Section 19: Resolving Issues

Please use the following instructions to resolve any issues a NHSC SP applicant might have:

1. For Technical Issues:

Production Support Process:

- When a **technical** issue is encountered, e.g. Applicant cannot upload his/her Resume, the Customer Care Center should log the issue in the BMISS Issue Tracker. The NHSC SP Application BMISS HyperCare team will monitor the BMISS Issue Tracker to define and resolve the issue. Once the issue is resolved, the Hypercare team will notify the Customer Care Center Analyst of the resolution.

Capturing Issues:

- It is important to capture and log as much detail as possible. The BMISS HyperCare Support Team will need enough information to recreate the issue in order to solve the problem. Applicant details should include the following:
 - Applicant information: Full name, last four of SSN, email, phone number
 - The exact NHSC SP Online Application screen the applicant was on when the issue occurred (screenshot if applicable)
 - The Web Browser the applicant was using (e.g. Internet Explorer, Firefox, etc.)
 - The frequency of the issue (e.g. always, sometimes, etc.)

2. For Program Related Issues:

Division Support Process:

- If an applicant has a program question, the Customer Care Center will try to answer the problem by referring to the Application and Program Guidance. If the Customer Care Center is unable to answer the question then the Applicant's question and information are recorded and the Customer Care Center contacts the appropriate DNHSC Analyst. DNHSC answers the question and the Customer Care Center responds back to the Applicant.

Online Application Technical Issues Email:

- BMISS HyperCare Support Contact: Ashley Carothers- ACarothers@hrsa.gov or Christopher Galipo- CGalipo@hrsa.gov

Capturing Applicant Information:

- The following applicant information should be captured with as much detail of the issue as possible:
 - First and Last Name
 - Email Address
 - Phone Number
 - Last four digits of SSN
 - Section of Online Application the user was on when they encountered the problem
 - Detailed summary of the problem
 - Supporting Document (If applicable)
