 ANNUAL COLLABORATION ASSESSMENT TOOL (CAT)**

Public reporting burden of this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-xxxx)

There are many ways that the collaborative (coalitions or partnerships) develop and function dependent upon the various needs of the collaborators and the communities they operate in and serve. In order to assess the processes that are developing among members of health department collaborative and the potential outcomes of their work, CDC ask that health departments use the following survey questions as guidance on developing their own electronic instrument and submit it on an annual basis.
