	Home Federal Initiatives R	equest Meeting My Account				
About Us	Submit Therapeutic Product Information Would you like to meet with a federal agency regarding a therapeutic product that you are developing? If you submit some basic information on that product, we will evaluate your request and route it to the most appropriate resource within the federal government. In some instances, it is not necessary or appropriate for a federal agency representative to meet with companies regarding their products. In the event that a federal agency representative is unable to meet with you, we will provide you with that information in a timely manner. All submissions to MedicalCountermeasures.gov are voluntary and are for information only. However, the submission of complete information may facilitate the routing of your request. It is important that we route your request to the most appropriate federal entity. By selecting all federal entities listed below, you increase the probability that we will be able to route your request appropriately. However, selecting all of the federal entities above does not guarantee that it is appropriate for the federal government to meet with you at this time.
