

Amtrak requests consideration for Special Approval of the submitted alternate standard identified as "Brakes Single Car Test LXFB-10-0008" for single car testing of auto carrier cars used on its Auto Train service between Lorton, VA, and Sanford, FL. Amtrak states that its Auto Train has a freight brake system. Amtrak, however, runs brake pipe pressure at 110 pounds per square inch (psi) and not 90 psi like the freight railroads. Under FRA's rules, these cars would need to have a single car test per 49 CFR 232.305 following the procedure of Association of American Railroads' (AAR) Standard S-486-04. The 49 CFR 238.311 referenced procedure of American Public Transportation Association Standard SS-M-005-98 does not apply. The proposed alternate standard, while still based on AAR S-486-04, incorporates modifications to the single car test device and procedures to allow for the higher 110 psi brake pressure.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. General Description of Report

This quarterly information collection is mandatory for market risk institutions, defined for this purpose as those institutions that are subject to the market risk capital rule as incorporated into Subpart F of the agencies' regulatory capital rules (market risk institutions).¹ All data reported in the FFIEC 102 are available to the public. Each market risk institution is required to file the FFIEC 102 for the agencies' use in assessing the reasonableness and accuracy of the institution's calculation of its minimum capital requirements under the market risk capital rule and in evaluating the institution's capital in relation to its risks. Additionally, the market risk information collected in the FFIEC 102: (a) Permits the agencies to monitor the market risk profile of and evaluate the impact and competitive implications of the market risk capital rule on individual market risk institutions and the industry as a whole; (b) provides the most current statistical data available to identify areas of market risk on which to focus for onsite and offsite examinations; (c) allows the agencies to assess and monitor the levels and components of each reporting institution's risk-based capital requirements for market risk and the adequacy of the institution's capital under the market risk capital rule; and (d) assists market risk institutions in validating their implementation of the market risk framework.

Current Actions

On July 5, 2016, the agencies published a notice in the **Federal Register**² and requested comment on a proposal to revise the FFIEC 102 effective December 31, 2016, to (1) have a market risk institution provide its Legal Entity Identifier (LEI) on the reporting form, only if the institution already has an LEI, and (2) add U.S. Intermediate Holding Companies to the Board's respondent panel. The comment

¹ 12 CFR 3.201 (OCC); 12 CFR 217.201 (Board); and 12 CFR 324.201 (FDIC). The market risk capital rule generally applies to any banking institution with aggregate trading assets and trading liabilities equal to (a) 10 percent or more of quarter-end total assets or (b) \$1 billion or more. The statutory provisions that grant the agencies the authority to impose capital reporting requirements are 12 U.S.C. 161 (national banks), 12 U.S.C. 324 (state member banks), 12 U.S.C. 1844(c) (bank holding companies), 12 U.S.C. 1467a(b) (savings and loan holding companies), 12 U.S.C. 5365 (U.S. intermediate holding companies), 12 U.S.C. 1817 (insured state nonmember commercial and savings banks), and 12 U.S.C. 1464 (savings associations).

² 81 FR 43605 (July 5, 2016).

period for this notice ended on September 6, 2016.

The agencies did not receive any comments. The agencies are now submitting a request to OMB for review and approval of the extension, with revision, of the FFIEC 102 that incorporates the two changes proposed in the July 5 notice.
