General Comment

do not believe this telephone interviewing study is necessary or will furnish anything new at all. this is just more busy work that is not necessary to run good govt. this issue will not become even integral to anything for many years, so that this spending is out of touch with what is necessary to spend with tax dollars. this is just more fat cat bureaucratic sloth so they have to do no work in this agency. the survey is worthless and far too expensive. shut it down. budget to zero
