

Branch and Relocation Application

General Information and Instructions

Preparation and Use

This application is used to effect a transaction under 12 CFR 5.30, 5.31, and 5.40 for branch establishments and relocations.

All questions must be answered with complete and accurate information that is subject to verification. If the answer is “none,” “not applicable,” or “unknown,” so state. Answers of “unknown” should be explained.

The questions in the application are not intended to limit the applicant's presentation nor are the questions intended to duplicate information supplied on another form or in an exhibit. For such information, a cross-reference to the information is acceptable. Any cross-reference must be made to a specific cite or location in the documents, so the information can be found easily. Supporting information for all relevant factors, setting forth the basis for the applicant’s conclusions, should accompany the application. The regulatory agency may request additional information.

This application form collects information that the Office of the Comptroller of the Currency (OCC) will need to evaluate a branch establishment or relocation application. The OCC must consider the applicable statutory and regulatory requirements set forth above when acting on this application. For additional information regarding these statutory and regulatory requirements, as well as processing procedures and guidelines and any supplemental information that may be required, refer to the OCC’s procedural guidelines in the *Comptroller’s Licensing Manual*. The applicant may contact the OCC directly for specific instruction or visit the OCC’s Web site at www.occ.gov.

Unless specifically identified, this application uses the term “bank” to describe requirements applicable to both national banks and federal savings associations (FSA). Unless noted as “federal savings association” or “national banks only,” all questions should be answered. State savings associations establishing branches in Washington, D.C., should follow instructions for FSAs. Please note that national banks and FSAs that meet the exception requirements of 12 CFR 5.30, 5.31, and 5.40 should follow the appropriate notice procedures.

Notice of Publication

A public notice is required for all branch establishment and relocation applications. The applicant must publish notice of the proposed branch establishment or branch/main/home office relocation in a newspaper of general circulation in the community or communities in which the applicant proposes to establish or relocate the branch or main/home office.

There are optional and mandatory requirements for the notice of publication. The following optional language may be used to meet the publication requirements.

Notification is given that (*name of bank*), (*street address, city, state, and zip code*) has filed an application with the Comptroller of the Currency on (*date*), as specified in 12 CFR 5 for permission to (*establish or relocate*) a branch office [describe type of branch] or relocate a main/home office at (*proposed location*). [If a relocation, indicate current and proposed addresses.] Any person wishing to comment on this application may file comments in writing with the Director for District Licensing [insert address of appropriate district office] or (*appropriate e-mail address*) within 30 days [15 days for short-distance relocations] of the date of this publication.

- **Specific publication requirements:** Please refer to the “Publication” section of the “Branches and Relocations” booklet of the *Comptroller’s Licensing Manual*.
- **Branch:** The publication must state that an application is being filed to establish a branch and include the location of the proposed branch and a brief description of the type of branch proposed.
- **Branch relocation:** The publication must state that an application is being filed to relocate a branch. It must include the current and proposed site.
- **Main/home office relocation:** The publication must state that an application is being filed to relocate the main/home office. It must include the current and proposed site.
- **Messenger service or mobile branch:** Publication in several newspapers may be required to establish messenger services or mobile branches that will serve several communities or geographic areas. The publication need not identify the specific sites to be served by the messenger service or mobile branch, but it should state the general geographic area to be served, such as the city, county, or other specific geographic area. In certain circumstances, however, the OCC may require publication of specific sites to be served. See the “Messenger Service or Mobile Branch” section of the “Branches and Relocations” booklet of the *Comptroller’s Licensing Manual*.
- **Jointly owned branch:** The publication must list all depository institutions that would own the branch.
- **Intermittent branch:** The publication must indicate the intermittent nature of the branch, including a description of the event and its location, as well as the frequency and time period(s) the branch would be open.

Please see the “Branches and Relocations” booklet of the *Comptroller’s Licensing Manual* for a discussion of the various types of branches.

Submission

In addition to an original application and the appropriate number of signed copies, submit an electronic copy of the information in the application, including the business plan’s financial projections, if applicable. For e-mail submissions, contact the OCC for instructions and information about secure transmission of confidential material.

Confidentiality

Any applicant desiring confidential treatment of specific portions of the application must submit a request in writing with the application. The request must discuss the justification for the

requested treatment. The applicant's reasons for requesting confidentiality should specifically demonstrate the harm (for example, loss of competitive position, invasion of privacy) that would result from public release of information (5 USC 552 or relevant state law). Information for which confidential treatment is requested should be (1) specifically identified in the public portion of the application (by reference to the confidential section); (2) separately bound; and (3) labeled "Confidential." The applicant should follow the same procedure when requesting confidential treatment for the subsequent filing of supplemental information to the application. Contact the OCC for any further questions regarding requests for confidential treatment.
