INITIAL PRIVACY ASSESSMENT (IPA)

The IPA is a compliance form developed by the Privacy Branch to identify the use of Personally Identifiable Information (PII) across the Department. The IPA is the first step in the PII verification process, which focuses on the following areas of inquiry:

- Purpose for the information,
- Type of information,
- Sensitivity of the information,
- Use of the information,
- And the risk to the information.

Please use the attached form to determine whether a Privacy Impact Assessment (PIA) is required under the E-Government Act of 2002 or a System of Record Notice (SORN) is required under the Privacy Act of 1974, as amended.

Please complete this form and send it to your program Privacy Liaison Officer (PLO). If you do not have a program Privacy Liaison Officer, please send the IPA to the HUD Privacy Branch:

Janice Noble, Branch Chief
Privacy Branch
U.S. Department of Housing and Urban Development

privacy@hud.gov

Upon receipt from your program PLO, the HUD Privacy Branch will review this form. If a PIA or SORN is required, the HUD Privacy Branch will send you a copy of the PIA and SORN templates to complete and return.

SPECIFIC IPA QUESTIONS

1. Reason for submitting the IPA: <input style="width: 100%;" type="text"/>
<p><i>This is an updated IPA for HUD’s Family Self-Sufficiency (FSS) Program, which is set to expire on January 31, 2017. There are no significant changes, however HUD form 52651 (FSS Program Coordinator), which is used to apply for FSS grant funding has been revised to include a section for agencies to provide salary comparability information. An example for completing this section is included within the form; additional details will be provided in future Notices of Funding Availability.</i></p> <p><i>HUD has removed HUD form 96010 (Facsimile Transmittal), HUD form 96010 (Logic Model) from the application requirements under this program. Both forms were previously approved under a separate OMB approved PRAs: No. 2535-0118 and OM B No. 2535-0114, respectively).</i></p> <p><i>Please provide a general description of the project and its purpose in a way a non-technical person could understand. If this is an updated IPA, please describe what changes and/or upgrades that are triggering the update to this IPA. If this is a renewal please state whether or not there were any changes to the project, program, or system since the last version.</i></p>

2. Does this system employ any of the following technologies? <i>If you are using any of these technologies and want coverage under the respective PIA for that technology, please stop here and contact the HUD Privacy Branch for further guidance.</i>	<input type="checkbox"/> Social Media <input type="checkbox"/> Web portal ² (e.g., SharePoint) <input type="checkbox"/> Contact Lists <input type="checkbox"/> Public website (e.g. A website operated by HUD, contractor, or other organization on behalf of the HUD) <input checked="" type="checkbox"/> None of these

² Informational and collaboration-based portals in operation at HUD and its programs that collect, use, maintain, and share limited personally identifiable information (PII) about individuals who are “members” of the portal or “potential members” who seek to gain access to the portal.

³ HUD defines personal information as “Personally Identifiable Information” or PII, which is any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual, regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department. “Sensitive PII” is PII, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. For the purposes of this IPA, SPII and PII are treated the

5. Does this project, program, or system connect, receive, or share PII with any other HUD programs or systems?	<input type="checkbox"/> No. <input checked="" type="checkbox"/> Yes. If yes, please list: <i>This collection includes form HUD-50058 (Family Report), which captures personal identifiers and sensitive information, however it is covered under a different PRA (OMB No. 2577-0083).</i>
6. Does this project, program, or system connect, receive, or share PII with any external (non-HUD) partners or systems?	<input checked="" type="checkbox"/> No. <input type="checkbox"/> Yes. If yes, please list: Click here to enter text.
6(a) Is this external sharing pursuant to new or existing information sharing access agreement (MOU, MOA, etc.)?	<input type="text"/> Please describe applicable information sharing governance in place:
7. Does the project, program, or system provide role-based training for personnel who have access in addition to annual privacy training required of all HUD personnel?	<input checked="" type="checkbox"/> No. <input type="checkbox"/> Yes. If yes, please list:
8. Per NIST SP 800-53 Rev. 4, Appendix J, does the project, program, or system maintain an accounting of disclosures of PII to individuals/agencies who have requested access to their PII?	<input checked="" type="checkbox"/> No. What steps will be taken to develop and maintain the accounting: <input type="checkbox"/> Yes. In what format is the accounting maintained:
9. Is there a FIPS 199 determination?⁵	<input type="checkbox"/> Unknown.

⁴ Header: Information that is placed before the actual data. The header normally contains a small number of bytes of control information, which is used to communicate important facts about the data that the message contains and how it is to be interpreted and used. It serves as the communication and control link between protocol elements on different devices.

Payload data: The actual data to be transmitted, often called the payload of the message (metaphorically borrowing a term from the space industry!) Most messages contain some data of one form or another, but some actually contain none: they are used only for control and communication purposes. For example, these may be used to set up or terminate a logical connection before data is sent.

⁵ FIPS 199 is the [Federal Information Processing Standard](#) Publication 199, Standards for Security Categorization of Federal Information and Information Systems and is used to establish security categories of information systems.
