

**Change Request
0572-0096**

This change request is to correct the 190 “Annual Number of Responses” that was wrongly entered into ROCIS and subsequently approved by OMB on 10/17/2016. The 190 is the total number of respondents not responses. The correct number of responses is 4,104. Burden hours remain the same at 11,031.

The previously approved responses was 4,900 minus the incorrect 190 showed a decrease of 4,710. The decrease should only have been 796. This correction will actually show an increase 3,914 – the difference of 190 to 4,104 responses.
