The American Academy of Pediatrics Institutional Review Board (AAP IRB) reviewed and determined, as authorized by 45 CFR 46.101, that the above-named protocol is exempt from federal regulations and meets at least one of the federal exemption categories. A copy of the IRB reviewer approval sheet is attached.

Exempt status does not exempt investigators from performing ethical research nor do they allow investigators to abdicate the responsibility to act in the public good.

If questions arise about whether planned changes to the above-named protocol might make the study nonexempt human subjects research, please contact me (847-434-4075 or ekelly@aap.org).

Best wishes for a successful study,
