Emily Haozous, PhD, RN
(505) 272-4465
ehaozous@salud.unm.edu

Dear Dr. Haozous:

On 9/14/2015, the HRRC reviewed the following submission:

Type of Review: Continuing Review
Title of Study: Study of Dietary Patterns among Native Americans and
Hispanics/Latinos in New Mexico at the Time of the Trinity Nuclear
Test _June 16 2014
Investigator: Emily Haozous, PhD, RN
Study ID: 14-254
Submission ID: CR00001924
IND, IDE, or HDE: None

Submission Summary: Continuing Review for Study 14-254.

Documents Approved: All documents remain unchanged and approved as previously
determined and stated in the most recent study submission approval
letter.

Review Category: EXPEDITED: CATEGORIES (6) Voice, video, digital, or image
recordings and (7)(b) Social science methods.

Determinations/Waivers: Waived the requirement to obtain a signed Consent form.
Signature waived; requires written statement about research.
HIPAA Authorization Addendum Not Applicable.

Submission Approval Date: 9/14/2015
Approval End Date: 9/13/2016
Effective Date: 9/14/2015

The HRRC approved the study from 9/14/2015 to 9/13/2016 inclusive. If modifications were required to secure approval, the effective date will be later than the approval date. The “Effective Date” 9/14/2015 is the date the HRRC approved your modifications and, in all cases, represents the date study activities may begin.

Before 9/13/2016 or within 45 days of study closure, whichever is earlier, you are required to submit a continuing review. You may submit a continuing review by navigating to the active study and clicking the “Create Modification / CR” button.

Please use the consent documents that were approved and stamped by the HRRC. The stamped and approved consents are available for your retrieval in the “Documents” tab of the parent study.

This determination applies only to the activities described in this submission and does not apply should you make any changes to these documents. If changes are being considered and there are questions about whether HRRC review is needed, please submit a study modification to the HRRC for a determination. A change in the research may disqualify this research from the current review category. You can create a modification by clicking Create Modification / CR within the study.

In conducting this study, you are required to follow the Investigator Manual dated April 1, 2015 (HRP-103), which can be found by navigating to the IRB Library.

Sincerely,

A handwritten signature in blue ink, appearing to read 'S. Lu', with a stylized flourish below the letters.

Stephen Lu, MD
HRRC Chair
