**RFS2 Renewable Biomass Report**  
 Report Form ID: RFS0802

OMB Control No. 2060-0640

Expires [PENDING]

The RFS0802 RFS2 Renewable Biomass Report is for RIN-generating producers and importers and biointermediate producers to provide supplemental feedstock information for feedstocks used to produce biointermediates, renewable fuels and generate RINs under RFS2.

Any producer or importer, except those subject to the aggregate approach in 80.1454(g), that generates RINs or produces biointermediate for the production of renewable fuels for which RINs will be generated during a given quarter for renewable fuel made from feedstocks or biointermediates that are or are derived from planted crops and crop residue from existing agricultural land, planted trees or tree residue from actively managed tree plantations, slash or precommercial thinnings from forestlands, or biomass obtained from areas at risk of wildfire, shall summarize and submit information verifying that the feedstocks meet the definition of renewable biomass, as required in 80.1451(d).

RIN-generating renewable fuel producers and biointermediate producers reporting for more than one registered production facility and importers reporting for more than one registered foreign facility must submit data for each facility on separate report rows.

Reports must be submitted individually for each separate plot of land from which feedstocks were harvested, and additional electronic files that identify each plot of land by coordinates of the points defining the boundaries of each plot simultaneously submitted.

This report is due quarterly: first quarter (January – March) reports are due June 1; second quarter (April – June) reports are due September 1; third quarter (July – September) reports are due December 1; fourth quarter (October – December) reports are due March 31.

**Several fields were updated to include the term “biointermediate producer”. No other changes were made compared to the RFS0801.**

Paperwork Reduction Act Statement

The public reporting and recordkeeping burden for this collection of information is disclosed in the estimates of the individual report form instructions. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
