

DEPARTMENT OF ENERGY**Office of Energy Efficiency and Renewable Energy**

[Case No. CR-006]

Notice of Petition for Waiver of AHT Cooling Systems GmbH and AHT Cooling Systems USA Inc. From the Department of Energy Commercial Refrigerator, Freezer, and Refrigerator-Freezer Test Procedures and Partial Granting of an Interim Waiver; Withdrawal

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver, partial granting of an interim waiver, and request for public comment; withdrawal.

SUMMARY: The U.S. Department of Energy (DOE) is withdrawing its notice of petition for waiver, partial granting of an interim waiver, and request for public comment for AHT Cooling Systems GmbH and AHT Cooling Systems USA Inc. ("AHT") from the commercial refrigerator, freezer, and refrigerator-freezer ("CRE") test procedures. The notice published on March 28, 2017, included an error in the calculations to determine daily energy consumption in the alternate test procedure and omitted a step needed to accurately capture the entire defrost energy contribution. Therefore, DOE is withdrawing the notice in its entirety and will republish the notice with corrected calculations and associated discussion.

DATES: The notice published at 82 FR 15345 on March 28, 2017, is withdrawn as of April 12, 2017.

FOR FURTHER INFORMATION CONTACT:

Mr. Bryan Berringer, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-0371. Email: AS_Waiver_Request@ee.doe.gov.

Johanna Jochum, U.S. Department of Energy, Office of the General Counsel, Mail Stop GC-33, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585-0103. Telephone: (202) 287-63007. Email: Johanna.Jochum@hq.doe.gov.

SUPPLEMENTARY INFORMATION: DOE is withdrawing its notice of petition for waiver, partial granting of an interim waiver, and request for public comment for AHT from the CRE test procedures. The notice published on March 28, 2017, included an error in the calculations to determine daily energy

consumption in the alternate test procedure. 82 FR 15345, 15348. Specifically, the notice included an error in the calculation of t_{DS} , the sum of defrost time per week. The notice incorrectly showed that value calculated as the duration of one defrost cycle divided by the maximum number of defrosts per week. The correct calculation would be the duration of one defrost cycle multiplied by the maximum number of defrosts per week.

In addition, the notice omitted the test methodology instructions to capture the entire defrost operation. As published, the test period would only capture the defrost itself and not any pre-cooling or temperature recovery periods that would use more energy along with the defrost.

Because of this error and omission, DOE is withdrawing the March 28, 2017, notice in its entirety and will republish the notice to correct the error. While DOE works to expeditiously correct and republish the interim waiver, AHT's original application will be considered pending and DOE's enforcement policy on test procedure waivers will apply.¹

Issued in Washington, DC, on April 6, 2017.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**National Nuclear Security Administration****Agency Information Collection Extension**

AGENCY: National Nuclear Security Administration, U.S. Department of Energy.

ACTION: Submission for Office of Management and Budget (OMB) review; comment request.

SUMMARY: The Department of Energy (DOE) has submitted an information collection request to the OMB for an extension under the provisions of the Paperwork Reduction Act of 1995. The information collection request seeks a three-year extension of The American Assured Fuel Supply Program, OMB Control Number 1910-5173. The

¹ For additional information on DOE's enforcement policy pertaining to test procedure waivers, see <https://www.energy.gov/gc/downloads/enforcement-policy-application-waivers-and-waiver-process>.

proposed collection will help determine if applicants have provided sufficient information for the Office of Nonproliferation and Arms Control to evaluate requests of applicants for use of the American Assured Fuel Supply.

DATES: Comments regarding this collection must be received on or before May 12, 2017. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202-395-4718.

ADDRESSES: Written comments should be sent to the DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503 and to Richard Goorevich, Senior Policy Advisor, Office of Nonproliferation and Arms Control, National Nuclear Security Administration, U.S. Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585, or by fax at 202-586-1348 or by email at richard.goorevich@nnsa.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Richard Goorevich, Senior Policy Advisor, Office of Nonproliferation and Arms Control, National Nuclear Security Administration, U.S. Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585, or by fax at 202-586-1348 or by email at richard.goorevich@nnsa.doe.gov.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) OMB No. 1910-5173; (2) Information Collection Request Title: The American Assured Fuel Supply Program; (3) Type of Request: Renewal; (4) Purpose: DOE created the American Assured Fuel Supply (AFS), a reserve of low enriched uranium (LEU) to serve as backup fuel supply for foreign recipients to be supplied through U.S. persons or for domestic recipients, in the event of fuel supply disruption. DOE is committed to making the AFS available to eligible recipients in the case of supply disruptions in the nuclear fuel market. This effort supports the United States Government's nuclear nonproliferation objectives by supporting civilian nuclear energy development while minimizing proliferation risks. DOE published a Notice of Availability for AFS on August 18, 2011, and published an application on December 2, 2013, in the **Federal Register** to standardize the information that must be provided in a request to access the material in the AFS

as set forth in the Notice of Availability. 76 FR 51357, 51358. This application form is necessary in order for DOE to identify if applicants meet basic requirements for use of the AFS and implement this important nonproliferation initiative; (5) Annual Estimated Number of Respondents: 10; (6) Annual Estimated Number of Total Responses: 10; (7) Annual Estimated Number of Burden Hours: 8; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: \$1,800.

Statutory Authority: The Secretary of Energy is authorized pursuant to the Atomic Energy Act of 1954, as amended (Pub. L. 83-703), and the Nuclear Non-Proliferation Act of 1978 (NNPA) (Pub. L. 95-242) to encourage the widespread use of atomic energy for peaceful purposes, and to cooperate with other nations by distributing nuclear material where appropriate safeguards measures are in place to ensure the material is properly controlled and used for peaceful purposes. In 2005, DOE set aside a portion of its LEU inventory to be used to support the International Atomic Energy Agency's (IAEA) International Nuclear Fuel Bank (INFB) initiative, which is envisioned as an LEU reserve that will be administered by the IAEA and that will serve as a back-up for global supply disruptions. Congress later appropriated \$49,540,000 in the Consolidated Appropriations Act, 2008 (Pub. L. 110-161) to fund a portion of the INFB. Congress, in the Explanatory Statement accompanying the House Appropriations Committee Print (which in the Act was given the same effect as a joint explanatory statement), noted that the INFB freed up DOE's LEU set-aside, and recommended DOE also "allow U.S. interests to purchase uranium fuel from the Reliable Fuel Supply [now the AFS] in the event of supply disruption." (H. Approp. Cmte. Print at 592.)

The sale of LEU from the AFS will be conducted consistent with applicable law, the policies and guidance in the "Secretary of Energy's 2008 Policy Statement of Management of the Department of Energy's Excess Uranium Inventory" (March 11, 2008), and the DOE Excess Uranium Inventory Management Plan.

Issued in Washington, DC on March 31, 2017.

David Huizenga,

Acting Deputy Administrator, Defense Nuclear Nonproliferation, National Nuclear Security Administration.

BILLING CODE 6450-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP17-101-000; PF16-5-000]

Transcontinental Gas Pipe Line Company, LLC; Notice of Application

Take notice that on March 27, 2017, Transcontinental Gas Pipe Line Company, LLC (Transco), P.O. Box 1396, Houston, Texas 77251, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA) for its proposed Northeast Supply Enhancement Project. Specifically, Transco proposes to: (i) Construct a 10.17-mile, 42-inch-diameter loop in Lancaster County, Pennsylvania; (ii) construct a 3.43-mile, 26-inch-diameter loop in Middlesex County, New Jersey; (iii) construct a 23.49-mile, 26-inch-diameter loop in Middlesex County, New Jersey and in New York State waters; (iv) add 21,902 horsepower (hp) at its existing Compressor Station 200 in Chester County, Pennsylvania; (v) construct a new 32,000 hp compressor station (Compressor Station 206) in Somerset County, New Jersey; and (vi) construct various additional facilities. Transco states that the Northeast Supply Enhancement Project will provide 400,000 dekatherms per day of firm transportation service. Transco estimates the cost of the project to be approximately \$926.5 million, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions concerning this application may be directed to Bill Hammons, Transcontinental Gas Pipe Line Company, LLC, P.O. Box 1396, Houston, Texas 77251, by telephone at (713) 215-2130.

On May 18, 2016, Commission staff granted Transco's request to utilize the Pre-Filing Process and assigned Docket No. PF16-5-000 to staff activities involved in the Northeast Supply Enhancement Project. Now, as of the March 27, 2017 application, the Pre-Filing Process for this project has ended. From this time forward, this proceeding

will be conducted in Docket No. CP17-101-000, as noted in the caption of the Notice.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) for this proposal. The issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this
