This data is being collected through the National Clean Fleets Partnership to enable DOE to measure the impact and progress of the Partnership. The data you supply will be will be used to establish a baseline for each fleet, which will be used for future comparisons and analysis of instituted programs and policies. Public reporting burden for this collection of information is estimated to average 1.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Office of the Chief Information Officer, Enterprise Policy Development & Implementation Office, IM-22, Paperwork Reduction Project 1910-5171, U.S. Department of Energy, 1000 Independence Ave SW, Washington, DC, 20585-1290; and to the Office of Management and Budget (OMB), OIRA, Paperwork Reduction Project 1910-5171, Washington, DC 20503.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB control number.

Submission of this data is voluntary.

- 1. Number of vehicles by category and fuel type
- 2. Amount of fuel used by vehicle and fuel type
- 3. Annual miles traveled by vehicle and fuel type
- 4. Fuel use by zipcode (Tab #2)
- 5. Clean Cities Coalition involvement (Tab #3)6. Fueling infrastructure (Tab #4)
- 7. Fuel economy technologies in use

1. Vehicle Data	Number of Vehicles									
	Biodiesel	CNG	LNG	LPG	E85	HEV	PHEV	EV	Diesel	Gasoline
Light Duty (Class 1 & 2, <10,000 lbs GVWR)										
Light Heavy Duty (Class 3, 10,001 to 14,000 lbs.)										
Medium Heavy Duty (Class 4-6, 14,001 to 26,000 lbs.)										
Heavy Heavy Duty (Class 7 and 8, >26,001 lbs)										

2. Fuel Data		Quantity of fuel used in given vehicle categories									
	Biodiesel*	CNG	LNG	LPG	E85	Electricity**		Diesel	Gasoline		
						EV	PHEV	1			
Light Duty (Class 1 & 2, <10,000 lbs GVWR)											
Light Heavy Duty (Class 3, 10,001 to 14,000 lbs.)											
Medium Heavy Duty (Class 4-6, 14,001 to 26,000 lbs.)											
Heavy Heavy Duty (Class 7 and 8, >26,001 lbs)											
Unit that fuel is reported in. Please write the unit in this row. Gallons, standard cubic feet, kWh, gasoline-gallon equivalent (GGE), and diesel-gallon equivalent (DGE) are all acceptable.											
	*Please	*Please report biodiesel in gallons of B100 even if it was used as lower-level blends.									
	••	**Please report the amount of electricity (kWh) used by EVs and PHEVs.							l		

3. Annual Mileage Data	Number of miles traveled by this vehicle group annually									
	Biodiesel	CNG	LNG	LPG	E85	HEV	PHEV	EV	Diesel	Gasoline
Light Duty (Class 1 & 2, <10,000 lbs GVWR)										
Light Heavy Duty (Class 3, 10,001 to 14,000 lbs.)										
Medium Heavy Duty (Class 4-6, 14,001 to 26,000 lbs.)										
Heavy Heavy Duty (Class 7 and 8, >26,001 lbs)										

4. Fueling Infrastructure	Number of fueling stations owned or operated by organization.								
	Biodiesel	CNG	LNG	LPG	E85	EVSE***	Diesel	Gasoline	
Indicate the amount of infrastructure owned or operated by your organization. Station locations can be provided in Tab #4.									
On this line please indicate the number of EVSE outlets available for employee use only (workplace charging).									
	***EVSE are counted once for each outlet available. For example, 5 charging posts with 2								

Clean Cities Coalition Involvement

Please list the Clean Cities coalitions that are actively working with your organization on AFV deployment and/or reporting.

Approximately what percentage of your fleet is operating or refueling within the boundaries of this coalition?

Note: If you are providing data on Fuel Use By Zipcode (Tab 2), you can leave this field blank because we will automatically assign petroleum displacement numbers to coalition(s) based on the zipcode data.

Zipcode (based on garage locations)

Fuel type

Amount (gge, dge, kWh, etc.)

Address City State
