

## ***AUTHORIZING STATUTORY AND REGULATORY PROVISIONS***

**INFORMATION COLLECTION 3245-0009  
SBA FORM 480: SIZE STATUS DECLARATION**

- **Small Business Investment Act of 1958, codified at 15 U.S.C §687b**

### **Sec. 102. STATEMENT OF POLICY**

It is declared to be the policy of the Congress and the purpose of this Act to improve and stimulate the national economy in general and the small-business segment thereof in particular by establishing a program to stimulate and supplement the flow of private equity capital and long-term loan funds which small-business concerns need for the sound financing of their business operations and for their growth, expansion, and modernization, and which are not available in adequate supply: Provided, however, That this policy shall be carried out in such manner as to insure the maximum participation of private financing sources.

It is the intention of the Congress that the provisions of this Act shall be so administered that any financial assistance provided hereunder shall not result in a substantial increase of unemployment in any area of the country.

It is the intention of the Congress that in the award of financial assistance under this Act, when practicable, priority be accorded to small business concerns which lease or purchase equipment and supplies which are produced in the United States and that small business concerns receiving such assistance be encouraged to continue to lease or purchase such equipment and supplies.

### **Sec. 103. DEFINITIONS.**

As used in this Act—

(5) the term "small-business concern" shall have the same meaning as in the Small Business Act, except that, for purposes of this Act—

(A) an investment by a venture capital firm, investment company (including a small business investment company) employee welfare benefit plan or pension plan, or trust, foundation, or endowment that is exempt from Federal income taxation-

(i) shall not cause a business concern to be deemed not independently owned and operated regardless of the allocation of control during the investment period under any investment agreement between the business concern and the entity making the investment;

(ii) shall be disregarded in determining whether a business concern satisfies size standards established pursuant to section 3(a)(2) of the Small Business Act; and

(iii) shall be disregarded in determining whether a small business concern is a smaller enterprise; and

(B) in determining whether a business concern satisfies net income standards established pursuant to section 3(a)(2) of the Small Business Act, if the business concern is not required by law to pay

Federal income taxes at the enterprise level, but is required to pass income through to the shareholders, partners, beneficiaries, or other equitable owners of the business concern, the net income of the business concern shall be determined by allowing a deduction in an amount equal to the sum of—

- (i) if the business concern is not required by law to pay State (and local, if any) income taxes at the enterprise level, the net income (determined without regard to this subparagraph), multiplied by the marginal State income tax rate (or by the combined State and local income tax rates, as applicable) that would have applied if the business concern were a corporation; and
- (ii) the net income (so determined) less any deduction for State (and local) income taxes calculated under clause (i), multiplied by the marginal Federal income tax rate that would have applied if the business concern were a corporation;

*Sec. 308. MISCELLANEOUS*

(h) CERTIFICATIONS OF ELIGIBILITY.—

- (1) CERTIFICATION BY SMALL BUSINESS CONCERN.—Prior to receiving financial assistance from a company licensed pursuant to section 301, a small business concern shall certify in writing that it meets the eligibility requirements of the Small Business Investment Company Program or the Specialized Small Business Investment Company Program, as applicable.
- (2) CERTIFICATION BY COMPANY.—Prior to providing financial assistance to a small business concern under this Act, a company licensed pursuant to section 301 shall certify in writing that it has reviewed the application for assistance of the small business concern and that all documentation and other information supports the eligibility of the applicant.
- (3) RETENTION OF CERTIFICATIONS.—Certificates made pursuant to paragraphs (1) and (2) shall be retained by the company licensed pursuant to section 301 for the duration of the financial assistance.
  - (i) (1) The purpose of this subsection is to facilitate the orderly and necessary flow of long-term loans and equity funds from small business investment companies to small business concerns.
  - (2) In the case of a business loan, the small business investment company making such loan may charge interest on such loan at a rate which does not exceed the maximum rate prescribed by regulation by the Administration for loans made by any licensee (determined without regard to any State rate incorporated by such regulation). In this paragraph, the term “interest” includes only the maximum mandatory sum, expressed in dollars or as a percentage rate, that is payable with respect to the business loan amount received by the small business concern, and does not include the value, if any, of contingent obligations, including warrants, royalty, or conversion rights, granting the small business investment company an ownership interest in the equity or increased future revenue of the small business concern receiving the business loan.
  - (3) A State law or constitutional provision shall be preempted for purposes of paragraph (2) with respect to any loan if such loan is made before the date, on or after April 1, 1980, on which such State adopts a law or certifies that the voters of such State have voted in favor of any

provision, constitutional or otherwise, which states explicitly and by its terms that such State does not want the provisions of this subsection to apply with respect to loans made in such State, except that such State law or constitutional or other provision shall be preempted in the case of a loan made, on or after the date on which such law is adopted or such certification is made, pursuant to a commitment to make such loan which was entered into on or after April 1, 1980, and prior to the date on which such law is adopted or such certification is made.

(4) (A) If the maximum rate of interest authorized under paragraph (2) on any loan made by a small business investment company exceeds the rate which would be authorized by applicable State law if such State law were not preempted for purposes of this subsection, the charging of interest at any rate in excess of the rate authorized by paragraph (2) shall be deemed a forfeiture of the greater of (i) all interest which the loan carries with it, or (ii) all interest which has been agreed to be paid thereon.

(B) In the case of any loan with respect to which there is a forfeiture of interest under subparagraph (A), the person who paid the interest may recover from a small business investment company making such loan an amount equal to twice the amount of the interest paid on such loan. Such interest may be recovered in a civil action commenced in a court of appropriate jurisdiction not later than two years after the most recent payment of interest.

Sec. 310. EXAMINATIONS AND INVESTIGATIONS

(a) Investigation of violations

The Administration may make such investigations as it deems necessary to determine whether a licensee or any other person has engaged or is about to engage in any acts or practices which constitute or will constitute a violation of any provision of this chapter, or of any rule or regulation under this chapter, or of any order issued under this chapter. The Administration shall permit any person to file with it a statement in writing, under oath or otherwise as the Administration shall determine, as to all the facts and circumstances concerning the matter to be investigated. For the purpose of any investigation, the Administration is empowered to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, and documents which are relevant to the inquiry. Such attendance of witnesses and the production of any such records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpena issued to, any person, including a licensee, the Administration may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the attendance and testimony of witnesses and the production of books, papers, and documents; and such court may issue an order requiring such person to appear before the Administration, there to produce records, if so ordered, or to give testimony touching the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt thereof. All process in any such case may be served in the judicial district whereof such person is an inhabitant or wherever he may be found.

(b) Examinations and reports

Each small business investment company shall be subject to examinations made by direction of the Investment Division of the Administration, which may be conducted with the assistance of a private sector entity that has both the qualifications to conduct and expertise in conducting such examinations, and the cost of such examinations, including the compensation of the examiners, may in the discretion of the Administration be assessed against the company examined and when so assessed shall be paid by such company. Fees collected under this subsection shall be deposited in the account for salaries and expenses of the Administration, and are authorized to be appropriated solely to cover the costs of examinations and other program oversight activities. Every such company shall make such reports to the Administration at such times and in such form as the Administration may require; except that the Administration is authorized to exempt from making such reports any such company which is registered under the Investment Company Act of 1940 [15 U.S.C. 80a-1 et seq.] to the extent necessary to avoid duplication in reporting requirements.

(c) Examinations of small business investment companies

Each small business investment company shall be examined at least every two years in such detail so as to determine whether or not—

- (1) it has engaged solely in lawful activities and those contemplated by this subchapter;
- (2) it has engaged in prohibited conflicts of interest;
- (3) it has acquired or exercised illegal control of an assisted small business;
- (4) it has made investments in small businesses for not less than 1 year;
- (5) it has invested more than 20 per centum of its capital in any individual small business, if such restriction is applicable;
- (6) it has engaged in relending, foreign investments, or passive investments; or
- (7) it has charged an interest rate in excess of the maximum permitted by law:

Provided, That the Administration may waive the examination

- (A) for up to one additional year if, in its discretion, it determines such a delay would be appropriate, based upon the amount of debentures being issued by the company and its repayment record, the prior operating experience of the company, the contents and results of the last examination and the management expertise of the company, or
- (B) if it is a company whose operations have been suspended while the company is involved in litigation or is in receivership.

• **13 CFR §§107.610, 690-691, 700; 121.301(c)**

**§107.50 Definition of terms**

*Affiliate* or *Affiliates* has the meaning set forth in §121.103 of this chapter.

#### §107.610 Required certifications for Loans and Investments.

For each of your Loans and Investments, you must have the documents listed in this section. Except for information and documentation prepared under paragraphs (f)(2) and (3) of this section, you must keep these documents in your files and make them available to SBA upon request.

- (a) SBA Form 480, the Size Status Declaration, executed both by you and by the concern you are financing. By executing this document, both parties certify that the concern is a Small Business. For securities purchased from an underwriter in a public offering, you may substitute a prospectus showing that the concern is a Small Business.

#### §107.690 Examinations.

SBA will examine all Licensees for the purpose of evaluating regulatory compliance.

#### §107.691 Responsibilities of Licensee during examination.

You must make all books, records and other pertinent documents and materials available for the examination, including any information required by the examiner under Sec. 107.620(c). In addition, the agreement between you and the independent public accountant performing your audit must provide that any information in the accountant's working papers be made available to SBA upon request.

#### §107.700 Compliance with size standards in part 121 of this chapter as a condition of Assistance.

You are permitted to provide financial assistance and management services only to a Small Business. To determine whether an applicant is a Small Business, you may use either the financial size standards in § 121.301(c)(2) of this chapter or the industry standard covering the industry in which the applicant is primarily engaged, as set forth in §121.301(c)(1) of this chapter.

- **13 CFR §§121.103, 301(c)**

#### §121.103 How does SBA determine affiliation?

(a) *General Principles of Affiliation.* (1) Concerns and entities are affiliates of each other when one controls or has the power to control the other, or a third party or parties controls or has the power to control both. It does not matter whether control is exercised, so long as the power to control exists.

(2) SBA considers factors such as ownership, management, previous relationships with or ties to another concern, and contractual relationships, in determining whether affiliation exists.

(3) Control may be affirmative or negative. Negative control includes, but is not limited to, instances where a minority shareholder has the ability, under the concern's charter, by-laws, or shareholder's agreement, to prevent a quorum or otherwise block action by the board of directors or shareholders.

(4) Affiliation may be found where an individual, concern, or entity exercises control indirectly through a third party.

(5) In determining whether affiliation exists, SBA will consider the totality of the circumstances, and may find affiliation even though no single factor is sufficient to constitute affiliation.

(6) In determining the concern's size, SBA counts the receipts, employees, or other measure of size of the concern whose size is at issue and all of its domestic and foreign affiliates, regardless of whether the affiliates are organized for profit.

(7) For SBA's Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs, the bases for affiliation are set forth in § 121.702.

(b) *Exceptions to affiliation coverage.* (1) Business concerns owned in whole or substantial part by investment companies licensed, or development companies qualifying, under the Small Business Investment Act of 1958, as amended, are not considered affiliates of such investment companies or development companies.

(2)(i) Business concerns owned and controlled by Indian Tribes, Alaska Native Corporations (ANCs) organized pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 *et seq.* ), Native Hawaiian Organizations (NHOs), Community Development Corporations (CDCs) authorized by 42 U.S.C. 9805, or wholly-owned entities of Indian Tribes, ANCs, NHOs, or CDCs are not considered affiliates of such entities.

(ii) Business concerns owned and controlled by Indian Tribes, ANCs, NHOs, CDCs, or wholly-owned entities of Indian Tribes, ANCs, NHOs, or CDCs are not considered to be affiliated with other concerns owned by these entities because of their common ownership or common management. In addition, affiliation will not be found based upon the performance of common administrative services, such as bookkeeping and payroll, so long as adequate payment is provided for those services. Affiliation may be found for other reasons.

(A) Common administrative services which are subject to the exception to affiliation include, bookkeeping, payroll, recruiting, other human resource support, cleaning services, and other duties which are otherwise unrelated to contract performance or management and can be reasonably pooled or otherwise performed by a holding company, parent entity, or sister business concern without interfering with the control of the subject firm.

(B) Contract administration services include both services that could be considered “common administrative services” under the exception to affiliation and those that could not.

(1) Contract administration services that encompass actual and direct day-to-day oversight and control of the performance of a contract/project are not shared common administrative services, and would include tasks or functions such as negotiating directly with the government agency regarding proposal terms, contract terms, scope and modifications, project scheduling, hiring and firing of employees, and overall responsibility for the day-to-day and overall project and contract completion.

(2) Contract administration services that are administrative in nature may constitute administrative services that can be shared, and would fall within the exception to affiliation. These administrative services include tasks such as record retention not related to a specific contract (e.g., employee time and attendance records), maintenance of databases for awarded contracts, monitoring for regulatory compliance, template development, and assisting accounting with invoice preparation as needed.

(C) Business development may include both services that could be considered “common administrative services” under the exception to affiliation and those that could not. Efforts at the holding company or parent level to identify possible procurement opportunities for specific subsidiary companies may properly be considered “common administrative services” under the exception to affiliation. However, at some point the opportunity identified by the holding company's or parent entity's business development efforts becomes concrete enough to assign to a subsidiary and at that point the subsidiary must be involved in the business development efforts for such opportunity. At the proposal or bid preparation stage of business development, the appropriate subsidiary company for the opportunity has been identified and a representative of that company must be involved in preparing an appropriate offer. This does not mean to imply that one or more representatives of a holding company or parent entity cannot also be involved in preparing an offer. They may be involved in assisting with preparing the generic part of an offer, but the specific subsidiary that intends to ultimately perform the contract must

control the technical and contract specific portions of preparing an offer. In addition, once award is made, employee assignments and the logistics for contract performance must be controlled by the specific subsidiary company and should not be performed at a holding company or parent entity level.

(3) Business concerns which are part of an SBA approved pool of concerns for a joint program of research and development or for defense production as authorized by the Small Business Act are not affiliates of one another because of the pool.

(4) Business concerns which lease employees from concerns primarily engaged in leasing employees to other businesses or which enter into a co-employer arrangement with a Professional Employer Organization (PEO) are not affiliated with the leasing company or PEO solely on the basis of a leasing agreement.

(5) For financial, management or technical assistance under the Small Business Investment Act of 1958, as amended, (an applicant is not affiliated with the investors listed in paragraphs (b)(5) (i) through (vi) of this section.

(i) Venture capital operating companies, as defined in the U.S. Department of Labor regulations found at 29 CFR 2510.3-101(d);

(ii) Employee benefit or pension plans established and maintained by the Federal government or any state, or their political subdivisions, or any agency or instrumentality thereof, for the benefit of employees;

(iii) Employee benefit or pension plans within the meaning of the Employee Retirement Income Security Act of 1974, as amended (29 U.S.C. 1001, *et seq.*);

(iv) Charitable trusts, foundations, endowments, or similar organizations exempt from Federal income taxation under section 501(c) of the Internal Revenue Code of 1986, as amended (26 U.S.C. 501(c));

(v) Investment companies registered under the Investment Company Act of 1940, as amended (1940 Act) (15 U.S.C. 80a-1, *et seq.*); and

(vi) Investment companies, as defined under the 1940 Act, which are not registered under the 1940 Act because they are beneficially owned by less than 100 persons, if the company's sales literature or organizational documents indicate that its principal purpose is investment in securities rather than the operation of commercial enterprises.

(6) A firm that has an SBA-approved mentor-protégé agreement authorized under §124.520 or §125.9 of this chapter is not affiliated with its mentor firm solely because the protégé firm receives assistance from the mentor under the agreement. Similarly, a protégé firm is not affiliated with its mentor solely because the protégé firm receives assistance from the mentor under a federal mentor-protégé program where an exception to affiliation is specifically authorized by statute or by SBA under the procedures set forth in §121.903. Affiliation may be found in either case for other reasons as set forth in this section.

(7) The member shareholders of a small agricultural cooperative, as defined in the Agricultural Marketing Act (12 U.S.C. 1141j), are not considered affiliated with the cooperative by virtue of their membership in the cooperative.

(8) These exceptions to affiliation and any others set forth in §121.702 apply for purposes of SBA's SBIR and STTR programs.

(9) In the case of a solicitation for a bundled contract, a small business contractor may enter into a Small Business Teaming Arrangement with one or more small business subcontractors and submit an offer as a small business without regard to affiliation, so long as each team member is small for the size standard assigned to the contract or subcontract. The agency shall evaluate the offer in the same manner as other offers with due consideration of the capabilities of the subcontractors.

(c) *Affiliation based on stock ownership.* (1) A person (including any individual, concern or other entity) that owns, or has the power to control, 50 percent or more of a concern's voting stock, or a block of voting stock which is large compared to other outstanding blocks of voting stock, controls or has the power to control the concern.

(2) If two or more persons (including any individual, concern or other entity) each owns, controls, or has the power to control less than 50 percent of a concern's voting stock, and such minority holdings are equal or approximately equal in size, and the aggregate of these minority holdings is large as compared with any other stock holding, SBA presumes that each such person controls or has the power to control the concern whose size is at issue. This presumption may be rebutted by a showing that such control or power to control does not in fact exist.

(3) If a concern's voting stock is widely held and no single block of stock is large as compared with all other stock holdings, the concern's Board of Directors and CEO or President will be deemed to have the power to control the concern in the absence of evidence to the contrary.

(d) *Affiliation arising under stock options, convertible securities, and agreements to merge.* (1) In determining size, SBA considers stock options, convertible securities, and agreements to merge (including agreements in principle) to have a present effect on the power to control a concern. SBA treats such options, convertible securities, and agreements as though the rights granted have been exercised.

(2) Agreements to open or continue negotiations towards the possibility of a merger or a sale of stock at some later date are not considered "agreements in principle" and are thus not given present effect.

(3) Options, convertible securities, and agreements that are subject to conditions precedent which are incapable of fulfillment, speculative, conjectural, or unenforceable under state or Federal law, or where the probability of the transaction (or exercise of the rights) occurring is shown to be extremely remote, are not given present effect.

(4) An individual, concern or other entity that controls one or more other concerns cannot use options, convertible securities, or agreements to appear to terminate such control before actually doing so. SBA will not give present effect to individuals', concerns' or other entities' ability to divest all or part of their ownership interest in order to avoid a finding of affiliation.

(e) *Affiliation based on common management.* Affiliation arises where one or more officers, directors, managing members, or partners who control the board of directors and/or management of one concern also control the board of directors or management of one or more other concerns.

(f) *Affiliation based on identity of interest.* Affiliation may arise among two or more persons with an identity of interest. Individuals or firms that have identical or substantially identical business or economic interests (such as family members, individuals or firms with common investments, or firms that are economically dependent through contractual or other relationships) may be treated as one party with such interests aggregated. Where SBA determines that such interests should be aggregated, an individual or firm may rebut that determination with evidence showing that the interests deemed to be one are in fact separate.

(1) Firms owned or controlled by married couples, parties to a civil union, parents, children, and siblings are presumed to be affiliated with each other if they conduct business with each other, such as subcontracts or joint ventures or share or provide loans, resources, equipment, locations or employees with one another. This presumption may be overcome by showing a clear line of fracture between the concerns. Other types of familial relationships are not grounds for affiliation on family relationships.

(2) SBA may presume an identity of interest based upon economic dependence if the concern in question derived 70% or more of its receipts from another concern over the previous three fiscal years.

(i) This presumption may be rebutted by a showing that despite the contractual relations with another concern, the concern at issue is not solely dependent on that other concern, such as where the concern has been in business for a short amount of time and has only been able to secure a limited number of contracts.

(ii) A business concern owned and controlled by an Indian Tribe, ANC, NHO, CDC, or by a wholly-owned entity of an Indian Tribe, ANC, NHO, or CDC, is not considered to be affiliated with another concern owned by that entity based solely on the contractual relations between the two concerns.

Example 1 to paragraph (f). Firm A has been in business for 9 months and has two contracts. Contract 1 is with Firm B and is valued at \$900,000 and Contract 2 is with Firm C and is valued at \$200,000. Thus, Firm B accounts for over 70% of Firm A's receipts. Absent other connections between A and B, the presumption of affiliation between A and B is rebutted because A is a new firm.

Example 2 to paragraph (f). Firm A has been in business for five years. It has over 200 contracts. Of that 200, 195 are with Firm B, and the value of those contracts is greater than 70% of the revenue over the previous three years. In this case, SBA would most likely find the two firms affiliated unless the firm could provide some other compelling rebuttal to the very strong presumption that it should be considered affiliated with Firm B.

(g) *Affiliation based on the newly organized concern rule.* Affiliation may arise where former officers, directors, principal stockholders, managing members, or key employees of one concern organize a new concern in the same or related industry or field of operation, and serve as the new concern's officers, directors, principal stockholders, managing members, or key employees, and the one concern is furnishing or will furnish the new concern with contracts, financial or technical assistance, indemnification on bid or performance bonds, and/or other facilities, whether for a fee or otherwise. A concern may rebut such an affiliation determination by demonstrating a clear line of fracture between the two concerns. A "key employee" is an employee who, because of his/her position in the concern, has a critical influence in or substantive control over the operations or management of the concern.

(h) *Affiliation based on joint ventures.* A joint venture is an association of individuals and/or concerns with interests in any degree or proportion consorting to engage in and carry out no more than three specific or limited-purpose business ventures for joint profit over a two year period, for which purpose they combine their efforts, property, money, skill, or knowledge, but not on a continuing or permanent basis for conducting business generally. This means that a specific joint venture entity generally may not be awarded more than three contracts over a two year period, starting from the date of the award of the first contract, without the partners to the joint venture being deemed affiliated for all purposes. Once a joint venture receives one contract, SBA will determine compliance with the three awards in two years rule for future awards as of the date of initial offer including price. As such, an individual joint venture may be awarded more than three contracts without SBA finding general affiliation between the joint venture partners where the joint venture had received two or fewer contracts as of the date it submitted one or more additional offers which thereafter result in one or more additional contract awards. The same two (or more) entities may create additional joint ventures, and each new joint venture entity may be

awarded up to three contracts in accordance with this section. At some point, however, such a longstanding inter-relationship or contractual dependence between the same joint venture partners will lead to a finding of general affiliation between and among them. For purposes of this provision and in order to facilitate tracking of the number of contract awards made to a joint venture, a joint venture: Must be in writing and must do business under its own name; must be identified as a joint venture in the System for Award Management (SAM); may be in the form of a formal or informal partnership or exist as a separate limited liability company or other separate legal entity; and, if it exists as a formal separate legal entity, may not be populated with individuals intended to perform contracts awarded to the joint venture (*i.e.*, the joint venture may have its own separate employees to perform administrative functions, but may not have its own separate employees to perform contracts awarded to the joint venture). SBA may also determine that the relationship between a prime contractor and its subcontractor is a joint venture, and that affiliation between the two exists, pursuant to paragraph (h)(5) of this section. For purposes of this paragraph (h), contract refers to prime contracts, and any subcontract in which the joint venture is treated as a similarly situated entity as the term is defined in part 125 of this chapter.

*Example 1 to paragraph (h) introductory text.* Joint Venture AB has received two contracts. On April 2, Joint Venture AB submits an offer for Solicitation 1. On June 6, Joint Venture AB submits an offer for Solicitation 2. On July 13, Joint Venture AB submits an offer for Solicitation 3. In September, Joint Venture AB is found to be the apparent successful offeror for all three solicitations. Even though the award of the three contracts would give Joint Venture AB a total of five contract awards, it could receive those awards without causing general affiliation between its joint venture partners because Joint Venture AB had not yet received three contract awards as of the dates of the offers for each of three solicitations at issue.

*Example 2 to paragraph (h) introductory text.* Joint Venture XY receives a contract on December 19, year 1. It may receive two additional contracts through December 19, year 3. On August 6, year 2, XY receives a second contract. It receives no other contract awards through December 19, year 3 and has submitted no additional offers prior to December 19, year 3. Because two years have passed since the date of the first contract award, after December 19, year 3, XY cannot receive an additional contract award. The individual parties to XY must form a new joint venture if they want to seek and be awarded additional contracts as a joint venture.

*Example 3 to paragraph (h) introductory text.* Joint Venture XY receives a contract on December 19, year 1. On May 22, year 2, XY submits an offer for Solicitation 1. On June 10, year 2, XY submits an offer for Solicitation 2. On June 19, year 2, XY receives a second contract responding to Solicitation 1. XY is not awarded a contract responding to Solicitation 2. On December 15, year 3, XY submits an offer for Solicitation 3. In January, XY is found to be the apparent successful offeror for Solicitation 3. XY is eligible for the contract award because compliance with the three awards in two years rule is determined as of the date of the initial offer including price, XY submitted its offer prior to December 19, year 3, and XY had not received three contract awards prior to its offer on December 15.

(1) Parties to a joint venture are affiliates if any one of them seeks SBA financial assistance for use in connection with the joint venture.

(2) Except as provided in paragraph (h)(3) of this section, concerns submitting offers on a particular procurement or property sale as joint venturers are affiliated with each other with regard to the performance of that contract.

(3) *Exception to affiliation for certain joint ventures.* (i) A joint venture of two or more business concerns may submit an offer as a small business for a Federal procurement, subcontract or sale so long as each concern is small under the size standard corresponding to the NAICS code assigned to the contract.

(ii) Two firms approved by SBA to be a mentor and protégé under §125.9 of this chapter may joint venture as a small business for any Federal government prime contract or subcontract, provided the protégé qualifies as small for the size standard corresponding to the NAICS code assigned to the procurement, and the joint venture meets the requirements of §125.18(b)(2) and (3), §126.616(c) and (d), or §127.506(c) and (d) of this chapter, as appropriate.

(iii) Two firms approved by SBA to be a mentor and protégé under §124.520 of these regulations may joint venture as a small business for any Federal government prime contract or subcontract, provided the protégé qualifies as small for the size standard corresponding to the NAICS code assigned to the procurement and, for purposes of 8(a) sole source requirements, has not reached the dollar limit set forth in §124.519 of these regulations. If the procurement is to be awarded through the 8(a) BD program, SBA must approve the joint venture pursuant to §124.513. If the procurement is to be awarded other than through the 8(a) BD program (*e.g.*, small business set aside, HUBZone set aside), SBA need not approve the joint venture prior to award, but if the size status of the joint venture is protested, the provisions of §§124.513(c) and (d) will apply. This means that the joint venture must meet the requirements of §§124.513(c) and (d) in order to receive the exception to affiliation authorized by this paragraph. In either case, after contract performance is complete, the 8(a) partner to the joint venture must submit a report to its servicing SBA district office explaining how the applicable performance of work requirements were met for the contract.

(4) A contractor and its ostensible subcontractor are treated as joint venturers, and therefore affiliates, for size determination purposes. An ostensible subcontractor is a subcontractor that performs primary and vital requirements of a contract, or of an order under a multiple award schedule contract, or a subcontractor upon which the prime contractor is unusually reliant. All aspects of the relationship between the prime and subcontractor are considered, including, but not limited to, the terms of the proposal (such as contract management, technical responsibilities, and the percentage of subcontracted work), agreements between the prime and subcontractor (such as bonding assistance or the teaming agreement), and whether the subcontractor is the incumbent contractor and is ineligible to submit a proposal because it exceeds the applicable size standard for that solicitation.

(5) For size purposes, a concern must include in its receipts its proportionate share of joint venture receipts, and in its total number of employees its proportionate share of joint venture employees.

(i) *Affiliation based on franchise and license agreements.* The restraints imposed on a franchisee or licensee by its franchise or license agreement relating to standardized quality, advertising, accounting format and other similar provisions, generally will not be considered in determining whether the franchisor or licensor is affiliated with the franchisee or licensee provided the franchisee or licensee has the right to profit from its efforts and bears the risk of loss commensurate with ownership. Affiliation may arise, however, through other means, such as common ownership, common management or excessive restrictions upon the sale of the franchise interest.

#### §121.301 What size standards are applicable to financial assistance programs?

(c) For the Small Business Investment Company (SBIC) program, an applicant must meet one of the following standards:

(1) The same standards applicable under paragraph (a) of this section; or

(2) Including its affiliates, tangible net worth not in excess of \$19.5 million, and average net income after Federal income taxes (excluding any carry-over losses) for the preceding two completed fiscal years not in excess of \$6.5 million. If the applicant is not required by law to pay Federal income taxes at the

enterprise level, but is required to pass income through to its shareholders, partners, beneficiaries, or other equitable owners, the applicant's "net income after Federal income taxes" will be its net income reduced by an amount computed as follows:

- (i) the applicant is not required by law to pay State (and local, if any) income taxes at the enterprise level, multiply its net income by the marginal State income tax rate (or by the combined State and local income tax rates, as applicable) that would have applied if it were a taxable corporation.
- (ii) Multiply the applicant's net income, less any deduction for State and local income taxes calculated under paragraph (c)(2)(i) of this section, by the marginal Federal income tax rate that would have applied if the applicant were a taxable corporation.
- (iii) Add the results obtained in paragraphs (c)(2)(i) and (c)(2)(ii) of this section.
