

**Notice: We want your feedback on the Weekly U.S. Retail Gasoline Price reports**

Today EIA launched a customer survey seeking feedback on the Weekly Retail Gasoline Price report. The EIA-878 survey collects, on a weekly basis, the retail price by grade of unleaded gasoline, self-service, cash only, including all taxes. The U.S., regional, and city retail gasoline price estimates generated from this survey data are used in a wide range of analytical reports and are routinely accessed by the public and the government to monitor price levels at the national and regional levels.

We seek to understand your use of these data through this brief survey. Your participation in this survey is voluntary and will take approximately 3 minutes.

The opinions and information that you provide are protected as confidential information. Your name and all identifying information is deleted after the interview. Your responses are aggregated with responses from other interviews to ensure anonymity.

**Please provide us with your feedback and take the survey at <http://www.eia.gov/xxxxx>. The survey will only be open to the first 10,000 respondents or for the next two weeks, whichever occurs first.**
