

Inmate Calling Services Mandatory Data Collection

On November 5, 2015, the Federal Communications Commission (Commission) released the *Second Report and Order and Third Further Notice of Proposed Rulemaking* in the matter of Interstate Inmate Calling Services (ICS).¹ In that order, the Commission adopted comprehensive reform of all aspects of ICS, including capping rates for both interstate and intrastate calls and limiting and capping ancillary service charges. To enable the Commission to take further ICS reform action, identify and track trends in the ICS market, as well as monitor compliance with the reforms adopted in that order, we required all ICS providers to file data regarding their ICS-related costs, rates, and ancillary service charges.² All ICS providers are required to provide this ICS data for each correctional facility in which inmate calling services were offered by that provider during the reporting period. Additionally, the Commission requires all ICS providers to provide audited financial statements or reports for [[20XX-20XX]], or similar documentation, to the extent they have been produced in the ordinary course of business.

All data should be submitted in the Commission-provided Excel template (in the format dictated in the spreadsheet), located at [[www.XXX.gov]]. All data that requires clarification should be noted and fully explained in an attached Description and Justification (D&J), submitted in PDF format. The D&J should also include formulas, explanations, and appropriate references for calculations, where necessary.

All data and supporting documents must be filed at the Commission no later than two years after notification of receipt of Office of Management and Budget (OMB) approval of these instructions and associated form. Data and supporting documents may be filed under the Protective Order in this proceeding, and would subsequently be treated as confidential.³ For respondents' convenience, a link to the Protective Order is provided at: https://apps.fcc.gov/edocs_public/attachmatch/DA-13-2434A1.pdf.

Please contact Gil Strobel of the Wireline Competition Bureau's Pricing Policy Division (by email at gil.strobel@fcc.gov or by telephone at (202) 418-7084) with questions related to completing the mandatory data collection form.
