"Formative Research to Develop HIV Social Marketing Campaigns for Healthcare Providers"

Attachment 3: Web-Based Survey

Brief Web-Based Survey

Public reporting burden of this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-New).

Thank you for your participation in this survey. Here we will ask you questions about your practice, professional development activities, information needs, use of different forms of media to communicate health information to your patients, and the types of health information you discuss with your patients.

For this first set of questions, we recognize that many physicians split their time between private practices (individual or group) and practices that are public or university based. For the following question, please provide responses for both these practice types as applicable to your own practice of medicine. Please use your best estimate.

		<u>Private Practice</u>	Public or University <u>Based Practice</u>
	Number of patients you see in a month.		
	Number of HIV-infected patients you see in a month.		
	What percent of your patients are male? (Please use your best estimate)		
	What percent of your patients are female? (Please use your best estimate)		
	What percent of your patients identify as transgender? (Please use your best estimate)		
6.	[INSERT Patient descriptor here]		

7.	Which medical associations do you belong to? Please select one or more of the following associations. [MARK ALL THAT APPLY]					
	a.	American Academy of Family Physicians (AAFP)				
	b.	American College of Physicians (ACP)				
	c.	American Medical Association (AMA)				
	d.	National Medical Association (NMA)				
	e.	HIV Medicine Association (HIVMA)				
	f.	American Academy of HIV Medicine (AAHIVM)				
	g.	Infectious Diseases Society of America (IDSA)				
	h.	American Congress of Obstetricians and Gynecologists (ACOG)				
	i.	International AIDS Society (IAS)				
	j.	American College of Physicians (ACP)				
	k.	Association of Nurses in AIDS Care (ANAC)				
	l.	World Professional Association for Transgender Health (WPATH)				
	m.	Gay and Lesbian Medical Association (GLMA)				
	n.	National Hispanic Medical Association (NHMA)				
	0.	American Nurses Association (ANA)				
	p.	National Hispanic Medical Association				
	q.	National Association of Hispanic Nurses				
	r.	National Black Nurses Association				
	s.	[INSERT MEDICAL ASSOCIATION HERE]				
	t.	Other [Specify:]				
	u.	None of these				

Information Needs

8.	Wou	uld you be interested in receivir	ng informat	ion about			
						<u>Yes</u>	<u>No</u>
	a.	Reducing HIV transmission					
	b.	Retention in HIV care or treat	ment				
	c.	Initiating antiretroviral therap	y (ART)				
	d.	Communicating about ART m compliance)					
	e.	Conducting HIV screening					
	f.	Conducting other STD screen					
	g.	Partner services					
	h.	Screening for risky sexual beh	naviors				
	i.	Screening for risky alcohol an	ıd illicit dru	ıg use behavio	ors		
	j.	Helping patients modify risky	sexual beh	aviors			
	k.	Helping patients modify alcoh	nol and illic	it drug use			
	l.	Providing culturally-competer	nt care to tr	ansgender pat	tients		
	m.	Initiating pre-exposure prophy	ylaxis (PrEl				
	n.	[INSERT TOPIC HERE]					
Us	e of E	Electronic Media					
8.	Hov	v often do you do the following	for profess	sional purpose	es?		
			<u>Daily</u>	<u>Weekly</u>	<u>Monthly</u>	Less than once per month	<u>Never</u>
	a.	Use an app on a portable device, such as an iPod/iPad					
	b.	Download content to a portable device, such as an iPod, cell phone, or PDA					
	c.	Access content online, such as a medical journal article					
	d.	Access Medical blogs, such as those available through Medscape or Sermo					

e.	Access CMEs online					
f.	Use social media, like Twitter or Facebook					
g.	Listen to podcasts					
h.	[INSERT ACTIVITY HERE]					
Patient	resources					
9. Do	you refer your patients to?					
					<u>Yes</u>	<u>No</u>
a.	Your practice's website					
b.	CDC's website					
c.	Other websites (specify)					
d.	Other electronic resources (s					
e.	Printed materials					
f.	[INSERT RESOURCE HER	E]				
g.	Other (specify)					
Continu	uing Medical Education (CM	IE)/Continui	ing Educatio	<u>n (CE)</u>		
10. Hov	w do you obtain CME/CE cred	its?				
a.	Attending conferences					
b.	Through employer-provided	in-service tra	ainings			
c.	Dinner presentations by loca	l chapter of a	professional	association		
d.	Attending meetings of a regi	onal professi	onal associati	ion		
e.	Journal supplement educatio	n programs				
f.	Through online courses					
g.	[INSERT DELIVERY MOD	E HERE]				
h.	Other (specify)					

11. How useful are CME/CE programs about HIV care, treatment, and prevention?						
a.	Never useful					
b.	Rarely useful					
с.	Somewhat useful					
d.	Always useful					
12. Hav	e you ever learned about the following topics through a CME/CE co	ourse or program?				
		Yes	<u>No</u>			
a.	Reducing HIV transmission					
b.	Retention in HIV care or treatment					
c.	Initiating ART					
d.	Communicating about ART medication adherence (e.g., patient compliance)					
e.	Conducting HIV screening					
f.	Conducting other STD screening					
g.	Partner services					
h.	Screening for risky sexual behaviors					
i.	Screening for risky alcohol and illicit drug use behaviors					
j.	Helping patients modify risky sexual behaviors					
k.	Helping patients modify alcohol and illicit drug use					
l.	Providing culturally-competent care to transgender patients					
m.	Initiating PrEP					
n.	[INSERT TOPIC HERE]					
13. Wou	ald you be interested in CME/CE courses or programs about the foll	owing topics?				
		<u>Yes</u>	<u>No</u>			
a.	Reducing HIV transmission					
b.	Retention in HIV care or treatment					
c.	Initiating ART					
d.	Communicating about ART medication adherence (e.g., patient compliance)					

•	e.	Conducting HIV screening		
İ	f.	Conducting other STD screening		
:	g.	Partner services		
]	h.	Screening for risky sexual behaviors		
j	i.	Screening for risky alcohol and illicit drug use behaviors		
j	j.	Helping patients modify risky sexual behaviors		
]	k.	Helping patients modify alcohol and illicit drug use		
]	l.	Providing culturally-competent care to transgender patients		
1	m.	Initiating PrEP

		2 3 nicating with Patients about Risk Behaviors t challenges, if any, prevent you from having discussions regarding high-r	isk sexual (or substance use
		viors with your HIV-infected patients? [MARK ALL THAT APPLY]		
i	a.	Lack of time		
1	b.	Cultural differences between you and your patient		
(С.	Gender differences between you and your patient		
(d.	Lack of trust/relationship with patient		
(е.	Lack of skills or training in this area		
1	f.	Patients are uncomfortable discussing the subject		
:	g.	I am uncomfortable discussing the subject		
]	h.	[INSERT CHALLENGE HERE]		
j	i.	Other (specify)		
j	j.	There are no challenges to such discussion that I can identify		

	5. Please think about all of your patients, aged 13 – 64, and indicate which category best describes how often you typically do the following:						
			<u>Always</u>	<u>Very often</u>	Sometimes	<u>Rarely</u>	<u>Never</u>
	1. As active	k patients if they are sexually					
	2. As unsafe	k patients if they are engaging in sex					
		commend consistent and correct n use to patients during all sexual					
		fer newly diagnosed HIV patients opriate care or treatment					
	5. Ta	lk with patients about HIV ng					
	6. Ta	lk with patients about PrEP					
	7. [IN	ISERT ACTIVITY HERE]					
	Scree	ning one of the following statements most a	occurately re	flocts your bo	liefs about offer	ctivo HIV pro	wention?
10.	a. Ri b. Hl	sk-based HIV screening is the most ef V screening for all persons age 13 to (V screening is a public health concern	fective appr 64 is the mo	oach st effective ap	proach	cuve III v pre	evenuon:
17.	Which	one of the following best describes HI	V screening	in your practi	ce?		
	a. Opt-In, where patients must explicitly agree to an HIV testb. Opt-Out, where patients must explicitly decline an HIV testc. Other (Specify)						
18.	Does	CDC recommend HIV screening for al	l patients ag	ges 13 – 64?			
	a. Yeb. No						

e. f.	[INSERT BENEFIT HERE] All of the above					
g.	None of the above					
20. To	what extent do you agree with t	he following s	statements?			
		Strongly agree	<u>Agree</u>	Neither agree nor <u>disagree</u>	<u>Disagree</u>	Strongly disagree
a.	Routine HIV screening of patients can help to prevent					
b.	transmission of HIV. I have the necessary training to counsel my patients about reducing their risk of HIV					
C.	transmission. [INSERT STATEMENT HERE]					

Thank you for completing this survey.

19. Which of the following are patient benefits of HIV testing?

b. Reduction of risky behaviors (e.g. unprotected sex)

c. Reduced risk of transmitting HIV to others

a. Knowledge of status

d. Cost effectiveness
