Form Approved
OMB No.0920-0255
Exp. date: 01/31/2014

CDC National Prevention Information Network

Public reporting burden of this collection of information is estimated to vary from 10-30 minutes per response, with average of 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, or respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 20222; ATTN: PRA (0920-0255).

Initial Questionnaire Telephone Script

Hello, my name is _____ and I am calling from the CDC National Prevention Information Network.

The National Prevention Information Network (NPIN) is a clearinghouse service provided by the U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention (CDC). A primary goal of NPIN is to serve as a comprehensive source for information about organizations in the United States that provide HIV/AIDS-, Viral Hepatitis-, STD-, and TB-related services or resources. The clearinghouse is authorized to collect this information by Section 301 of the Public Health Service Act (42 U.S.C 241). This information is organized and maintained by the NPIN online database. The mission of NPIN is to serve the information needs of state and local HIV/AIDS/Viral Hepatitis/STD/TB program personnel and other professionals. The general public also has access to this information from the NPIN website or by calling CDC-INFO (formerly the CDC National AIDS and STD Hotline), which provides referrals from the NPIN database to local service organizations.

We have identified your organization as providing services or resources related to HIV/AIDS, Viral Hepatitis, STDs, and/or TB and I am calling to obtain information about your organization and its services. The information you provide about your organization or program will be added to the NPIN database and

will be made available to professionals and other users. Your participation is voluntary.

Are you willing to participate in this data collection at this time? If yes, continue with questionnaire. If no, thank respondent for their time and end call.
