Frequently Asked Questions

What is the American Community Survey?

The American Community Survey collects information about population and housing characteristics for the nation, states, cities, counties, metropolitan areas, and communities on a continuous basis. Based on the American Community Survey, the Census Bureau can provide up-to-date data about our rapidly changing country more often than once every 10 years when the census is conducted.

How do I benefit by answering the American Community Survey?

Communities need data about the well-being of children, families, and the older population to provide services to them. By responding to the American Community Survey questionnaire, you are helping your community to establish goals, identify problems and solutions, and measure the performance of programs.

The data are also used to decide where to locate new highways, schools, hospitals, and community centers; to show a large corporation that a town has the workforce the company needs; and in many other ways.

Do I have to answer the questions on the American Community Survey?

Yes. Your response to this survey is required by law (Title 13, U.S. Code, Sections 141, 193, and 221). Title 13, as changed by Title 18, imposes a penalty for not responding. We estimate this survey will take about 40 minutes to complete.

How will the Census Bureau use the information that I provide?

The Census Bureau can use the information you provide for statistical purposes only and cannot publish or release information that would identify you and your household. Your information will be used in combination with information from other households to produce data for your community. Similar data will be produced for communities across the United States.

We may combine your answers with information that you gave to other agencies to enhance the statistical uses of these data. This information will be given the same protections as your survey information. Your Answers are Confidential and Required by Law

The law, Title 13, Sections 9, 141, 193, and 221 of the U.S. Code, authorizing the American Community Survey, also provides that your answers are confidential. No one except Census Bureau employees may see your completed form and they can be fined and/or imprisoned for any disclosure of your answers.

The same law that protects the confidentiality of your answers **requires** that you provide the information asked in this survey to the best of your knowledge.

How to fill out the American Community Survey form

Use blue or black ink to complete the form. Please mark the category or categories as they apply to your household. Some questions ask you to print the information. See **examples** below.

Make sure you answer questions for each person in this household. If anyone in the household, such as a roomer or boarder, does not want to give you his or her personal information, print at least the person's name and answer questions 2 and 3. **An interviewer may telephone to get the information from that person.**

There may be a question you cannot answer exactly. For example, you may not know the age of an older person or the price for which your house would sell. Ask someone else in your household; if no one knows, give your best estimate.

Read these instructions and also follow the instructions provided throughout the questionnaire. These instructions will help you understand the questions and to answer them correctly. If you need assistance, call **1-800-354-7271**. The telephone call is free.

Instructions for completing the survey questions

List the name of each person who lives at this address. If you are not sure if you should list a person, see the guidelines on the front page of the form. If you are still not sure, call **1-800-354-7271** for help.

In the space labeled **Person 1**, print the name of the household member living or staying here in whose name the house or apartment is owned, being bought, or rented.

If there is no such person, any adult household member can be **Person 1**.

If there are more than 5 people in your household, please provide the name of each additional person on page 4. For each additional person listed on page 4, you should also provide this person's sex and age. Complete this form for the first five people listed on pages 2, 3, and 4, and mail it back in the enclosed envelope as soon as possible. An interviewer may telephone to obtain information for the additional persons.

If no one is living or staying at this address for more than 2 months, complete questions **1, 2, 4, 6, 7, and 8** on page 5. If the home is for rent or rented, but not yet occupied, also complete question **18** on page 7. If the home is for sale only or sold, but not yet occupied, also complete question **19** on page 7.

Answer person questions 1 through 6 for the first five people listed on pages 2, 3, and 4 of the questionnaire.

1. Print the person's Last Name, First Name, and Middle Initial (MI) in the spaces provided.
2. If the person is related to Person 1 by birth, marriage, or adoption, but is not the "**Husband or wife**," "**Biological son or daughter**," "**Adopted son or daughter**," "**Stepson or stepdaughter**," "**Brother or sister**," "**Father or mother**," "**Grandchild**," "**Parent-in-law**," "**Son-in-law or daughter-in-law**," of Person 1, mark the "**Other relative**" box. Therefore, a niece or nephew of Person 1 would be categorized as "**Other relative**."

If a person is **not** related to Person 1, mark the applicable box. A "**Roomer or boarder**" is someone who occupies room(s) and makes cash or non-cash payment(s). A "**Housemate or roommate**" is someone sharing the house/apartment (but who is not romantically involved) with Person 1. A "**Housemate or roommate**" is also 15 years old or over and shares living quarters primarily to share expenses. An "**Unmarried partner**," also known as a domestic partner, is a person who shares a close personal relationship with Person 1. A "**Foster child**" is someone under the age of 21 who is involved in the formal foster care system. For all other people who are not related to person 1, mark the "**Other nonrelative**" box.

3. Mark one box to indicate this person's biological sex.
4. For each person, print this person's age and month, day, and year of birth. Print the age at the last birthday. Do not round the age up if this person is close to having a birthday. If the exact age is not known, provide an estimate. Print "0" for babies less than 1 year old.

Please answer BOTH question 5 about Hispanic origin and question 6 about race. For this survey, Hispanic origins are not races.

5. A person is of Hispanic, Latino, or Spanish origin if the person's origin (ancestry) is Mexican, Mexican American, Chicano, Puerto Rican, Cuban, Argentinean, Colombian, Costa Rican, Dominican, Ecuadorian, Guatemalan, Honduran, Nicaraguan, Peruvian, Salvadoran, from other Spanish-speaking countries of Central or South America or from Spain.

The term *Mexican Am.* refers to persons of Mexican-American origin or ancestry.

If you mark the "**Yes, another Hispanic, Latino, or Spanish origin**" box, print the name of the specific origin.

If a person is not of Hispanic, Latino, or Spanish origin, answer this question by marking the "**No, not of Hispanic, Latino, or Spanish origin**" box.

This question should be answered for **all** persons.

6. Mark all boxes for the appropriate races.

The concept of race, as used by the Census Bureau, reflects self-identification by individuals according to the race or races with which they identify.

The instruction before question 5, *For this survey, Hispanic origins are not races*, reflects the federal government's treatment of Hispanic origin and race as separate and distinct concepts. People who identify their origin as Hispanic, Latino, or Spanish may be of any race.

People may choose to provide two or more races either by marking two or more race response boxes, by providing multiple write-in responses, or by some combination of marking boxes and writing in responses.

If you mark the "**American Indian or Alaska Native**" box, print the name of the person's enrolled or principal tribe(s) in the space provided (for example, Navajo Nation, Blackfeet Tribe, Muscogee (Creek) Nation, Mayan, Doyon, Native Village of Barrow Inupiat Traditional Government, and so on).

What the Survey Is About --

Some Questions and Answers

Why are we taking a survey?

The Census Bureau is conducting the American Community Survey to provide more timely data than data we typically collect only once every 10 years during the decennial census.

What does the Census Bureau do with the information you provide?

The American Community Survey will be the source of summarized data that we make available to federal, state, and local governments, and also to the public. The data will enable your community leaders from government, business, and non-profit organizations to plan more effectively.

How was this address selected?

Your address was scientifically selected to represent a cross section of other households in your community. Households in the sample are required to complete the survey form. Please return it in the postage-paid envelope as soon as possible.

Why the Census Bureau Asks Certain Questions --

Here are reasons we ask some of the questions on the survey.

Name

Names help make sure that everyone in a household is included, and that no one is listed twice.

Value or rent

Government and planning agencies use answers to these questions in combination with other information to develop housing programs to meet the needs of people at different economic levels.

Plumbing and Kitchen facilities

This question helps provide information on the quality of housing. The data are used with other statistics to show how the "level of living" compares in various areas and how it changes over time.

Place of birth

This question provides information used to study long-term trends about where people move and to study migration patterns and differences in growth patterns.

Job

Answers to the questions about the jobs people hold provide information on the extent and types of employment in different areas of the country. From this information, communities can develop training programs, and business and local governments can determine the need for new employment opportunities.

Income

Income helps determine how well families or persons live. Income information makes it possible to compare the economic levels of different areas, and how economic levels for a community change over time. Funding for many government programs is based on the answers to these questions.

Education

Responses to the education questions in the survey help to determine the number of new public schools, education programs, and daycare services required in a community.

Disability

Questions about disability provide the means to allocate federal funding for healthcare services and new hospitals in many communities.

Journey to work

Answers to these questions help communities plan road improvements, develop public transportation services, and design programs to ease traffic problems.
