

**Medicare Outpatient Observation Notice (MOON)(CMS-10611)**

OMB No. 0938-1308: Justification of Non-material Change

The Centers for Medicare and Medicaid Services is requesting approval of the Spanish language version of the Medicare Outpatient Observation Notice (MOON) so that we may release it to affected hospitals. This version is for inclusion in the information collection request currently approved under 0938-1308. We were awaiting OMB approval of the English language version before finalizing the Spanish language version of the MOON. The content of the Spanish language version is unchanged from the OMB approved English language version. Any differences are due to translation.
