the time of filing the entry summary by placing the symbol ''E'' as a prefix to the HTSUS subheading number for each article for which such treatment is claimed on that document.

[T.D. 84–237, 49 FR 47993, Dec. 7, 1984, as amended by T.D. 89–1, 53 FR 51252, Dec. 21, 1988; T.D. 94–47, 59 FR 25570, May 17, 1994; T.D. 00–68, 65 FR 59658, Oct. 5, 2000]

§ 10.193 Imported directly.

To qualify for treatment under the CBI, an article shall be imported directly from a beneficiary country into the customs territory of the U.S. For purposes of § 10.191 through § 10.198b the words ''imported directly'' mean:

(a) Direct shipment from any beneficiary country to the U.S. without passing through the territory of any non-beneficiary country; or

(b) If the shipment is from any beneficiary country to the U.S. through the territory of any non-beneficiary country, the articles in the shipment do not enter into the commerce of any non-beneficiary country while en route to the U.S. and the invoices, bills of lading, and other shipping documents show the U.S. as the final destination; or

(c) If the shipment is from any beneficiary country to the U.S. through the territory of any non-beneficiary country, and the invoices and other documents do not show the U.S. as the final destination, the articles in the shipment upon arrival in the U.S. are imported directly only if they:

(1) Remained under the control of the customs authority of the intermediate country;

(2) Did not enter into the commerce of the intermediate country except for the purpose of sale other than at retail, and the port director is satisfied that the importation results from the original commericial transaction between the importer and the producer or the latter's sales agent; and

(3) Were not subjected to operations other than loading and unloading, and other activities necessary to preserve the articles in good condition.

[T.D. 84–237, 49 FR 47993, Dec. 7, 1984, as amended by T.D. 00–68, 65 FR 59658, Oct. 5, 2000]

§ 10.194 Evidence of direct shipment.

(a) *Documents constituting evidence of direct shipment.* The port director may require that appropriate shipping papers, invoices, or other documents be submitted within 60 days of the date of entry as evidence that the articles were ''imported directly'', as that term is defined in § 10.193. Any evidence of direct shipment required shall be subject to such verification as deemed necessary by the port director.

(b) *Waiver of evidence of direct shipment.* The port director may waive the submission of evidence of direct shipment when otherwise satisfied, taking into consideration the kind and value of the merchandise, that the merchandise was, in fact, imported directly and that it otherwise clearly qualifies for treatment under the CBI.

§ 10.195 Country of origin criteria.

(a) *Articles produced in a beneficiary country*—(1) *General.* Except as provided herein, any article which is either wholly the growth, product, or manufacture of a beneficiary country or a new or different article of commerce which has been grown, produced, or manufactured in a beneficiary country, may qualify for duty-free entry under the CBI. No article or material shall be considered to have been grown, produced, or manufactured in a beneficiary country by virtue of having merely undergone simple (as opposed to complex or meaningful) combining or packaging operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article. Duty-free entry under the CBI may be accorded to an article only if the sum of the cost or value of the material produced in a beneficiary country or countries, plus the direct costs of processing operations performed in a beneficiary country or countries, is not less than 35 percent of the appraised value of the article at the time it is entered.

(2) *Combining, packaging, and diluting operations.* No article which has undergone only a simple combining or packaging operation or a mere dilution in a beneficiary country within the meaning of paragraph (a)(1) of this section shall be entitled to duty-free treatment

even though the processing operation causes the article to meet the value requirement set forth in that paragraph.

(i) For purposes of this section, simple combining or packaging operations and mere dilution include, but are not limited to, the following processes:

(A) The addition of batteries to devices;

(B) Fitting together a small number of components by bolting, glueing, soldering etc.;

(C) Blending foreign and beneficiary country tobacco;

(D) The addition of substances such as anticaking agents, preservatives, wetting agents, etc.;

(E) Repacking or packaging components together;

(F) Reconstituting orange juice by adding water to orange juice concentrate; and

(G) Diluting chemicals with inert ingredients to bring them to standard degrees of strength.

(ii) For purposes of this section, simple combining or packaging operations and mere dilution shall not be taken to include processes such as the following:

(A) The assembly of a large number of discrete components onto a printed circuit board;

(B) The mixing together of two bulk medicinal substances followed by the packaging of the mixed product into individual doses for retail sale;

(C) The addition of water or another substance to a chemical compound under pressure which results in a reaction creating a new chemical compound; and

(D) A simple combining or packaging operation or mere dilution coupled with any other type of processing such as testing or fabrication (*e.g.*, a simple assembly of a small number of components, one of which was fabricated in the beneficiary country where the assembly took place).

The fact that an article or material has undergone more than a simple combining or packaging operation or mere dilution is not necessarily dispositive of the question of whether that processing constitutes a substantial transformation for purposes of determining the country of origin of the article or material.

(b) *Commonwealth of Puerto Rico and U.S. Virgin Islands*—(1) *General.* For purposes of determining the percentage referred to in paragraph (a) of this section, the term ''beneficiary country'' includes the Commonwealth of Puerto Rico and the U.S. Virgin Islands. Any cost or value of materials or direct costs of processing operations attributable to the U.S. Virgin Islands must be included in the article prior to its final exportation from a beneficiary country to the United States.

(2) *Manufacture in the Commonwealth of Puerto Rico after final exportation.* Notwithstanding the provisions of 19 U.S.C. 1311, if an article from a beneficiary country is entered under bond for processing or use in manufacturing in the Commonwealth of Puerto Rico, no duty will be imposed on the withdrawal from warehouse for consumption of the product of that processing or manufacturing provided that:

(i) The article entered in the warehouse in the Commonwealth of Puerto Rico was grown, produced, or manufactured in a beneficiary country within the meaning of paragraph (a) of this section and was imported directly from a beneficiary country within the meaning of §10.193; and

(ii) At the time of its withdrawal from the warehouse, the product of the processing or manufacturing in the Commonwealth of Puerto Rico meets the 35 percent value-content requirement prescribed in paragraph (a) of this section.

(c) *Materials produced in the U.S.* For purposes of determining the percentage referred to in paragraph (a) of this section, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered may be attributed to the cost or value of materials produced in the customs territory of the U.S. (other than the Commonwealth of Puerto Rico). In the case of materials produced in the customs territory of the U.S., the provisions of §10.196 shall apply.

(d) *Textile components cut to shape in the U.S.* The percentage referred to in paragraph (c) of this section may be attributed in whole or in part to the cost or value of a textile component that is cut to shape (but not to length, width, or both) in the U.S. (including the

Commonwealth of Puerto Rico) from foreign fabric and exported to a beneficiary country for assembly into an article that is then returned to the U.S. and entered, or withdrawn from warehouse, for consumption on or after July 1, 1996. For purposes of this paragraph, the terms ''textile component'' and ''fabric'' have reference only to goods covered by the definition of ''textile or apparel product'' set forth in §102.21(b)(5) of this chapter.

(e) *Articles wholly grown, produced, or manufactured in a beneficiary country.* Any article which is wholly the growth, product, or manufacture of a beneficiary country, including articles produced or manufactured in a beneficiary country exclusively from materials which are wholly the growth, product, or manufacture of a beneficiary country or countries, shall normally be presumed to meet the requirements set forth in paragraph (a) of this section.

(f) *Country of origin marking.* The general country of origin marking requirements that apply to all importations are also applicable to articles imported under the CBI.

[T.D. 84–237, 49 FR 47993, Dec. 7, 1984; 49 FR 49575, Dec. 20, 1984, as amended by T.D. 95–69, 60 FR 46197, Sept. 5, 1995; T.D. 95–69, 60 FR 55995, Nov. 6, 1996; T.D. 00–68, 65 FR 59658, Oct. 5, 2000]

§10.196 Cost or value of materials produced in a beneficiary country or countries.

(a) *''Materials produced in a beneficiary country or countries'' defined.* For purposes of §10.195, the words ''materials produced in a beneficiary country or countries'' refer to those materials incorporated in an article which are either:

(1) Wholly the growth, product, or manufacture of a beneficiary country or two or more beneficiary countries; or

(2) Subject to the limitations set forth in §10.195(a), substantially transformed in any beneficiary country or two or more beneficiary countries into a new or different article of commerce which is then used in any beneficiary country in the production or manufacture of a new or different article which is imported directly into the U.S.

Example 1. A raw, perishable skin of an animal grown in one beneficiary country is sent to another beneficiary country where it is tanned to create nonperishable ''crust leather''. The tanned product is then imported directly into the U.S. Because the material of which the imported article is composed is wholly the growth, product, or manufacture of one of more beneficiary countries, the entire cost or value of that material may be counted toward the 35 percent value requirement set forth in §10.195.

Example 2. A raw, perishable skin of an animal grown in a non-beneficiary country is sent to a beneficiary country where it is tanned to create nonperishable ''crust leather''. The tanned skin is then imported directly into the U.S. Although the tanned skin represents a new or different article of commerce produced in a beneficiary country within the meaning of §10.195(a), the cost or value of the raw skin may not be counted toward the 35 percent value requirement because (1) the tanned material of which the imported article is composed is not wholly the growth, product, or manufacture of a beneficiary country and (2) the tanning operation creates the imported article itself rather than an intermediate article which is then used in the beneficiary country in the production or manufacture of an article imported into the U.S. The tanned skin would be eligible for duty-free treatment only if the direct costs attributable to the tanning operation represent at least 35 percent of the appraised value of the imported article.

Example 3. A raw, perishable skin of an animal grown in a non-beneficiary country is sent to a beneficiary country where it is tanned to create nonperishable ''crust leather''. The tanned material is then cut, sewn and assembled with a metal buckle imported from a non-beneficiary country to create a finished belt which is imported directly into the U.S. Because the operations performed in the beneficiary country involved both the substantial transformation of the raw skin into a new or different article and the use of that intermediate article in the production or manufacture of a new or different article imported into the U.S., the cost or value of the tanned material used to make the imported article may be counted toward the 35 percent value requirement. The cost or value of the metal buckle imported into the beneficiary country may not be counted toward the 35 percent value requirement because the buckle was not substantially transformed in the beneficiary country into a new or different article prior to its incorporation in the finished belt.

Example 4. A raw, perishable skin of an animal grown in the U.S. Virgin Islands is sent to a beneficiary country where it is tanned to create nonperishable ''crust leather'', which is then imported directly into the U.S.
