm yourself or someone else, it must be reported by law.

At any time, after you have been placed in a group, you can call our study helpline to say that you no longer want the program to share information about you with the researchers, and that will have no effect on the services available to you. By agreeing now to be in the study, even if later you tell us you want to withdraw from the study, you are authorizing researchers to use information that was collected about you before you withdrew.

Do you have any questions now?

5a. What is your question?

6.

This study also has a Certificate of Confidentiality from the National Institutes of Health. This means that we will not share information that could identify you, even if a court asks us to, unless the U.S. Government demands information to audit or evaluate federal projects or to meet the Food and Drug Administration’s requirements. This certificate does not stop you from choosing to share information about yourself or your part in this study.

The information from all study participants will be combined and written up in a report to the U.S. Department of Health and Human Services. Researchers might use information from this study in journals, books or presentations. However, nothing will be said about you as an individual. Instead, information about you will be combined with information about everybody else in the study, so the researchers can say things like “30 percent of parents in the program have two children.”

6a. What is your question?

INTERVIEWER: PRESS F10 TO ACCESS FAQ

7. If you are assigned to the group that receives the extra services, you will receive these services, which could better enable you to meet your child support obligations. If you are assigned to the group that receives regular or “usual” services, you will not benefit from the extra services provided through [INSERT STATE PROGRAM NAME]. However, your participation will help the Department of Health and Human Services learn how to better provide services in the future to other parents like you.

There is minimal risk related to taking part in this study. In the unlikely event that there is a breach in confidentiality, your participation in this program could become known. There is also a risk that you may feel uncomfortable answering some questions in the interview about your relationships, income, program participation, and barriers to employment (such as drug or alcohol use and past contact with the criminal justice system). You can refuse to answer those questions if you wish, and it will not change the services you receive.

You can ask any questions about the study at any time. If you have questions about the study, you can contact the Principal Investigators, Maria Cancian or Dan Meyer at the University of Wisconsin. If you are not satisfied with their answers, have more questions, or want to talk with someone about your rights as a participant in this study, you can contact the Education Research and Social & Behavioral Science IRB Office at the University of Wisconsin. These telephone numbers are listed in the “Consent Information Sheet” provided to you today by program staff.
