

Division, at 202–501–1448, or email curtis.glover@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

The termination settlement proposal forms (Standard Forms 1435 through 1440) provide a standardized format for listing essential cost and inventory information needed to support the terminated contractor's negotiation position per FAR subpart 49.6—Contract Termination Forms and Formats. Submission of the information assures that a contractor will be fairly reimbursed upon settlement of the terminated contract.

B. Annual Reporting Burden

Respondents: 4,851.

Responses per Respondent: 1.7.

Total Responses: 8,247.

Hours per Response: 2.4.

Total Burden Hours: 19,793.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

OBTAINING COPIES OF PROPOSALS:

Requester may obtain a copy of the proposal from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202–501–4755.

Please cite OMB Control No. 9000–0012, Termination Settlement Proposal Forms—FAR (SF's 1435 through 1440), in all correspondence.

Dated: September 21, 2016.

Lorin S. Curit,

Director, Federal Acquisition Policy Division, Office of Government-wide Acquisition Policy, Office of Acquisition Policy, Office of Government-wide Policy.

BILLING CODE 6820–EP–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[60Day–16–16BEH; Docket No. ATSDR–2016–0006]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Agency for Toxic Substances and Disease Registry (ATSDR), as part of its continuing efforts to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This notice invites comment on the “ATSDR Communication Activities Survey (ACAS)” which will be used to assess the effectiveness of ATSDR site team members as they engage and inform members of communities in providing effective, clear, and consistent communication and information about protecting communities from environmental hazards.

DATES: Written comments must be received on or before November 25, 2016.

ADDRESSES: You may submit comments, identified by Docket No. ATSDR–2016–0006 by any of the following methods:

- *Federal eRulemaking Portal:*

Regulations.gov. Follow the instructions for submitting comments.

- *Mail:* Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS–D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to *Regulations.gov*, including any personal information provided. For access to the docket to read background documents or comments received, go to *Regulations.gov*.

Please note: All public comment should be submitted through the Federal eRulemaking portal (Regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the

proposed project or to obtain a copy of the information collection plan and instruments, contact the Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS–D74, Atlanta, Georgia 30329; phone: 404–639–7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

Proposed Project

ATSDR Communication Activities Survey (ACAS)—NEW—Agency for Toxic Substances and Disease Registry (ATSDR).

Background and Brief Description

The Agency for Toxic Substances and Disease Registry (ATSDR) serves the public through responsive public health actions to promote healthy and safe environments and to prevent harmful exposures. The agency aims to work effectively with communities in proximity to hazardous waste sites by listening to and understanding their health concerns and seeking their guidance on where, when, and how to take public health actions.

Community members are key participants in the agency’s public health assessment process and should be actively involved in decisions that impact their community. Thus, agency’s goals for this new information collection request (ICR) titled the “ATSDR Communication Activities Survey (ACAS)” are to ascertain the effectiveness of, and to assess the differences and the consistency of, the delivery of ATSDR activities and respondent perceptions across sites and over time. ATSDR will use the ACAS to: (1) Determine how effectively it’s site teams engage community members; (2) discover how well ATSDR provides effective, clear, and consistent communication and information on how to promote healthy and safe environments; (3) understand whether the agency’s activities are helping the communities address environmental issues; and (4) improve ATSDR’s activities to make a greater impact within the communities served.

Recruitment will occur at communities where ATSDR and state or local agencies have implemented site activities to address environmental issues. For each engaged community, the ACAS will be used to assess a set of effectiveness indicators for ATSDR site-specific activities about the respondents’ involvement, knowledge, satisfaction, observations, and opinions about ATSDR’s community engagement and educational outreach efforts to inform communities. The indicators will measure ATSDR effectiveness in the following respondent areas: (1) Their involvement with the site activities; (2) how they received, and prefer to receive, ATSDR information; (3) their knowledge and understanding of ATSDR site activities and how to reduce hazardous exposures; (4) their observations and opinions of ATSDR’s role in community preparedness; (5) their self-evaluation on their risk of exposure to possible environmental hazards; (6) their demographic profile; (7) their environmental concerns; and (8) any additional feedback.

ATSDR is seeking a three-year clearance for this new ICR. ATSDR anticipates that approximately six to seven sites will be engaged for feedback per year (or about 20 sites over the next three years). Each year, ATSDR will recruit approximately 167 individuals per year, aged 18 and older, to participate in the ACAS where ATSDR is holding public community meetings. Therefore, respondents will include approximately 24 to 28 community members and agency stakeholders per meeting (6 to 7 meetings per year). The community members may include, but are not limited to, the general public, community leaders, faith-based leaders,

and business leaders. The agency stakeholders may include, but are not limited to, state and local environmental health department employees, such as environmental health assessors, toxicologists, and departmental officials. The mix of respondents will be approximately 75 percent community members (n = 125 per year) and 25 percent agency stakeholders (n = 42 per year).

Trained ATSDR contractors will have a table set up at the entrance of the community meeting where community meeting attendees will pick up a fact sheet which explains what ATSDR does, and the purpose of ATSDR’s site activities and the survey.

At the end of ATSDR public community meetings, there will be an announcement to ask interested attendees to take the survey. All interested attendees will sign in and provide their contact information, their preferred mode for taking the survey (in-person, online or over the phone), and whether they are a community member or an agency stakeholder.

The ACAS will preferably be self-administered right after the public community meetings. If this is not a convenient time for the respondent, the ACAS may be completed online or by phone. We estimate that approximately 80 percent of respondents will choose the self-administered ACAS, 15 percent will choose the online ACAS, and 5 percent will choose the telephone ACAS.

There are no costs to the respondents other than their time. The total annual time burden requested is 96 hours per year.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hrs.)	Total burden (in hrs.)
Community Members	Sign In Sheet	125	1	3/60	7
	Hardcopy ACAS	100	1	30/60	50
	Online ACAS	19	1	30/60	10
Agency Stakeholders	Telephone ACAS	7	1	30/60	4
	Sign In Sheet	42	1	3/60	3
	Hardcopy ACAS	34	1	30/60	17
	Online ACAS	7	1	30/60	4
	Telephone ACAS	2	1	30/60	1
Total		167			96

BILLING CODE 4163-70-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Request for Nominations of Candidates To Serve on the Advisory Council for the Elimination of Tuberculosis (ACET)

The Centers for Disease Control and Prevention (CDC) is soliciting nominations for membership on ACET. The ACET consists of 10 experts in fields associated with public health, epidemiology, immunology, infectious diseases, pulmonary disease, pediatrics, tuberculosis, microbiology, or preventive health care delivery, who are selected by the Secretary of the United States Department of Health and Human Services (HHS). ACET provides advice and recommendations to the Secretary, HHS; the Assistant Secretary of Health; and the Director, CDC, regarding program policies, strategies, objectives, and priorities; address the development and application of new technologies; provide guidance and review on CDC's Tuberculosis prevention research portfolio and program priorities; and review the extent to which progress has been made toward eliminating tuberculosis.

Nominations are being sought for individuals who have expertise and qualifications necessary to contribute to the accomplishments of the committee's objectives. Nominees will be selected based on expertise in the field of epidemiology, immunology, infectious diseases, pulmonary disease, pediatrics, tuberculosis, microbiology, preventive health care delivery, and experts in public health. Federal employees will not be considered for membership. Members may be invited to serve for four-year terms.

The next cycle of selection of candidates will begin in the Fall of 2016 for selection of potential nominees to replace members whose terms will end on June 30, 2018. Selection of members is based on candidates' qualifications to contribute to the accomplishment of ACET objectives.

The U. S. Department of Health and Human Services policy stipulates that committee membership be balanced in

terms of points of view represented, and the committee's function. Appointments shall be made without discrimination on the basis of age, race, ethnicity, gender, sexual orientation, gender identity, HIV status, disability, and cultural, religious, or socioeconomic status. Nominees must be U.S. citizens, and cannot be full-time employees of the U.S. Government. Current participation on federal workgroups or prior experience serving on a federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships. Committee members are Special Government Employees, requiring the filing of financial disclosure reports at the beginning and annually during their terms. CDC reviews potential candidates for ACET membership each year, and provides a slate of nominees for consideration to the Secretary of HHS for final selection. HHS notifies selected candidates of their appointment near the start of the term in July 1, 2018, or as soon as the HHS selection process is completed. Note that the need for different expertise varies from year to year and a candidate who is not selected in one year may be reconsidered in a subsequent year.

Candidates should submit the following items. The deadline for receipt of materials for the 2017 term is October 31, 2016:

- Current curriculum vitae, including complete contact information (telephone numbers, mailing address, email address).
- At least one letter of recommendation from person(s) not employed by the U.S. Department of Health and Human Services (Candidates may submit letter(s) from current HHS employees if they wish, but at least one letter must be submitted by a person not employed by an HHS agency (e.g., CDC, NIH, FDA, etc.).

The deadline for receipts of all application materials for consideration for term beginning July 1, 2018 is due October 31, 2016 electronically or in writing, and must be postmarked by October 31, 2016.

Regular, Express or Overnight Mail to: Margie Scott-Cseh, Committee Management Specialist, NCHHSTP, CDC, 1600 Clifton Road NE., Mailstop: E07, Atlanta, GA 30329

Electronic submissions may be sent to: zkr7@cdc.gov.

Telephone and facsimile submissions cannot be accepted. Nominations may be submitted by the candidate or by the person/organization recommending the candidate.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the CDC and the Agency for Toxic Substances and Disease Registry.

Elaine L. Baker,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

Centers for Disease Control and Prevention

[30Day-16-16AMV]

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Written
