# **CFPB Financial Coaching Initiative**

OMB No. 3170-XXXX Expiration Date: MM/DD/YYYY

The Consumer Financial Protection Bureau (CFPB)'s Financial Coaching Initiative provides financial coaching services at critical points in consumers' lives through existing points of direct service. Through this program, 60 professional financial coaches have been placed into community organizations - "host sites" – currently serving consumers through various means, such as job training, social services, legal aid, housing support, or other services.

The program is currently seeking an organization interested in and capable of hosting a financial coach in [Name of specific communities]. The ideal organization currently provides services to low-income and economically vulnerable clients and would benefit from financial coaching as a complementary service to its clients.

This is not an opportunity for a grant, contract, sub-contract, or funding. This is an opportunity to have a full-time, fully funded, certified and trained, professional financial coach integrated into your organization in order to provide financial coaching to your clients and/or to the clients of the organizations with which you partner closely.

# If you are selected, the CFPB will provide the following:

- A full-time, fully funded, certified and trained, professional financial coach integrated into your organization. Coaches have experience providing financial coaching to economically vulnerable clients.
- Coaches have the following credentials from leading industry providers:
  - Accredited Financial Counselors with a certification from the Association for Financial Counseling and Planning Education (AFCPE).

- Financial coaching certification provided by Sage Financial Solutions.
- This coach is primarily managed by AFSC, in coordination with a designated point of contact at the local organization.
- The coach will be provided the basic resources needed to do his/her job, including: laptop computer, email address, work cell phone, marketing materials, and business cards.

## To participate

To be a good fit for this cohort, organizations must serve low-income and/or economically vulnerable people.

To be a good fit to host a financial coach, a potential organization must have the capacity to integrate a financial coach into programming from February 2017 - April 2019, provide an environment conducive to effective coaching, and serve consumers of the targeted population.

See below for more details about criteria for interested organizations:

- Targeted population: Demonstrate a focus on economically vulnerable consumers located within or from the identified targeted geographic areas. Additional attention will be given to organizations that serve veterans.
- Client Volume: Have sufficient client volume to support and sustain the utility of a financial coach. The targeted number of clients served is at least 100 clients per year.
- Provide appropriate office space and working environment for a financial coach to meet with and coach clients. Provide coach with support in integrating coaching into the services currently being offered by the organization. If the organization cannot supply enough coachable clients, provide coach support to identify and reach out to partner organizations in the community.
- Commitment to financial coaching integration: Commitment to integrating financial empowerment into their work. Demonstrate

an understanding of the benefit of helping the people you serve become more financially capable and how their increased financial capability may help them achieve their goals and the outcomes your organization's services support. Demonstrate an understanding of what financial coaching is, how it would be beneficial to the organization's existing service offerings, and how to integrate this service into the organization (and in a way that connects with or complements existing services).

- Organizational stability: Demonstrate success and stability within the community.
- Client accessibility: Be accessible to low-income and economically vulnerable consumers.
   For example, have proximity to public transportation for individuals without private means of transportation and comply with ADA requirements.
- Complementary services: Support services complementary to financial coaching. For example, services that indicate a longer-term, future-oriented relationship with a client, or a time of transition, including employment and training service programs, education, working with parents on goals related to their children.

We are interested in engaging organizations with a variety of capacities and approaches. We welcome both organizations experienced in the work of financial empowerment and those interested in learning how to integrate financial capability topics into their work to increase the value of their existing services.

### **Privacy Act Statement**

The information you provide, including contact information, will only be used for managing participation in financial empowerment initiatives sponsored by the Consumer Financial Protection Bureau ("CFPB").
