About Us

Welcome to the Cancer Prevention Fellowship Program!

You are seeing this page because you have been asked to contribute supporting documentation for someone who is applying to enter the program in June 2016. *Thank you for your cooperation!*

Letter of Reference for James Buchanon

The following applicant has requested that you provide a letter of reference for his/her application to the [NCI Cancer Prevention Fellowship Program](#).

James Buchanon

jbuchanon@gmail.com

Mercersburg, PA

PhD, exp 2017, Penn State University, State College, PA, Major: *Political Science*

BA, 1809, Dickinson College, Carlisle, PA, Major: *Political Science*

OMB Burden Statement

OMB No: 0925-XXXX

Expiration Date: XX/XX/XX

[Click to view full statement](#)

You were chosen by this applicant because of your knowledge of his/her scientific accomplishments, motivation, and skills. Please provide a letter of reference that is:

- a current and original letter
- addressed to the Director,
David E. Nelson, MD, MPH
Director
Cancer Prevention Fellowship Program
National Cancer Institute, NIH
9609 Medical Center Drive
Room 2W-136 MSC 9712
Bethesda, MD 20892-9712
- typewritten on official letterhead
- written in English
- saved as a PDF (preferable) or Word document

Please upload your letter of reference on or before 11:59 PM, August 31, 2015 U.S. Eastern Daylight Time.

- all items are required.

Browse to find your document. ■

No file selected.

Please provide your name and e-mail address. In doing so, you attest that you are the one uploading the letter of reference for **James Buchanon**.

Your Full Name ■

Your E-mail ■

■ The NCI Cancer Prevention Fellowship Program would like to periodically e-mail **kerry@state.gov** information about our program. Do you give permission to receive these e-mails? (You may change your mind later.)

Yes

No

Expiration Date:

XX/XX/XX

Collection of this information is authorized by The Public Health Service Act, Section 411 (42 USC 285a). Rights of study participants are protected by The Privacy Act of 1974. Participation is voluntary, and there are no penalties for not participating or withdrawing from the study at any time. Refusal to participate will not affect your benefits in any way. The information collected in this study will be kept private to the extent provided by law. Names and other identifiers will not appear in any report of the study. Information provided will be combined for all study participants and reported as summaries. You are being asked to complete this instrument so that we can evaluate the effectiveness of it.

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0046). Do not return the completed form to this address.

Policies

Privacy Policy

The following is the Privacy Act Notification Statement for the Cancer Prevention Fellowship Program (CPFP), National Cancer Institute, NIH, DHHS

1. Government Authorization for the CPFP is as follows:

- **Purpose**

Cancer prevention and control is defined as the reduction of cancer incidence, morbidity, and mortality through an orderly sequence from research on interventions and their impact in defined populations to the broad systematic application of the research results. The National Cancer Institute's aim is to reduce the rate of cancer incidence, morbidity, and mortality in the whole population. Achievement of a reduction in cancer mortality rates mandates that scientists and health workers from relevant disciplines and fields be appropriately trained in cancer prevention and control research and applications. The Cancer Prevention Fellowship Program (CPFP) has been developed to provide scientists and other health professionals with advanced training and practical research experiences in cancer prevention and control.

This training program is authorized by Section 413(b)(3) of the Public Health Service Act, 42 U.S.C. 285a-2(b)(3) as modified by the Health Research Extension Act of 1985 pertaining to the NCI, which states that the Director of the Institute shall " ...support appropriate programs of education and training (including continuing education and laboratory and clinical research training)," and Section 412(2), 42 U.S.C. 285a-1(2) which specifically requires that programs be established for "...the demonstration of and the education of students of the health professions and health professionals in..." areas related to cancer prevention and control.

- **Rationale/Justification:**

Development of this training program is mandated by an insufficient number of physicians and scientists who are specifically trained for and prepared to devote their efforts to cancer prevention and control research and practice. While some states, cancer centers, and academic institutions are allocating funds for cancer programs, trained personnel to conduct these initiatives are sorely lacking. Increased technological breakthroughs in epidemiological, basic, and clinical research demand that experienced personnel be in place to build on this explosion of basic knowledge and to research its applicability to cancer prevention and control to reduce disease rates in human populations. At present, academic institutions do not offer specific and/or in-depth training of more than short-term duration in cancer prevention and control and only sporadic workshops and symposia have been developed. The Cancer Prevention Fellowship Program is designed to address this need and expects to train highly qualified physicians and other doctoral level scientists and to promote their introduction to the field of cancer prevention and control.

2. Purpose of Information Collection

The primary use of this information collection is to evaluate an applicant's qualifications for postdoctoral training at the National Cancer Institute's Cancer Prevention Fellowship Program, to process the application, and to identify and facilitate travel arrangements for applicants who are selected for in-person interviews.

3. Routine Uses for Information Disclosure

- In rare circumstances, information may be used to respond to congressional inquiries regarding constituents who have applied to the Cancer Prevention Fellowship Program.
- Information may be used to respond to hospitals and other healthcare organizations seeking verification of training for physicians and other scientists who enroll in the Cancer Prevention Fellowship Program.
- Some requested information will be used for internal program evaluation – to improve the program and the application process – and will not be used in the evaluation of the applicant. Information that will not be used in applicant evaluation is indicated in the online application.

4. Is the request voluntary or mandatory?

Application for this program is voluntary; however, for us to process your application, you must complete the required fields.
