

Instructions for Completing
54.313 / 54.422 Data Collection Form

* * * * *

NOTICE: All eligible telecommunications carriers (ETCs) requesting federal high-cost or low-income universal service support from the Universal Service Administrative Company, the universal service Administrator, shall file this financial and operations information on an annual basis. This collection of information stems from the Commission's authority under section 254 of the Communications Act of 1934, as amended, 47 U.S.C. § 254, and from sections 54.313 and 54.422 of the Commission's rules, 47 C.F.R. §§ 54.313 and 54.422. The data in the form will be used to validate the recipient companies' support, if any, that it is eligible to receive from the high-cost support mechanism and / or the Lifeline and Link Up support mechanism.

USAC estimates that each response to this collection of information will take, on average, 20 hours for a high-cost recipient, and 3 hours for a Lifeline-only recipient. USAC's estimate includes the time to read the instructions, look through existing records, gather and maintain the required data, and actually complete and review the form or response. If you have any comments on this estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0986), Washington, D.C. 20554. We also will accept your comments via the Internet if you send them to Nicole.Ongele@fcc.gov. Please DO NOT SEND COMPLETED DATA COLLECTION FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid Office of Management and Budget (OMB) control number. This collection has been assigned an OMB control number of 3060-0986 for high-cost recipients and 3060-0819 for low-income recipients.

The Commission is authorized under the Communications Act of 1934, as amended, to collect the information requested in this form. Provided information will be used to determine high-cost support mechanism and Lifeline support mechanism amounts. If USAC believes there may be a violation or potential violation of a statute or a Commission regulation, rule, or order, your form may be referred to the Federal, state, or local agency responsible for investigating, prosecuting, enforcing, or implementing the statute, rule, regulation, or order. In certain cases, the information in your form may be disclosed to the Department of Justice, court, or other adjudicative body when (a) the Commission; (b) any employee of the Commission; or (c) the United States government, is a party to a proceeding before the body or has an interest in the proceeding.

If you do not provide the information we request on this form, you are not eligible to receive support under the high-cost and/or Lifeline support mechanisms, 47 C.F.R. Parts D and E.

The foregoing Notice is required by the Paperwork Reduction Act of 1995, P.L. No. 104-13, 44 U.S.C. § 3501, et seq.

Specific Instructions

I. Introduction and Background

Eligible telecommunications carriers (ETCs) that receive federal high-cost universal service support (high-cost support) are required to provide the data identified in 47 C.F.R. § 54.313.¹ Beginning with the filing due on July 1, 2016, participants in rural broadband experiments (RBE) should file this form. Submission of an FCC Form 481 is not required for recipients who solely receive support from Phase I of the Mobility Fund as indicated in 47 C.F.R. § 54.313(k). Lifeline-only ETCs that receive only low-income support through the federal Lifeline program (low-income support) are required to provide the data identified in 47 C.F.R. § 54.422.²

ETCs that receive both high-cost support and low-income support should follow the high-cost and low-income support requirements. ETCs that receive only low-income support should follow only the low-income support requirements. These annual reports are intended to assure compliance with the Federal Communications Commission's (FCC) rules and progress toward its universal service goals.
