SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) Federal Emergency Management Agency (FEMA) proposes to establish a new DHS system of records titled, "DHS/FEMA-011 Training and Exercise Program Records System of Records."

In support of its mission, components within FEMA such as the Protection and National Preparedness Bureau, the National Processing Service Centers (NPSCs), the United States Fire Administration (USFA), and the FEMA Emergency Management Institute (FEMA/EMI) sponsor a wide range of training and exercise programs for FEMA's employees and contractors and

its partners in the first responder and emergency management communities.

Through its training and exercise programs, FEMA brings together partners from state, local, tribal, regional, international, and nongovernmental/volunteer organizations, as well as the private sector, including firefighters, emergency medical services, emergency management agencies, law enforcement, and public officials. These programs provide FEMA's employees, contractors and partners with the opportunity to develop the situational awareness and skills necessary to quickly prevent, respond to, or mitigate all hazards affecting the people of the United States.

This system of records notice is being published because FEMA collects and maintains personally identifiable information (PII) about the individuals who register or apply for its training and exercise programs and the organization employing or sponsoring these individuals, as well as information used to grant access to IT systems that support these programs. FEMA's training and exercise programs also maintain information about the trainings and exercise events, such as rosters and reports, which may be shared among participants. The type and amount of PII FEMA collects from individuals to facilitate their participation may vary among programs.

The purpose of this system is to facilitate registration for, participation in, and the completion and documentation of, training and exercise programs sponsored by FEMA in support of its mission.

FEMA collects, uses, and maintains the records within this system under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act; the Federal Fire Prevention and Control Act of 1974, as amended; 44 U.S.C. 3101; 6 U.S.C. 748; Homeland Security Presidential Directives, and several Executive Orders, as described in this notice. This updated system of records strengthens privacy protections and provides greater transparency regarding FEMA's training and exercise records by encompassing the full range of the agency's training and exercise programs into a single system of records. To further safeguard individuals' privacy, FEMA limits access to the information in this system by verifying the status and "need to know" of individuals registering for and participating in the agency's training and exercise programs.

The proposed routine uses are compatible with the purpose of the original collection as they ensure that the information within this system is

shared in association with individuals' registration and participation in FEMA's training and exercise programs, and otherwise ensure that the sharing of information in this system is consistent with that of other DHS systems.

FEMA collects, uses, and maintains information about the individuals who register or apply for its training and exercise programs, including DHS employees and contractors, other Federal employees, volunteers and members of the first responder and emergency management communities, to foster the development of mission critical skills among them through participation in these training and exercise programs. FEMA's training and exercise programs may share information with state, local, tribal, international, nongovernmental/volunteer organizations, and private sector organizations. FEMA shares this information to facilitate the development of training and exercise programs, coordinate, facilitate, and track participation in training and exercise programs, and for statistical purposes. FEMA's sharing of information with education institutions for transcript purposes will only take place upon the request of the student. In accordance with the Privacy Act of 1974 the Department of Homeland Security is giving notice that it proposes to consolidate the Privacy Act system of records notice titled, Department of Homeland Security/Federal Emergency Management Agency/National Emergency Training Center—017 Student Application and Registration Records system of records (October 5, 2004, 69 FR 192) into the this system of records.

Additionally, DHS is issuing a Notice of Proposed Rulemaking elsewhere in the Federal Register to exempt this system of records from certain provisions of the Privacy Act in order to preserve the objectivity and fairness of testing and examination material, elsewhere in the **Federal Register**. This newly established system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which the U.S. Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some

identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors.

Below is the description of the DHS/FEMA-011 Training and Exercise Program Records System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget and to Congress.
