

SSA will insert the following revised Privacy Act Statement into the form as soon as possible:

**Privacy Act Statement
Collection and Use of Personal Information**

Sections 225(b)(2) and 1631(a)(6) of the Social Security Act, as amended, allow us to collect this information. Furnishing us this information is voluntary. However, failing to provide all or part of the information may prevent us from determining the beneficiary's continued eligibility for benefits.

We will use the information to determine if the beneficiary who is enrolled in a vocational rehabilitation or other job-training program is eligible to continue to receive benefits even if their disability has ceased. We may also share the information for the following purposes, called routine uses:

1. To Federal, State, or local agencies (or agents on their behalf) for administering cash or non-cash income maintenance or health maintenance programs (including programs under the Act); and,
2. To contractors or other Federal agencies, as necessary, for the purpose of assisting the Social Security Administration (SSA) in the efficient administration of its programs.

In addition, we may share this information in accordance with the Privacy Act and other Federal laws. For example, where authorized, we may use and disclose this information in computer matching programs, in which our records are compared with other records to establish or verify a person's eligibility for Federal benefit programs and for repayment of incorrect or delinquent debts under these programs.

A list of additional routine uses is available in our Privacy Act System of Records Notices (SORNs) 60-0050, entitled Completed Determination Record – Continuing Disability Determinations; 60-0089, entitled Claims Folders System; 60-0221, entitled Vocational Rehabilitation Reimbursement Case Processing System; and 60-0320, entitled Electronic Disability (eDib) Claim File. Additional information and a full listing of all our SORNs are available on our website at www.socialsecurity.gov/foia/bluebook.
