

Comments received regarding ICR for Student Assistance General Provisions -
Subpart J - Approval of Independently Administered Tests - 1845-0049

Both comments were entered by Aaron Ahern. No return address was attached to the comments.

Comment 1 Docket ID ED-2016-ICCD-0105.

After a student of Higher education discovers the facts of a particular program they must be granted an equal opportunity. Its extremely unfair and unjust to continue with the same practices , especially if the student has permanently been affected by the program in a negative way. When a student is considered the beneficiary it is wrong to deprive them of their rights and to intintianaly miss guide them. I have never intintianaly submitted false information nor fraudulent claims if something was said or done thats what i believed to be true at that time.

Sincerely

"In good faith "

Aaron

Comment 2 ED-2016-ICCD-0105

The ability to benefit program sounds like a great idea, i believe most students and businesses would probably agree.

However the information to be submitted is unclear.

Sincerely

Aaron

Federal Student Aid reply -

Thank you for your time in reviewing this information collection. This particular clearance package is about the process that must be used by the test publishers or States to request that a test for ability to benefit purposes be reviewed. The information that must be submitted by the test publisher or State is outlined in the regulatory language cited. Here is a link to the subpart of the regulations . . . [Subpart J](#) . We hope this information will be useful to you.
