Instructional Notes

Module 2 - CSBG Eligible Entity Expenditures, Capacity, and Resources

Module 2, Section A: CSBG Expenditures by CSBG Eligible Entity - Data Entry Form

Section A: CSBG Expenditures by CSBG Eligible Entity Data Entry Form meets the Congressional requirement for an explanation of the total amount of CSBG funding expended during the reporting period (identified below) based on categories referenced in the CSBG Act.

CSBG funding expended during the reporting period should be identified in the domain that best reflects the services delivered and strategies implemented, as well as the administrative costs associated with the domains. Further instructions will be provided, but please keep the following in mind, per domain:

Services Supporting Multiple Domains: Expenditures reported under Services Supporting Multiple Domains are those that span or support outcomes achieved across multiple domains for families and individuals, such as case management, transportation, and childcare.

Linkages: Many of the activities that were associated with Linkages are now captured in Domain 9: Agency Capacity Building. This narrows the definition of Linkages, but continues to include community initiatives and information and referral calls.

Agency Capacity Building: Expenditures for Agency Capacity Building are detailed in Table B on this form.

Reporting on Administration: Administrative costs for CSBG reporting are defined by the Office of Community Services as “equivalent to typical indirect costs or overhead.” As distinguished from program administration or management expenditures that qualify as direct costs, administrative costs refer to central executive functions that do not directly support a specific project or service.

Module 2, Section B: CSBG Eligible Entity Capacity Building - Data Entry Form

Module 3

Community Level

Instructional Notes

Module 3 - Community Level

Module 3, Section A: Community Initiative Status Form

CSBG Eligible Entities will complete the **Community Initiative Status Form** for the CSBG Eligible Entity identified initiatives intended to achieve community level outcomes. This form provides a central place to report valuable information about a single community initiative that started, continued, or ended during the current reporting period. The information reported on the status form will be selected via a dropdown menu or written as a narrative. In future reporting periods, CSBG Eligible Entities will update the status form based on the initiative's progress. Please see additional notes below:

Problem Identification: CSBG Eligible Entities will provide information on how the problem was identified in the Community Needs Assessment. This will include any data collected.

Issue/CSBG Community Domains: Select the domain(s) category(ies) that best describe the issue addressed by the initiative. A full list is provided in the Status Form.

Ultimate Expected Outcomes: Select the indicator(s) from the Community Level NPIs (full list is found in Section B) that measures the ultimate expected outcome of the initiative OR enter an "Other Outcome Indicator".

Partnership Type: Select the partnership type from the choices provided. For example, a multi-partner initiative includes the CSBG Eligible Entity and one or more partners.

Module 3, Section B: Community National Performance Indicators (NPIs) - Data Entry Form

To facilitate the reporting, use, and learning from Community NPIs the Annual Report provides two types of indicators (**Counts of Change** and **Rates of Change**). Based on the community-level work in which the CSBG Eligible Entity is engaged, select the appropriate NPIs in either section. All the NPIs are **optional** and a category of "other" exists for a CSBG Eligible Entity to create its own indicator if none of those provided captures what the CSBG Eligible Entity is trying to achieve.

The first way to report impact is the **Counts of Change** indicators. These are basic measures that provide the number of units being measured, e.g. jobs, houses, resources, etc. that have been added (created) or subtracted (eliminated), and in some cases maintained, in the community the CSBG Eligible Entity has targeted.

The second way to report impact is the **Rates of Change** indicators. While requiring a bit more information, these indicators tell the full story of the *magnitude of the impact* a community initiative (usually involving multiple organizations) has had in a community.

Instructional Notes

Module 3 - Community Level

In the **Rates of Change** section, the measures call for reporting the “percent change”—the increase or decrease of something from one year to the next. Please see the examples below.

Example 1: If you are measuring a percent increase in shelter beds, you would provide the following information:

II.) Baseline existing starting point used for comparisons (#): Total Number of shelter beds (last year)

III.) Target (#): Targeted Number of shelter beds

V.) Actual Results (#): Actual number of shelter beds for the year

Example 2: If you are measuring a percent increase in the high school **graduation rate** in the identified community (in this case one school district), you would provide the following information:

II.) Baseline existing starting point used for comparisons (#): High School Graduation Rate (last year)

III.) Target (#): Targeted High School Graduation Rate

V.) Actual Results (#): Actual High School Graduation Rate (at the end of the initiative)

The calculation for a percent increase or decrease for the community NPI rates of change is auto calculated in column VI (actual percent change from baseline). The same logic applies when reporting a percent decrease.

Note, outcomes will only be reported once a community initiative has been reached or when progress has been made toward the ultimate expected outcome. If progress has not been made, there is a place to identify this in the Community Initiative Status Form.

Assistance with these types of calculations can either be obtained locally or from the national partners.

Module 3, Section C: Community Strategies List

CSBG Eligible Entities will use the Community Strategies field provided in the Community Initiative Status form to identify relevant strategies community level initiative. A complete listing of the Community Strategies is found in Section C. The Community Strategies List provides a basic identification of strategies, arranged by Domain and by topic area. The list cannot be all-inclusive, as such an “other” category is included. This standardized list will aid in local and state analysis of the relationship between community-level strategies and outcomes.

Module 4

Individual and Family Level

Instructional Notes

Module 4 - Individual and Family Level

Module 4, Section A: Individual and Family National Performance Indicators (NPIs) - Data Entry Form

All Individual and Family NPIs are **optional** there is a category for "Other Outcome Indicator". CSBG Eligible Entities will only report an "Other Outcome Indicator" if the current NPIs do not capture the outcomes the CSBG Eligible Entity is trying to achieve. Sample language is provided in the "Other Outcome Indicator" data entry section and will be modified by the CSBG Eligible Entity as necessary.

Please see additional notes below:

For All Individual and Family Domains:

Targeting: Targets are set in the Community Action Plan and are identified through the planning phase of the CAA's ROMA (Results Oriented Management and Accountability) cycle. The following will be reported for every indicator:

Column I: Number of Participants Served

Column II: Target (number planned to achieve an outcome in the reporting period)

Column III: Actual Results (actual number of participants who achieved the outcome)

Please note, it is rare that 100% of the people served will achieve the proposed outcome.

Domain Specific Instructions:

Employment, Income and Asset Building, and Housing Domains

Indicators tracking outcomes for 90 or 180 days: CSBG Eligible Entities are **only** expected to report on indicators with retention time frames for programs that specifically include follow up. If the CSBG Eligible Entity does not conduct follow up activities as a part of their programs, outcomes for indicators with retention time frames **will not be reported**.

Employment Domain

NPI 5-7: When reporting on indicators related to **living wage**, CSBG Eligible Entities can provide their own definition or select from national or locally-defined models. Please identify the living wage definition used in the General Comments Section.

Income and Asset Building Domain

NPI 1 and 2: CSBG Eligible Entities are **only expected** to report on basic needs indicators as applicable to the CSBG Eligible Entity's programs. When reporting on indicators related to **basics needs**, CSBG Eligible Entities can provide their own definition or select from national or locally-defined models. Please identify the basic needs definition used in the General Comments Section.

NPI 8: This indicator requires agencies to keep an unduplicated count of people who report improved financial well-being based on responses to the CFPB Financial Well Being Scale (found in the link below)

<http://www.consumerfinance.gov/reports/financial-well-being-scale/>

Instructional Notes

Module 4 - Individual and Family Level

Outcomes Across Multiple Domains:

The data from this indicator will help tell the story of how many lives were improved because of the CSBG Network. Reporting on this indicator requires CSBG Eligible Entities to keep an unduplicated count of individuals who achieved one or more outcomes reported in the NPIs.

Module 4, Section B: Individual and Family Services - Data Entry Form

CSBG Eligible Entities will report unduplicated counts of individuals receiving any of the services listed on the **Individual and Family Services form**. This standardized Individual and Family Services list will aid in analysis of the relationship between people, services, and outcomes.

Module 4, Section C: All Characteristics Report - Data Entry Form

The **All Characteristics Report** collects data on all individuals and households, whether or not funded directly by CSBG. This demographic information will strengthen the CSBG Annual Report by demonstrating who is being served by CSBG Eligible Entities.

To obtain unduplicated counts, a CSBG Eligible Entity will need to have a system that distinguishes the characteristics for each individual/household. While some individuals and households may be served by several programs within a reporting year and entered into multiple data systems (e.g. LIHEAP, WIC, etc.), they must be reported as unduplicated individuals (in row A) and unduplicated households (in row B) in this report. Please note, a single person is reported as an unduplicated individual and an unduplicated household.

We recognize that CSBG Eligible Entities have multiple data systems and may not be able to have an unduplicated count across several systems. If you are unable to collect any characteristics on unduplicated individuals or households due to data systems issues, include those individuals in row E and households in row F at the end of this report. Additionally, please indicate the programs in which these individuals and households were enrolled. The system will allow multiple programs to be added.
