Summary of Changes to the Information Collection Instrument

Instructions were improved

- Welcome Page Screen 2-
Updated to advise respondents that no attachments or separate documents will be accepted.
- Timeout Warning Screen 3
Added to alert respondents to expect a session timeout warning after 14 minutes of inactivity, followed by a system disconnect after 60 additional seconds.
- Navigation/Progress Bar/Slide 4
Indicators were added to display the respondent's process through the module.

Instrument was revised as follows:

- Step 1/Screen 5: Establish Reference History
Reduced the options to explain how the respondent knows the applicant.
