

TABLE OF CHANGES - Instructions

Form I-102, Application for Replacement/Initial Nonimmigrant Arrival-Departure Document

OMB No: 1615-0079

09/16/2014

Reason for Change: U.S. Customs and Border Protection (CBP) is automating Form I-94 Arrival-Departure Records to streamline passenger processing. CBP enters data admission information into the Treasury Enforcement Communications System (TECS) and the Arrival and Departure Information System (ADIS). Form I-94 admission information is used by U.S. Citizenship and Immigration Services (USCIS) to search TECS and ADIS in order to verify applicant, petitioner or beneficiary status in the United States at the time an application or petition is filed. The instructions are being revised to clarify when this form should be used versus when the individual should visit the CBP [Web site](#) in order to obtain an initial or replacement Form I-94. The instructions also explain the new data fields on the form requesting foreign passport information. **The changes being proposed will be made to reflect the I-94 requirements. In addition, ELIS Account Number information has been incorporated into the instructions, to correlate with the new data collection on the form. Finally, new language has been included to correlate with the revisions made to the Applicant’s and Preparer’s sections of the form, and the new Interpreter section of the form. All revisions are being made to the latest version of the form, dated 2/17/13 N.**
