

the proposed boundary in the current proposed action to only include BLM- and TNC-administered lands. No other unresolved issues were identified during scoping.

Scoping conducted for the Table Rocks Temporary Restrictions EA in 2013 was also considered during development of the Draft Plan Amendment and EA. Scoping for the temporary restrictions included visitor surveys conducted at the Table Rocks in 2011 by the Southern Oregon Research Center at Southern Oregon University; discussing hunting issues with representatives from Oregon Department of Fish and Wildlife, Rocky Mountain Elk Foundation, and Oregon Hunters Association; and meeting with the Jackson County Commissioners, who submitted a comment that generated local newspaper and television interest. One comment on the EA was received from the Jackson County Office of County Council which proposed that the BLM should consider implementing temporary restrictions only on the BLM lands that were previously owned by TNC.

This notice begins the 30-day comment period for the Draft Medford District RMP Amendment and EA: Table Rocks Area of Critical Environmental Concern (ACEC) Proposed Boundary Change and Supplementary Rules. Please note that public comments and information submitted—including names, street addresses, and email addresses of persons who submit comments—will be available for public review and disclosure at the above-address during regular business hours (8:00 a.m. to 4:00 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1506.6, 40 CFR 1506.10, 43 CFR 1610.2

Jamie E. Connell,

Acting State Director, Oregon/Washington.

BILLING CODE 4310-33-P

DEPARTMENT OF THE INTERIOR

Bureau of Safety and Environmental Enforcement

[Docket ID: BSEE-2016-0007; OMB Control Number 1014-0006; 16XE1700DX EX1SF0000.DAQ000 EEEE500000]

Information Collection Activities: Sulphur Operations, Proposed Collection; Comment Request

AGENCY: Bureau of Safety and Environmental Enforcement, Interior.

ACTION: 60-day Notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), BSEE is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns a renewal to the paperwork requirements in the regulations under, Subpart P, *Sulphur Operations*.

DATES: You must submit comments by August 2, 2016.

ADDRESSES: You may submit comments by either of the following methods listed below.

- Electronically: Go to www.regulations.gov and search for BSEE-2016-0007. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- Email: regs@bsee.gov. Mail or hand-carry comments to the Department of the Interior; BSEE; Regulations and Standards Branch; Attention: Kelly Odom; 45600 Woodland Road, Suite 105, Sterling, VA 20166. Please reference ICR 1014-0006 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: Kelly Odom, Regulations and Standards Branch at (703) 787-1775 to request additional information about this ICR.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 250, Subpart P, Sulphur Operations.

OMB Control Number: 1014-0006.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations necessary for the administration of the leasing provisions of that Act related to mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop mineral resources in a manner that is consistent with the need to make such resources available

to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

Section 5(a) of the OCS Lands Act requires the Secretary to prescribe rules and regulations "to provide for the prevention of waste, and conservation of the natural resources of the Outer Continental Shelf, and the protection of correlative rights therein" and to include provisions "for the prompt and efficient exploration and development of a lease area." These authorities and responsibilities are among those delegated to BSEE to ensure that operations in the OCS will meet statutory requirements; provide for safety and protection of the environment; and result in diligent exploration, development, and production of OCS leases.

In addition to the general rulemaking authority of the OCSLA at 43 U.S.C. 1334, section 301(a) of the Federal Oil and Gas Royalty Management Act (FOGRMA), 30 U.S.C. 1751(a), grants authority to the Secretary to prescribe such rules and regulations as are reasonably necessary to carry out FOGRMA's provisions. While the majority of FOGRMA is directed to royalty collection and enforcement, some provisions apply to offshore operations. For example, section 108 of FOGRMA, 30 U.S.C. 1718, grants the Secretary broad authority to inspect lease sites for the purpose of determining whether there is compliance with the mineral leasing laws. Section 109(c)(2) and (d)(1), 30 U.S.C. 1719(c)(2) and (d)(1), impose substantial civil penalties for failure to permit lawful inspections and for knowing or willful preparation or submission of false, inaccurate, or misleading reports, records, or other information. Because the Secretary has delegated some of the authority under FOGRMA to BSEE, 30 U.S.C. 1751 is included as additional authority for these requirements.

This ICR addresses the regulations at 30 CFR 250, Subpart P, Sulphur Operations, and any associated supplementary Notices to Lessees and Operators (NTLs) intended to provide clarification, description, or explanation of these regulations.

Currently, there are no active sulphur lease operations on the OCS. Therefore, this ICR and its relevant hours represent one potential respondent.

Regulations at 30 CFR 250, Subpart P, implement these statutory requirements. The BSEE uses the information collected to ascertain the condition of drilling sites for the purpose of preventing hazards inherent in sulphur drilling and production operations and to evaluate the adequacy of equipment and/or procedures to be used during the conduct of drilling, well-completion, well-workover, and production operations. The BSEE uses the information to:

- Ascertain that a discovered sulphur deposit can be classified as capable of production in paying quantities.
- Ensure accurate and complete measurement of production to determine the amount of sulphur royalty payments due the United States; and that the sale locations are secure, production has been measured accurately, and appropriate follow-up actions are initiated.
- Ensure the adequacy and safety of firefighting plans; the drilling unit is fit for the intended purpose; and the

adequacy of casing for anticipated conditions.

- Review drilling, well-completion, well-workover diagrams and procedures, as well as production operation procedures to ensure the safety of the proposed sulphur drilling, well-completion, well-workover and proposed production operations.
- Monitor environmental data during sulphur operations in offshore areas where such data are not already available to provide a valuable source of information to evaluate the performance of drilling rigs under various weather and ocean conditions. This information is necessary to make reasonable determinations regarding safety of operations and environmental protection.

The BSEE will protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2); 30 CFR 250.197, *Data and information to be made available to the public or for limited inspection*; and 30 CFR part 252,

OCS Oil and Gas Information Program. No items of a sensitive nature are collected. Responses are mandatory.

Frequency: Occasional and varies by section, but information concerning drilling, well-completion, and well-workover operations and production is collected only once for each particular activity.

Estimated Number and Description of Respondents: Approximately 1 Federal OCS sulphur lessee.

Estimated Reporting and Recordkeeping Hour Burden: The currently approved annual reporting burden for this collection is 903 hours. The following chart details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Citation 30 CFR 250	Reporting and recordkeeping requirement	Hour burden	Average number of annual reponses	Annual burden hours
General				
1605(b)(3); 1617; 1622(b)	These sections contain references to information, approvals, requests, payments, etc., which are submitted with an APD, the burdens for which are covered under its own information collection.	APD burden covered under 1014-xxxx		
1618(a), (b); 1619(b); 1622(a), (b), (c).	These sections contain references to information, approvals, requests, payments, etc., which are submitted with an APM, the burdens for which are covered under its own information collection.	APM burden covered under 1014-xxxx		
Submittals/Notifications				
1600; 1617	Submit exploration or development and production plan, under 30 CFR 550, Subpart B.	Burden covered under (1010–0151).		0
1605(d)	Submit results of additional surveys and soil borings upon request.	1	1 submission	1
1605(f)	Submit application for installation of fixed drilling platforms or structures.	Burden covered under (1014–0011).		0
1608(a), (c)	Submit well casing and cementing plan or modification.	5	1 plan	5
1619(b); 1622(c)	Submit form BSEE–0125 (End of Operations Report); and all supporting documentation.	Burden covered under (1014–0018).		0
1619(c), (d), (e)	Submit copies of records, logs, reports, charts, etc., upon request.	1	8 submissions	8
1628(b), (d)	Submit application for design and installation features of sulphur production facilities and fuel gas safety system; certify new installation conforms to approved design.	4	1 application	4
1630(a)(6)	Notify BSEE of pre-production test and inspection of safety system and commencement of production.	0.5	2 notifications	1
1633(b)	Submit application for method of production measurement.	2	1 application	2
Subtotal	14 responses	21

Citation 30 CFR 250	Reporting and recordkeeping requirement	Hour burden	Average number of annual reponses	Annual burden hours
Requests				
1603(a)	Request determination whether sulphur deposit can produce in paying quantities.	1	1 request	1
1605(e)(5)	Request copy of directional survey (by holder of adjoining lease).	1	1 request	1
1607	Request establishment, amendment, or cancellation of field rules for drilling, well-completion, or well-workover.	8	2 requests	16
1610(d)(7), (8)	Request exception to ram-type blowout preventer (BOP) system components rated working pressure.	1	1 request	1
1611(b); 1625(b)	Request exception to water-rated working pressure to test ram-type and annular BOPs and choke manifold.	1	1 request	1
1611(f); 1625(f)	Request exception to recording pressure conditions during BOP tests on pressure charts; certify by representative.	1	1 request	1
1612	Request exception to §250.462 requirements for well-control drills.	1	1 request	1
1615	Request exception to blind-shear ram or pipe rams and inside BOP to secure wells.	1	1 request	1
1629(b)(3)	Request approval of firefighting systems; post firefighting system diagram.	4	1 request	4
1608(b), (c); 1629(b)(3); 1600–1634.	General departure and/or alternative compliance requests not specifically covered elsewhere in Subpart P.	2	1 request	2
Subtotal	11 responses	29
Record/Retain				
1604(f)	Check traveling-block safety device for proper operation weekly and after each drill-line slipping; enter results in log.	0.25	1 lessee × 52 wks × 2 rigs = 104.	26
1605(c)	Report oceanographic, meteorological, and drilling unit performance data upon request.	1	1 report	1
1609(a)	Pressure test casing; record time, conditions of testing, and test results in log.	2	1 lease × 60 tests/records = 60.	120
1611(d)(3); 1625(d)(3)	Record in driller's report the date, time, and reason for postponing pressure testings.	0.17	1 lessee × 6 recordings = 6.	1
1611(f), (g); 1625(f), (g)	Conduct tests, actuations, inspections, maintenance, and crew drills of BOP systems at least weekly; record results in driller's report; certify by representative; retain records for 2 years following completion of drilling activity.	6	1 lessee × 52 weeks = 52	312
1613(d)	Pressure test diverter sealing element/valves weekly; actuate diverter sealing element/valves/control system every 24 hours; test diverter line for flow every 24 hours; record test times and results in driller's report.	2	1 lessee (daily/weekly during drilling) × 2 rigs × 52 weeks = 104.	208
1616(c)	Retain training records for lessee and drilling contractor personnel.	Burden covered under 1014–0008.	
1619(a); 1623(c)	Retain records for each well and all well operations for 2 years; calculate well-control fluid volume and post near operators' station.	12	1 lessee	12
1621	Conduct safety meetings prior to well-completion or well-workover operations; record date and time.	1	1 lessee × 50 meetings/records = 50.	50
1628(b), (d)	Maintain information on approved design and installation features for the life of the facility.	1	1 lessee	1
1629(b)(1)(ii)	Retain pressure-recording charts used to determine operating pressure ranges for 2 years.	12	1 lessee	12
1630(b)	Maintain records for each safety device installed for 2 years; make available for review.	1	1 lessee	1
1631	Conduct safety device training prior to production operations and periodically thereafter; record date and time.	1	1 lessee × 52 train/records × 2 rigs = 104.	104
1634(b)	Report evidence of mishandling of produced sulphur or tampering or falsifying any measurement of production.	1	1 report	1

Citation 30 CFR 250	Reporting and recordkeeping requirement	Hour burden	Average number of annual responses	Annual burden hours
Subtotal	486 responses	849
Total Burden	511 responses	899 Hours

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: There are no non-hour cost burdens associated with this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .”. Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

Agencies must also estimate the non-hour paperwork cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have other than hour burden costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. For further information on this burden, refer to 5 CFR 1320.3(b)(1) and (2), or contact the Bureau representative listed previously in this notice.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

BSEE Information Collection Clearance Officer: Nicole Mason, (703) 787–1607.

Dated: May 27, 2016.

L. Keith Good,
Senior Advisor, Office of Offshore Regulatory Programs.

BILLING CODE 4310–VH–P

INTERNATIONAL TRADE COMMISSION

Notice of Receipt of Complaint; Solicitation of Comments Relating to the Public Interest

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has received a complaint entitled *Certain Silicon-on-Insulator Wafers, DN 3153*; the Commission is soliciting comments on any public interest issues raised by the complaint or complainant’s filing under section 210.8(b) of the Commission’s Rules of Practice and Procedure (19 CFR § 210.8(b)).

FOR FURTHER INFORMATION CONTACT: Lisa R. Barton, Secretary to the Commission, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205–2000. The public version of the complaint can be accessed on the Commission’s Electronic Document Information System (EDIS) at EDIS,¹ and will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205–2000.

General information concerning the Commission may also be obtained by accessing its Internet server at United States International Trade Commission (USITC) at USITC.² The public record for this investigation may be viewed on

¹ Electronic Document Information System (EDIS): <http://edis.usitc.gov>.

² United States International Trade Commission (USITC): <http://edis.usitc.gov>.

the Commission’s Electronic Document Information System (EDIS) at EDIS.³ Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: The Commission has received a complaint and a submission pursuant to section 210.8(b) of the Commission’s Rules of Practice and Procedure filed on behalf of Silicon Genesis Corporation on May 26, 2016. The complaint alleges violations of section 337 of the Tariff Act of 1930 (19 U.S.C. § 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain silicon-on-insulator wafers. The complaint names as respondent Soitec, S.A. of France. The complainant requests that the Commission issue a limited exclusion order, a cease and desist order, and impose a bond upon respondents’ alleged infringing articles during the 60-day Presidential review period pursuant to 19 U.S.C. § 1337(j).

Proposed respondents, other interested parties, and members of the public are invited to file comments, not to exceed five (5) pages in length, inclusive of attachments, on any public interest issues raised by the complaint or section 210.8(b) filing. Comments should address whether issuance of the relief specifically requested by the complainant in this investigation would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

(i) explain how the articles potentially subject to the requested remedial orders are used in the United States;

(ii) identify any public health, safety, or welfare concerns in the United States relating to the requested remedial orders;

(iii) identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the
