PUBLIC COMMENT ON FEDERAL REGISTER

LEROY RICHARDSON FAILED TO POST THIS ON REGULATIONS IN A FORMAT THAT WILL ENABLE PUBLIC COMMENT TO BE PUT ON THAT WEBSITE. LEROY RICHARDSON HAS FAILED TO DO THIS MANY TIMES. MAYBE HE NEEDS TO RETIRE? CERTAINLY INCOMPETENCE IS SHOWING.

THE PUBLIC HAS THEREFORE BEEN DISENFRANCHISED ON THIS QUESTION TO A GREAT EXTENT BECAUSE THEY ARE DIRECTED TO REGULATIONS.GOV WHICH WILL NOT ALLOW PUBLIC COMMENT. SO THEIR ONLY ALTERNATIVE IS TO WRITE A LETTER, WHICH NOBODY DOES MUCH ANYMORE. IN FACT OUR PRESIDENT HAS ASKED HIS CABINET TO USE INTERNET. SO WHY IS LEROY SO INCOMPETENT IN THAT REGARD. HE GIVES NO OTHER PLACE TO EMAIL.

THE BUDGET FOR THIS WORK SHOULD BE CUT TO ZERO. THE INFORMATION DISSEMINATED BY THE CDC IS INACCURATE AND AS BADLY INACCURATE AS LEROY RICHARDSON JUST DID ON HIS POSTING OF THIS FEDERAL REGISTER. THEY CLAIM DEATHS FROM FLU WHEN THERE IS NO REAL JUSTIFICATION FOR THAT DESIGNATION. THEY HAVE INCOMPLETE INFORMATION AND CERTAINLY NO REAL MEDICAL FORENSICS TO MAKE THAT DETERMINATION AND YET THEY LOUDLY PROCLAIM THAT IS THE FACT. THE FACT IS DEATH CERTIFICATES FROM FLU ARE VERY HARD TO DISCERN WITHOUT A FULL MEDICAL AUTOPSY AND THE CDC IS DISSEMINATING FAKE AND FALSE INFORMATION.

THIS COMMENT IS FOR THE PUBLIC RECORD. NOBODY WHO LOOKS INTO THE ACTIONS OF THIS FAT CAT BUREAUCRACY IS PLEASED WITH WHAT THEY ARE SELLING. THEY ARE SIMPLY PIMPS FOR BIG PHARMA AND DO NOT GOOD FOR THE US PUBLIC. THEY ARE SIMPLY FAT CAT INCOMPETENT BOOBS. JEAN PUBLIC JEANPUBLIC@GMAIL.COM,

collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. Proposed Project National Notifiable Diseases Surveillance System (OMB Control No. 0920-0728, Expires 01/31/2017)--Revision--Center for Surveillance, Epidemiology and Laboratory Services (CELS), Centers for Disease Control and Prevention (CDC). Background and Brief Description The Public Health Services Act (42 U.S.C. 241) authorizes CDC to disseminate nationally notifiable condition information. The Nationally Notifiable Diseases Surveillance System (NNDSS) is based on data collected at the state, territorial and local levels as a result of legislation and regulations in those jurisdictions that require health care providers, medical laboratories, and other entities to submit health-related data on reportable conditions to public health departments. These [[Page 27316]] reportable conditions, which include infectious and non-infectious diseases, vary by jurisdiction depending upon each jurisdiction's health priorities and needs. Infectious disease agents and environmental hazards often cross geographical boundaries. Each year, the Council of State and Territorial Disease Epidemiologists (CSTE), supported by CDC, determines which reportable conditions should be designated nationally notifiable and voluntarily submitted to CDC so that information can be shared across jurisdictional boundaries and both surveillance and prevention and control activities can be coordinated at regional and national levels. CDC requests a three-year approval for a revision the NNDSS information collection. This Revision includes requests for approval to receive: (1) Case notification data for Chikungunya, Dengue-like illness, Non-HPS Hantavirus, and Acute Flaccid Myelitis; (2) new laboratory and vaccine data elements for all conditions; and (3) new disease-specific data elements for Mumps, Pertussis, and Sexually Transmitted Diseases. Although this Revision includes case notifications that were not part of the last NNDSS Revision, the estimate of the average burden per response based on the burden tables from all of the consolidated applications has not changed. The burden on the states and cities is estimated to be 10 hours per response and the burden on the territories is estimated to be 5 hours per response. The addition of new vaccine, laboratory, and disease-specific data elements do not add any additional burden because the states, territories, and cities already collect those data elements. There will be no increase in burden for the states, territories, and cities to send those data elements to CDC. The estimated annual burden is 28,340 hours. Estimated Annualized Burden Hours -----

	Number of responses	Avg. burden per response	Type of respondents	Form name	Number of respondents	Number of respondent (in hrs.)	Number of (in hrs.)
States.....	Weekly and 50	52	10				
26,000 Annual. Territories.....	Weekly and 5	52	5	1,300 Annual. Cities.....	Weekly and 2		
52	10	1,040 Annual.		Total.....			
.....	28,340

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-15-0728; Docket No. CDC-2015-0033]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing efforts to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed revision of the National Notifiable Diseases Surveillance System (NNDSS) information collection. The NNDSS is the nation's public health surveillance system that monitors the occurrence and spread of diseases and conditions that are nationally notifiable or under national surveillance.

DATES: Written comments must be received on or before July 13, 2015.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2015-0033 by any of the following methods:

Federal eRulemaking Portal: [Regulations.gov](http://www.Regulations.gov). Follow the instructions for submitting comments. Mail: Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329. Instructions: All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to [Regulations.gov](http://www.Regulations.gov), including any personal information provided. For access to the docket to read background documents or comments received, go to [Regulations.gov](http://www.Regulations.gov). Please note: All public comment should be submitted through the Federal eRulemaking portal ([Regulations.gov](http://www.Regulations.gov)) or by U.S. mail to the address listed above. FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact the Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS- D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: omb@cdc.gov. SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the Federal Register concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below. Comments are invited on: (a) Whether the proposed
