## Project Environmental Findings

### Finding: Class II(c) - Categorical Exclusions (C-List)

#### Class Level Description

Class II(c) consists of projects called categorical exclusions (CEs) which are known not to have, either individually or cumulatively, a significant environmental impact on the human or natural environment and are therefore categorically excluded from the requirement to prepare an environmental assessment or an environmental impact statement. Class II(c) does not require documentation.

### Categorical Exclusion Description

Type 07: Acquisition, installation, rehabilitation, replacement, and maintenance of vehicles or equipment, within or accommodated by existing facilities, that does not result in a change in functional use of the facilities, such as: equipment to be located within existing facilities and with no substantial off-site impacts; and vehicles, including buses, rail cars, trolley cars, ferry boats and people movers that can be accommodated by existing facilities or by new facilities that qualify for a categorical exclusion.

## Part 4: Fleet Details

**Fleet Type:** Fixed Route

### Fleet Comments

In March 2009, CCCTA cut 23% of its service hours due to the State of California eliminating State Transit Assistance (STA) funding for transit providers in order to balance its budget. To compound this loss, CCCTA suffered a loss of sales tax revenues as a result of the declining economy. As the economy recovers, CCCTA has been cautious in restoring service eliminated during the economic downturn. CCCTA has plans to expand service more widely as additional funding sources become available, i.e. a local tax measure, new developments, etc.

Additionally, CCCTA has a regional responsibility to ensure passengers' mobility needs can be met with alternative modes of transportation. As an example, CCCTA provided 5 bus bridges for Bay Area Rapid Transit (BART) in FY15 alone. The bus bridges are BART's alternative when their transportation system is out of service due to BART car derailment, station fires, rail malfunction, and/or union strikes. These bus bridges required an average of 16 buses each. If we subtract the vehicles used for bus bridges as well as vehicles required for peak service, CCCTA's spare ratio shrinks to approximately 11%. For these reasons, CCCTA views its current fleet as necessary for current, future, and emergency scenarios service levels.

Comment The Central Contra Costa (grantee 2584) "Recipient Documents" needs: 1) an Authorizing Resolution showing the grantee's legal authority to accept FTA funds; and 2) Designation of Signature Authority for Anne Muzzini to PIN.

Although there is an Opinion of Counsel, it does not reference the grantee's authority to

accept FTA funds. Also, I did not see environmental concurrence -- it states: "Do Not Concur."
