Be as thorough and specific as possible about the activities that will take place during the allowable project period. **Where relevant, include information on any additional public components such as educational or outreach activities associated with the project.** Do not describe unrelated organizational programming. Where relevant, describe their involvement in the development of the project to date. Where they remain to be selected, describe the selection procedures that you plan to follow and the qualifications that you seek. An organizational partner is an outside entity that will provide resources (other than money) to support the project. Because all NEA projects require matching resources from non-federal sources, organizations that only provide money are not considered partners. Funders are not excluded from being partners, but they must also supply human resources or information capital, or actively participate in another way.

- Race/Ethnicity - U.S. federal government agencies must adhere to [standards issued by the Office of Management and Budget \(OMB\)](#) in October 1997, which specify that race and Hispanic origin (also known as ethnicity) are two separate and distinct concepts. These standards generally reflect a social definition of race and ethnicity recognized in this country, and they do not conform to any biological, anthropological, or genetic criteria. Origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person's ancestors before their arrival in the United States.
 - American Indian or Alaskan Native - A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment.
