SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for a new information collection.

Telepresence uses satellite communication from ship to shore to bring the unknown ocean to the screens of scientists and the general public in their homes, schools or offices. With technology constantly evolving it is important to address the needs of the shore based scientists and public to maintain a high level of participation. We will use voluntary surveys to identify the needs of users of data, best approaches to leverage expertise of shore based participants and to create a "Citizen Science" web portal for meaningful public engagement focused on ocean exploration.

II. Method of Collection

This will be a web-based survey.
