- C. Entities with shared ownership or control (e.g., subsidiaries and affiliates) generally may not register separately.
- D. Only electronic payment of registration fees will be accepted.
- E. All supporting documentation should be uploaded in block 11.
- F. An organizational chart that shows all layers of the organization, through the ultimate parent (U.S. or foreign) identified in block 9, must be attached. In addition, the organizational chart should include the subsidiaries and affiliates identified in block 8. If the application does not include any subsidiaries, affiliates, or parents then an organizational chart is not required.

- H. For purposes of completing the DS-2032, "U.S. person" is defined in ITAR § 120.15.
- I. Changes in certain information contained in this application must be reported promptly in accordance with ITAR § 122.4 and ITAR § 129.8.
- J. All relevant documentation must be provided with the DS-2032 form at the time of submission.

Block 1: Registration action

- Select "New," "Renew," "Amend," or "Cancel" as appropriate.
- If this is a new registration, select "New," and proceed to Registration Type.
- If adding a new registration type to an existing registration (e.g. adding Broker to an existing Manufacturer registration) at renewal, select the "Renew" option.
- If adding a new registration type to an existing registration not due for renewal, select "Amend."
- If this is a renewal, enter the applicant's DDTC registration code(s) (e.g., M11111 and/or K-1111) as applicable. Select "Add" to enter a second registration code, if applicable.
- If this is an amendment, make all applicable changes to the registration information provided in the form. Required supporting documentation, provided in block 11, must be updated if affected by the changes.
- If selecting "Cancel," the applicant is notifying DDTC that it is ending its ITAR-controlled manufacturing, exporting, brokering, and/or FMS freight forwarding activities. The applicant must indicate which activities are ending.
- If removing an authorized country, FMS Freight Forwarder registrants should select "Amend" and remove the country or countries they are no longer authorized to service.

Registration type:

- Select each relevant registration type.
- U.S. persons, as defined by ITAR § 120.15, may select the following:
 - *Manufacturer/Exporter*: Person who engages in the United States in the business of either manufacturing or exporting or temporarily importing defense articles or furnishing defense services is required to register with DDTC. Manufacturers who do not engage in exporting must nevertheless register (see ITAR § 122.1).
 - *Broker*: Person identified under ITAR § 129.2(a) who engages in brokering activities identified under ITAR § 129.2(b) is required to register with DDTC unless exempt under ITAR § 129.3(b). Registration is generally a precondition for the issuance of approval for brokering activities required under ITAR Part 129 or the use of exemptions.
 - Brokers may not obtain export licenses. U.S. brokers that need to obtain export licenses must also be registered as an exporter (see ITAR § 129.3).
 - *FMS Freight Forwarder (Exporter)*: U.S. freight forwarder under the Foreign Military Sales (FMS) program must register with DDTC as an exporter. Each applicable embassy must designate a registered U.S. freight forwarder for their FMS transactions by providing a letter, issued on embassy letterhead and signed by a senior embassy official, to the Directorate of Defense Trade Controls Response Team at DDTCResponseTeam@state.gov. FMS Freight Forwarder registrations will be held pending receipt of a designation from each identified country. Likewise, designations received prior to registration will be held pending receipt of a related application.
 - The embassy designation letter should specify the contract duration, if known. If the designated U.S. freight forwarder is not the U.S. registrant, but rather a subsidiary or affiliate listed in the registration, then the embassy must specify both the designated U.S. freight forwarder and the U.S. registrant's legal name (see ITAR § 126.6(c)(6)(i)).
 - *One-Time Exemption*: A one-time exemption from the requirement to pay registration fees is available to persons not in the business of manufacturing, exporting, brokering and/or furnishing defense articles and defense services, for the purpose of carrying out a single transaction requiring registration under the ITAR. An explanation must be attached in block 11 to describe the transaction and justification for the exemption (see ITAR § 126.3).
 - *U.S. Government*: A senior official acting in official government agency capacity may select "U.S. Government," in order to allow a U.S. government agency the ability to register and apply for export licenses or use established license exemptions (see ITAR §126.4).
- Foreign persons, as defined by ITAR§ 120.16, may select the following:
 - *Broker*: A person identified under ITAR § 129.2(a) who engages in brokering activities identified under ITAR § 129.2(b) is required to register with the DDTC unless exempt under ITAR § 129.3(b). Registration is generally a precondition for the issuance of

approval for brokering activities required under ITAR Part 129, or the use of exemptions (see ITAR § 129.3).

- Note that foreign brokers under the ITAR may not obtain export licenses.
- *Foreign Government:* A senior official (acting in an official foreign embassy capacity) may select “Foreign Government,” in order to allow a foreign government the ability to register and to apply for export licenses or use established license exemptions (see ITAR § 126.6(c)(6)(i)).

If registering as an FMS Freight Forwarder identify authorized countries

- An FMS Freight Forwarder must list all countries it has been authorized to support as U.S. registrant, listed subsidiary, and/or listed affiliate. If an authorization is canceled or otherwise lapses, FMS Freight Forwarders must update the registration to reflect the change.

If renewing a lapsed registration

- Select “Yes” or “No” to indicate whether ITAR-controlled business was conducted during the lapse. If “Yes,” provide the number of months during the lapse, and within the previous five years, during which ITAR-controlled business occurred. Back registration fees must be paid by the applicant for those months.
- Indicate whether a voluntary disclosure has been submitted regarding the conduct of ITAR business during the lapse (see ITAR § 127.12 for guidance regarding submission of voluntary disclosures).

If broker renewal:

- Indicate whether brokering activity, both successful and unsuccessful, occurred during the concluding registration period. If “Yes,” complete the DS-2032 brokering report supplement with the information specified by ITAR § 129.10. If extra space is required, a supplement may be uploaded in block 11. The brokering report should cover all brokers identified on the DS-2032. A “No” response satisfies the requirement in ITAR § 129.10(c).

If amending a registration:

- If amending the registration, all relevant blocks must be updated and any relevant supporting documentation submitted in block 11 (e.g. an organizational chart) must be updated to reflect the amendment.

If canceling a registration, certify cessation of ITAR-controlled activities.

- Leave this box empty if not cancelling a registration.
- Select the applicable registration type (e.g. “Manufacturer”) to notify DDTC that applicant intends to let its registration lapse at the end of the current period. If cancelling multiple registrations, select all registration types that apply. By completing this section the applicant certifies that it will no longer engage in the ITAR-controlled business activities indicated.

Block 2: Applicant is a “U.S. Person”

- Indicate whether the applicant meets the definition of “U.S. Person” under ITAR § 120.15. If “Yes,” attach in block 11 documentation of U.S. Person status. Acceptable forms of documentation of U.S. person status include, but are not limited to, a copy of: (1) a current U.S.

passport, (2) a Green Card or other lawful permanent residence document, and (3) U.S. incorporation materials.

- Select “Yes,” if the applicant is foreign owned or controlled under ITAR § 120.37. Select “No” if not.
- Indicate whether a foreign person owns, or foreign people own, 25% or more of the outstanding voting securities of the applicant. If selecting “Yes,” the applicant may address resulting presumption of foreign control by uploading an explanation in block 11.

Foreign persons (including foreign governments) from countries specified in ITAR § 126.1:

- Select “Yes” if at least one person from a country specified in ITAR § 126.1 has the authority or ability to establish, or direct, the general policies and/or day-to-day operations of the applicant. Select “No” if not.

- New and renewing applicants must attach documentation issued or endorsed by the relevant government authority authorizing the applicant to engage in business in block 11. For U.S. applicants, this can include articles of incorporation, articles of organization, a partnership agreement, or a State government-issued certificate of good standing. Applicants selecting “Individual” do not need to upload this documentation.

- The legal name provided in the documentation must match the name provided in block 5 of this form.

- The applicant should check the box if it has only a foreign parent (or only foreign parents) and intends to list any affiliates.
- Applicants with affiliates, but without a U.S. parent (e.g. foreign ownership of several affiliated U.S. entities), must attach a written designation, provided by the foreign parent, indicating that the applicant will be the primary affiliate for the purposes of registration with DDTC and will therefore exercise control over the consolidated registration of affiliates. The designation should be attached in block 11.

- The point of contact (POC) designated by the applicant is the individual to whom all registration related correspondence will be sent (e.g. the empowered official, or other individual, responsible for registration and compliance).
- The applicant should provide the designated POC's title, primary telephone number, and e-mail address.
- The applicant may choose to provide a secondary e-mail address that it also wishes to receive DDTC correspondence (e.g. a distribution list associated with the applicant's export compliance department). This address should be provided in the "Second POC E-Mail Address" field. Please note the primary contact will still receive DDTC correspondence.

Third Party Point of Contact

- By completing this optional section, the applicant: (1) represents that the designated representative is empowered to represent the applicant with regard to registration-related issues, and (2) authorizes DDTC to contact the designated representative regarding registration issues and, as necessary, provide and discuss registration and other related information.
