Subject: Protocol #2015-08 National Health Interview Survey Amendment #8 2017 NHIS

The NCHS Research Ethics Review Board reviewed the request for approval of amendment of Protocol #2015-08 National Health Interview Survey Amendment #8 2017 NHIS using the expedited review process based on 46.110 of 45 CFR 46(b)(2), minor change to previously approved research protocol.

Description of proposed modification:

Amendment #8 2017 NHIS

Protocol #2015-08 Amendment #8 2017 NHIS is approved.

ERB approval of Protocol #2015-08 National Health Interview Survey will expire on **06/12/17**.

If it is necessary to continue the study beyond the expiration date, a request for continuation approval should be submitted about 6 weeks prior to 06/12/17.

There is no grace period beyond one year from the last approval date. In order to avoid lapses in approval of your research and the possible suspension of subject enrollment, please submit your continuation request at least six (6) weeks before the protocol's expiration date of 06/12/17. It is your responsibility to submit your research protocol for continuing review.

Any problems of a serious nature resulting from implementation of these changes should be brought to the attention of the Research ERB, and any additional proposed changes should be submitted for IRB approval before they are implemented.

Please submit "clean" copies of the revised protocol, consent forms, and any other revised materials to this office for the official protocol file.

Please call me or Andrea MacKay, M.S.P.H., if you have any questions.
