

(Georgia Avenue) and I-95, a distance of approximately 10.6 miles.

The purpose of the MD 28/MD 198 Corridor Improvement Study is to improve local traffic safety and operations for motorists, bicyclists, and pedestrians traveling along the MD 28/MD 198 corridor and across intersecting roads, while managing access; and, preserve the rural and suburban quality of life by addressing localized traffic issues, while considering local planning visions and state growth policies for communities along the corridor. MD 28 and MD 198 is experiencing peak hour congestion in areas along portions of the corridor between I-95 and MD 97, particularly east of MD 97, in the vicinity of US 29 and Burtonsville commercial area, and near Sweitzer Lane. Local operational and capacity deficiencies are projected to result from planned and future development in and around the study area. The resulting congestion is expected to cause stop-and-go conditions along the roadways, especially at study-area intersections projected to experience failing conditions by 2040. The roadway segments between the intersections will experience peak-hour capacity constraints imposed by: Projected traffic volumes; the absence of mid-block through lanes on two-lane roadways; the absence of storage lanes for left turns; and the absence of deceleration lanes for right turns. Local area master plans describe objectives for the corridor roadway that include retaining the rural character of adjacent communities and protecting sensitive environmental areas. Recommended features in these plans include the construction of hiker-biker trails and sidewalks and the addition of landscaping.

Alternatives under consideration include taking no action, installing on-road bicycle provisions, a shared use path and segments of sidewalk, and widening existing MD 28/MD 198 to a four- or six-lane roadway in some sections, with various options for access management via frontage roads or median treatments, and intersection improvements including additional turn lanes or installing roundabouts. The EA will be available for public and agency review and comment prior to a Public Hearing. Public notice will be given of the availability of the EA for review and of the time and place of this hearing. Public Informational Workshops were held in June 2014 and March 2015 to solicit opinions and ideas on proposed improvements from local citizens.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions

are invited from all interested parties. Comments or questions concerning this proposed action and the determination that an EA is the proper environmental document should be directed to FHWA at the address provided above.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2016-0194]

Agency Information Collection Activities; Renewal of a Currently-Approved Information Collection: Licensing Applications for Motor Carrier Operating Authority

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for review and approval and invites public comment. The FMCSA requests approval to renew an ICR titled, "Licensing Applications for Motor Carrier Operating Authority," that is used by for-hire motor carriers of regulated commodities, motor passenger carriers, freight forwarders, property brokers, and certain Mexico-domiciled motor carriers to register their operations with the FMCSA.

DATES: We must receive your comments on or before October 11, 2016.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number FMCSA-2016-0194 using any of the following methods:

SUPPLEMENTARY INFORMATION:

Background: The FMCSA registers certain for-hire Mexico-domiciled motor

carriers under 49 U.S.C. 13902(c). These motor carriers may conduct transportation services in the United States only if they are registered with the FMCSA. Each registration is effective from the date specified and remains in effect for such period as the Secretary of Transportation (Secretary) determines by regulations. The ICC Termination Act of 1995 (ICCTA), Public Law 104–88, 109 Stat. 803 (December 29, 1995), transferred this registration authority from the former Interstate Commerce Commission (ICC) to the Secretary who subsequently delegated the registration function to the Federal Highway Administration (FHWA) (FMCSA's predecessor agency), then to the FMCSA at the time that agency was created.

On March 19, 2002, the FMCSA published an interim final rule (IFR) at 67 FR 12702 which proposed to amend 49 CFR part 365 and revise Form OP–1(MX). Under the amended regulations, Mexico-domiciled long-haul motor carriers seeking to operate within the United States beyond the commercial border zones, including carriers that previously filed pending Form OP–1(MX) applications, would be required to submit the revised Form OP–1(MX). Under the revised Form OP–1(MX), the FMCSA would collect more detailed information on an applicant motor carrier's size, operations and history than could be collected previously by using the existing form.

The Final Rule titled, "Unified Registration System," (78 FR 52608) dated August 23, 2013, implemented statutory provisions for an on-line registration system in the ICCTA and the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, 2005 (SAFETEA–LU). The URS would streamline the registration process and serve as a clearinghouse and repository of information on, and identification of, motor carriers, brokers, freight forwarders, intermodal equipment providers (IEPs), hazardous materials safety permit (HMSP) applicants, and cargo tank facilities required to register with FMCSA. This ICR previously covered registration requirements for non-exempt for-hire carriers, freight forwarders, and property brokers. Under the URS, all forms, except the OP–1(MX), in this ICR were folded into the Form MCSA–1 in the OMB Control Number 2126–0051 titled, "FMCSA Registration/Updates," ICR on October 23, 2015. The Form OP–1(MX) would be retained for the small number of Mexico-domiciled carriers that seek authority to operate beyond the United States municipalities on the United

States-Mexico border and their commercial zones because they are not included within the scope of the URS rule.

The Final Rule titled, "Unified Registration System," (80 FR 63695) dated October 21, 2015, changed the effective and compliance dates of the 2013 URS Final Rule from October 23, 2015, to September 30, 2016, in order to allow FMCSA additional time to complete the information technology (IT) systems work required to fully implement that rule. An additional delay was published on July 28, 2016 (81 FR 49553), stating the URS Final Rule will come into effect on January 14, 2017. This ICR revision will restore the Forms OP–1, OP–1(P), OP–1(FF), and OP–1(NNA) under control number 2126–0016, until January 14, 2017, because these forms are still needed to support registration processes for entities subject to FMCSA's regulations. After January 14, 2017, all forms in this ICR, except the OP–1 (MX), will be folded into the online Form MCSA–1 under the OMB Control Number 2126–0051 titled, "FMCSA Registration/Updates," ICR.

Title: Licensing Applications for Motor Carrier Operating Authority.
OMB Control Number: 2126–0016.

Type of Request: Renewal of a currently approved collection.

Respondents: Motor carriers, motor passenger carriers, freight forwarders, brokers, and certain Mexico-domiciled motor carriers.

Estimated Number of Respondents and Responses: 36 respondents [(12 respondents and responses for Year 1) + (12 respondents and responses for Year 2) + (12 respondents and responses for Year 3)].

Estimated Time per Response: 4 hours.

Expiration Date: October 31, 2016
Frequency of Response: Other (as needed).

Estimated Total Annual Burden: 48 hours [48 hours for Year 1 + 48 hours for Year 2 + 48 hours for Year 3 = 133 hours/3 year approval for ICR = 48 estimated average number of annual burden hours].

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize

or include your comments in the request for OMB's clearance of this information collection.

Issued on: August 1, 2016.

G. Kelly Regal,

Associate Administrator for Office of Research and Information Technology.
