Resource Organization Initial Questionnaire

CDC National Prevention Information Network
Resource Organization Online Questionnaire

The National Prevention Information Network (NPIN) is a clearinghouse service provided by the U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention (CDC). A primary goal is to serve as a comprehensive source for information about organizations in the United States that provide services and resources related to HIV/AIDS-, Viral Hepatitis-, STD-, and TB-related infections. NPIN is authorized to collect this information by Section 301 of the Public Health Service Act (42 U.S.C. 241). This information is organized and maintained by the NPIN online database. The mission of NPIN is to serve the information needs of State and local HIV/AIDS/Viral Hepatitis/STD/TB program personnel and other professionals. The general public also has access to this information from the NPIN website (http://cdcnpin.org) or by calling CDC-INFO (formerly the CDC National AIDS and STD Hotline), which provides referrals from the NPIN database to local service organizations.

One of NPIN's most pressing needs is to gather and update information about HIV/AIDS-, Viral Hepatitis-, STD-, and TB-related resources and services. The information you provide about your organization or program will be added to the CDC NPIN database and will be made available to professionals and other users. Your participation is voluntary.

Instructions

This Resource Organization Questionnaire is designed to help us learn as much information as we can about the services of your organization. It is comprised of 6 Sections. The first section (12 questions) is intended for all respondents to answer. The following 3 sections ask about your organization's clients; direct services your organization provides to clients; and the education, information, and research services your organization provides. The final 2 sections inquire about access procedures and any additional comments. The Questionnaire is designed to cover many different types and sizes of organizations; therefore, some questions may not apply to your organization. A number of skip patterns allow you to by-pass sections of the Questionnaire that are not applicable to your organization.

Complete the Questionnaire online. *Please note that the last section asks for your name and phone number. This information is important if we need to clarify your answers. Also, we urge you to attach electronic copies of information about your organization, particularly if additional space is needed to fully describe your services.*

When completed, you may submit the Questionnaire online by clicking the Submit button. You may also print a hard copy of the completed questionnaire and return it to the following address or fax it to (888) 282-7681. For additional information, please call (800) 458-523l.
