

Monthly Continuing Cooperation (CPI, Matrix Qs)

Introduction

The Bureau of Labor Statistics, a statistical agency in the U.S. Department of Labor, produces the Consumer Price Index (or CPI), which is the primary measure of inflation in the U.S.

One of the key inputs into the CPI is the cost of rental housing. Renters who participate in this survey are asked every 6 months to report the rent that they are paying, along with a few other questions about their housing (the questions take about 5 minutes to answer).

The Bureau of Labor Statistics sends letters to renters who participate in the survey reminding them that the survey will be coming and encouraging them to participate.

We would like you to help us improve one of these letters. We are trying to identify more effective language, more persuasive arguments, and more effective formatting.

Your task is to read the letter, and then answer a few short questions about it. There are no right or wrong answers to the questions we will be asking. We want your opinions.

This voluntary study is being conducted under OMB Number 1220-0141. The current expiration date is April 30, 2018. Without this currently approved number, we could not conduct this survey. We estimate it will take 5 minutes to complete this survey. This survey is being administered by [surveymonkey.com](https://www.surveymonkey.com) and resides on a server outside of the BLS Domain. The BLS cannot guarantee the protection of survey responses and advises against the inclusion of sensitive personal information in any response.
